Painting in Late Medieval and Renaissance Siena, 1260-1555 Diana Norman, 2003-01-01 The city of Siena one of Italy's major artistic centers was home to many celebrated painters among them Duccio Simone Martini Ambrogio and Pietro Lorenzetti Sassetta and Beccafumi This generously illustrated book provides a survey of Sienese painting from 1260 to 1555 an era of extraordinary artistic creativity in the Tuscan city Art historian Diana Norman addresses the style and artistic technique of Sienese painters throughout the three centuries and explores why paintings were made where they were originally seen and how they were used and enjoyed by their audiences The book focuses on works of art made for Siena itself many of which are still to be seen within the city Norman organizes the discussion around types of commissions and throughout the book situates the paintings within the context of the political social and religious circumstances of late medieval and renaissance Siena

Art as Politics in Late Medieval and Renaissance Siena Timothy B. Smith, 2017-07-05 In *Art as Politics in Late Medieval and Renaissance Siena* contributors explore the evolving relationship between image and politics in Siena from the time of the city state's defeat of Florence at the Battle of Montaperti in 1260 to the end of the Sienese Republic in 1550 Engaging issues of the politicization of art in Sienese painting sculpture architecture and urban design the volume challenges the still prevalent myth of Siena's cultural and artistic conservatism after the mid fourteenth century Clearly establishing uniquely Sienese artistic agendas and vocabulary these essays broaden our understanding of the intersection of art politics and religion in Siena by revisiting its medieval origins and exploring its continuing role in the Renaissance

The Art and Government Service of Francesco di Bartolomeo Alfei (c. 1421 - c. 1495) Anabel Thomas, 2025-10-01 In 1454 the Sienese painter Francesco di Bartolomeo Alfei faced litigation from the Mercanzia in Siena for defaulting on a contract from one of the leading Franciscan confraternities in the city Two fellow Sienese artists Giovanni di Paolo and Sano di Pietro had recently completed a new altarpiece for the same entity Anabel Thomas considers how the two commissions were linked and questions why Francesco di Bartolomeo Alfei's brief to fresco the confraternity chapel remained unfinished In a wide ranging analysis of mainly unpublished records focussing on the artist's association with key members of Sienese society fellow artisans and government officials Thomas concludes that Francesco di Bartolomeo Alfei might have honoured his contract had he not become immersed in the military strategy diplomacy and visual propaganda of the Republic of Siena

The Power of Images Patrick Boucheron, 2018-05-29 Where can the danger be lurking Two soldiers are huddled together one gazing up at the sky the other darting a sideward glance They derive a tacit reassurance

from their weapons but they are both in their different ways alone and scared They were painted by Ambrogio Lorenzetti in the Palazzo Pubblico in Siena and they seem symptomatic of a state of emergency the year was 1338 and the spectre of the signoria of rule by one man was abroad in the city undermining the very idea of the common good In this book distinguished historian Patrick Boucheron uncovers the rich social and political dimensions of the iconic Fresco of Good Government He guides the reader through Lorenzetti's divided city where peaceful prosperity and leisure sit alongside the ever present threats of violence war and despotism Lorenzetti's painting reminds us crucially that good government is not founded on the wisdom of principled or virtuous rulers Rather good government lies in the visible and tangible effects it has on the lives of its citizens By subjecting it to scrutiny we may at least for a while be able to hold at bay the dark seductions of tyranny From fourteenth century Siena to the present *The Power of Images* shows the latent dangers to democracy when our perceptions of the common good are distorted and undermined It will appeal to students and scholars in art history politics and the humanities as well as to anyone interested in the nature of power **The Unintended Reformation** Brad S.

Gregory, 2015-11-16 In a work as much about the present as the past Gregory identifies the unintended consequences of the Reformation for the modern condition a hyperpluralism of beliefs intellectual disagreements that splinter into fractals of specialized discourse the absence of a substantive common good and the triumph of capitalism's driver consumerism *The Virtual Liturgy and Ritual Artifacts in Medieval and Early Modern Studies* Katharine Scherff, 2023-03-03 Examining the history of altar decorations this study of the visual liturgy grapples with many of the previous theoretical frameworks to reveal the evolution and function of these ritual objects Using an interdisciplinary approach this book uses traditional art historical methodologies and media technology theory to reexamine ritual objects Previous analysis has not considered the in between nature of these objects as deliberate and virtual conduits to the divine The liturgy the altarpiece the altar environment relics and their reliquaries are media In a series of case studies several objects tell a different story about culture and society in medieval Europe In essence they reveal that media and media technologies generate and modulate the individual and collective structure of feelings of sacredness among assemblages of humans and nonhumans The book will be of interest to scholars working in art history medieval studies early modern studies and architectural history **Medieval**

Yarmouth Negotiating Secular and Sacred in Medieval Art Amanda Luyster, 2017-07-05 Offering original analysis of the convergence between sacred and secular in medieval works of art and architecture this collection explores both the usefulness and limitations of these terms for describing medieval attitudes The modern concepts of sacred and secular are shown to be effective as scholarly tools but also to risk imposing false dichotomies The authors consider medieval material culture from a broad perspective addressing works of art and architecture from England to Japan and from the seventh to the fifteenth century Although the essays take a variety of methodological approaches they are unified in their emphasis on the continuing and necessary dialectic between sacred and secular The contributors consciously frame their interpretations in terms and perspectives derived from the Middle Ages thereby demonstrating how the present art historical terminology and conceptual frameworks can obscure the complexity of medieval life and material culture The resonance among essays opens possibilities for productive cross cultural study of an issue that is relevant to a diversity of cultures and sub periods

Introducing an innovative approach to the literature of the field this volume complicates and enriches our understanding of social realities across a broad spectrum of medieval worlds Locating Renaissance Art Carol M. Richardson, 2007-01-01 Renaissance art history is traditionally identified with Italian centers of production and Florence in particular Instead this book explores the dynamic interchange between European artistic centers and artists and the trade in works of art It also considers the impact of differing locations on art and artists and some of the economic political and cultural factors crucial to the emergence of an artistic center During c 1420 1520 no city or court could succeed in isolation and so artists operated within a network of interests and local and international identities The case studies presented in this book portray the Renaissance as an exciting international phenomenon with cities and courts inextricably bound together in a web of economic and political interests

Sensational Religion Sally Promey,2014-06-24 The result of a collaborative multiyear project this groundbreaking book explores the interpretive worlds that inform religious practice and derive from sensory phenomena Under the rubric of making sense the studies assembled here ask How have people used and valued sensory data How have they shaped their material and immaterial worlds to encourage or discourage certain kinds or patterns of sensory experience How have they framed the sensual capacities of images and objects to license a range of behaviors including iconoclasm censorship and accusations of blasphemy or sacrilege Exposing the dematerialization of religion embedded in

secularization theory editor Sally Promey proposes a fundamental reorientation in understanding the personal social political and cultural work accomplished in religion s sensory and material practice Sensational Religion refocuses scholarly attention on the robust material entanglements often discounted by modernity s metaphysic and on their inextricable connections to human bodies behaviors affects and beliefs **An Anatomy of Trade in Medieval Writing** Lianna Farber,2018-07-05

Economics in our modern sense of the term was not a discipline in the Middle Ages although the history of economic thought is often written as though it were Lianna Farber restores the core economic concept of trade to its medieval contexts showing that it contains three component parts value consent and community Medieval writing about trade not only relies on these elements it presents them as unproblematic By addressing texts in which each element of trade is discussed directly Farber demonstrates that this straightforward picture is falsely reassuring In fact these ideas were deeply contested In the end Farber reveals writing about trade was not descriptive but argumentative analyzing the act in an attempt to justify it Such texts reveal deep intellectual uncertainties about the market society they advocated An Anatomy of Trade in Medieval Writing benefits from Farber s close reading of literary sources among them the poetry of Geoffrey Chaucer and Robert Henryson theological sources including the writing of Thomas Aquinas and Richard of Middleton and legal sources such as the canon law on marriage formation A provocative contribution to our understanding of medieval life and thought this book implies a need to reconsider the genealogy of economics as a way of thinking about the world The Ashgate Research

audiences in addressing new cultural and religious perspectives regardless of their geographical location and time period The identification of the other in sermons is already an implicit recognition of a novel world which could be equally enticing and intimidating The scholars represented in this volume examine a wide panorama of medieval and early modern efforts as they identify how sermons which often served as a highly effective media of mass communication reflect shifting identities sometimes contested and sometimes embraced within long standing traditional constructs Particular themes include apocalypticism art and mission cultural interaction multilingualism forms of religious life and theological innovation
