Reformed Theology and Evolutionary Theory Gijsbert Van den Brink, 2020-02-25 Many books aim to help beginners explore whether or not evolutionary science is compatible with Christian faith This one probes more deeply to ask What do we learn from modern evolutionary science about key issues that are of special theological concern And what does Christian theology especially in its Reformed expressions say about those same key issues Gijsbert van den Brink begins by describing the layers of meaning in the phrase evolutionary theory and exploring the question of how to interpret the Bible with regard to science He then works through five key areas of potential conflict between evolutionary theory and Christian faith spelling out scientific findings and analyzing Christian doctrinal concerns along the way His conclusion although some traditional doctrinal interpretations must be adjusted evolutionary science is no obstacle to classical Christian faith

Vision Jim Johnson, 2024-04-12 Faith and facts are reconciled in this revelatory examination of biblical and secular truths

that follows the path to God through science not around it Always a man of science Jim Johnson accepted Christ into his life shortly after his fiftieth birthday This acceptance of God s unseeable power did not shake his belief in science it strengthened it Through years of research on the world s evolution Johnson found that in studying every new hypothesis and theory he believes even more in God s universal role Timeless Vision Understanding God s Creation through the Lens of Science bridges the gap between faith and science Johnson examines the natural progression of Earth s creation alongside the seven biblical days explains the conundrum of time and expands upon the ever evolving relationship humanity has with science and religion Through analyzing scripture with detailed data and using science to bolster Christian beliefs Johnson reveals just how rare and privileged Earth and human life truly are It is through studying science and faith together not apart that we can see how God s plan was developed and why He did it One is not complete without the other Let Johnson lead you down the path less traveled the one of science and faith and show how God gave humanity these ways to discover Him more fully and completely

Death Before the Fall Ronald E. Osborn,2014-02-06 In this eloquent and provocative open letter to evangelicals Ronald Osborn wrestles with the problem of biblical literalism and the ongoing challenge of animal suffering within an evolutionary understanding of the world Osborn forces us to ask hard questions not only of the Bible and church tradition but also and especially of ourselves

The Crisis of Evangelical Christianity Keith C. Sewell,2016-04-26 In the broad context of Christianity as it developed over two millennia and with special reference to the last three centuries this discussion finds that Evangelicalism has repeatedly offered a reduced and distorted understanding of the faith The evangelical outlook is much less scriptural than evangelicals generally assume When it comes to appreciating the order of creation our calling to develop integral Christian thinking and living the religious significance of culture and the coming of the kingdom reductionist Evangelicalism struggles with its only rarely acknowledged deficiencies As a result we have all too often ended up with a Christianity shorn of its cosmic scope and wide cultural implications and restricted to institutional church life and the cultivation of private spiritual experience The consequences are frequently enervating and corrosive Without disregarding what is important in the past evangelicals are here challenged to take the Bible much more seriously and thereby transcend the limitations of their habitual reductionism Evangelicals are encouraged to embrace an integral and full orb ed understanding of Christian discipleship that will equip the faithful to address the deep and complex challenges of the twenty first century
