The Collected Poems Muriel Rukeyser, 1978 Muriel Rukeyser earned an international reputation as a powerful voice against enforced silences of all kind against the violence of war poverty and racism In addition to the complete texts of her twelve previously published books this volume also features new poems discovered by the editors Rukeyser s translations including the first English translations of Octavio Paz s work early work by Rukeyser not previously published in book form and the controversial book length poem Wake Island

The Speaker Paul Martin Pearson, Mrs. Isabel Garghill Beecher, Miriam Lee Early, 1925

Out of Silence Muriel Rukeyser, 1994 Out of Silence is a poetry book encompassing the contradictions of twentieth century America

Poems for the Millennium, Volume Three Jerome Rothenberg, Jeffrey C. Robinson, 2009-01-19 The previous two volumes of this acclaimed anthology set forth a globally decentered revision of twentieth century poetry from the perspective of its many

avant gardes Now editors Jerome Rothenberg and Jeffrey C Robinson bring a radically new interpretation to the poetry of the preceding century viewing the work of the romantic and post romantic poets as an international collective often utopian enterprise that became the foundation of experimental modernism Global in its range volume three gathers selections from the poetry and manifestos of canonical poets as well as the work of lesser known but equally radical poets Defining romanticism as experimental and visionary Rothenberg and Robinson feature prose poetry verbal visual experiments and sound poetry along with more familiar forms seen here as if for the first time The anthology also explores romanticism outside the European orbit and includes ethnopoetic and archaeological works outside the literary mainstream The range of volume three and its skewing of the traditional canon illuminate the process by which romantics and post romantics challenged nineteenth century orthodoxies and propelled poetry to the experiments of a later modernism and avant gardism

A Library of Religious Poetry Philip Schaff, Arthur Gilman, 1880 Religious poetry is the holy of holies of literature In all ages poets have been the interpreters of the finer feelings of humanity and the greatest have treated the loftiest themes that can employ the mind and the heart the relation of man to his Maker and the duties and privileges which arise from it It has been the aim of the editors to make the present collection truly catholic It embraces a body of representative poems of all ages denominations and countries The authors are allowed the fullest liberty of uttering their sentiments in their own words
