Excerpt from The Poetical Works of George Meredith IN view of the publication of this complete edition of Meredith s poetical works in one volume I have been asked to add to it a few notes in the first instance to explain mythological and historical allusions not equally familiar to all readers and in the second place to explain the subject matter of particular poems and passages The notes are purely explanatory and in no sense critical or appreciative It is hoped that their seclusion at the end of the volume will render them inoffensive to those who have no use for them In preparing these notes I have had the advantage of possessing records and memories of conversations in former years with the poet himself both on the subject of the general ideas expressed in his poems and on the meaning and purport of particular passages About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
