The Songs We Know Best Karin Roffman, 2017-06-13 The first biography of an American master The Songs We Know Best the first comprehensive biography of the early life of John Ashbery the winner of nearly every major American literary award reveals the unusual ways he drew on the details of his youth to populate the poems that made him one of the most original and unpredictable forces of the last century in arts and letters Drawing on unpublished correspondence juvenilia and childhood diaries as well as more than one hundred hours of conversation with the poet Karin Roffman offers an insightful portrayal of Ashbery during the twenty eight years that led up to his stunning debut Some Trees chosen by W H Auden for the 1955 Yale Younger Poets Prize Roffman shows how Ashbery's poetry arose from his early lessons both on the family farm and in 1950s New York City a bohemian existence that teemed with artistic fervor and radical innovations inspired by Dada and surrealism as well as lifelong friendships with painters and writers such as Frank O'Hara Jane Freilicher Nell Blaine Kenneth Koch James Schuyler and Willem de Kooning Ashbery has a reputation for being enigmatic and playfully elusive but Roffman's biography reveals his deft mining of his early life for the flint and tinder from which his provocative later poems grew producing a body of work that he calls the experience of experience an intertwining of life and art in extraordinarily intimate ways The Tribe of John Susan M. Schultz, 1995-05-30 Fourteen essayists break new ground by focusing on a new generation of postmodern poets who are clearly indebted to John Ashbery's work This concentration on Ashbery's influence on contemporary American poetry provides new methods for interpreting and understanding his poetic achievement The Objectivist Nexus Peter Quartermain, Rachel Blau DuPlessis, 1999-07-02 Outstanding poets and critics present cultural readings of the Objectivist poets a group whose works have been largely unexamined **Contextual Practice** Stephen Fredman, 2010 Fredman makes the original argument that some of the most innovative works of poetry and art in the postwar period 1945-1970 engaged in a contextual practice a term that refers both to a way of making art characterized by assemblage and to a new relationship between art and life an erotic poetics **The Ethics of William Carlos Williams's Poetry** Ian D. Copestake, 2010 The poet as an inheritor of an Emersonian tradition and Paterson as an ethical autobiography in progress **Poetry of Jack Spicer** Daniel Katz, 2013-01-17 In the years since his death from alcohol poisoning San Francisco Renaissance poet Jack Spicer 1925-1965 has gradually come to be recognized as one of most intriguing demanding and rewarding of the so called New American Poetry poets who were first published in Donald Allen's historic anthology of that name This is the first full length critical monograph on his work placing it in the context not only of the San Francisco Renaissance and contemporary movements with which Spicer dialogued and often disagreed such as the Beats the Black Mountain poets and the New York School but also of the major modernists from whom his innovative poetics derived differed and developed Informed by much archival material only recently made available The Poetry of Jack Spicer examines Spicer's post Poundian translation projects his

crucial theories of the serial poem and inspiration as dictation his contrarian take on queer poetics his insistently uncanny regionalism and his elaboration of an epistolary poetics of interpellation and address

Roots and Routes: Poetics at New College of California Patrick James Dunagan, Marina Lazzara, Nicholas James Whittington, 2020-10-06 Roots and Routes gathers essays talks interviews statements notes and other prose writings by poets who studied and or taught at the New College of California s Masters in Poetics program over the course of its nearly 30 year existence The collection evokes a much needed anti hierarchical even anarchic pedagogy in poetry poetics and the literary arts and is part of a general reevaluation of standard higher education models on Creative Writing As such it will appeal to a wide range of students and scholars interested in America s recent literary history as well as to poets outside the academy and the general reader interested in US poetry and poetics

The Revolution in the Visual Arts and the Poetry of William Carlos Williams Peter Halter, 1994-07-29 This book is a major step toward a fuller exploration of the connection between the visual arts and Williams concept of the Modernist poem and of his achievement in transcending an art for art s sake formalism to create poems that both reflect their own nature as a work of art and vividly evoke the world of which they are a part

Beyond Maximus Anne Day Dewey, 2007 Beyond Maximus shows how field poetics influenced the construction of the public voices of five Black Mountain poets Charles Olson Robert Creeley Robert Duncan Denise Levertov and Ed Dorn in order to explain their association in the 1950s and 60s as well as their break up as a result of the political and poetic crises of the Vietnam War era

Radium of the Word Craig Dworkin, 2020-12-09 With fresh insight and contemporary relevance Radium of the Word argues that a study of the form of language yields meanings otherwise inaccessible through ordinary reading strategies Attending to the forms of words rather than to their denotations Craig Dworkin traces hidden networks across the surface of texts examining how typography and even individual letters and marks of punctuation can reveal patterns that are significant without being symbolic fully meaningful without communicating any preordained message Radium of the Word takes its title from Mina Loy s poem for Gertrude Stein which hails her as the Madame Curie of the laboratory of vocabulary In this spirit Dworkin considers prose as a dynamic literary form characterized by experimentation Dworkin draws on examples from writers as diverse as Lyn Hejinian William Faulkner and Joseph Roth He takes up the status of the proper name in Modernism with examples from Stein Loy and Guillaume Apollinaire and he offers in depth analyses of individual authors from the counter canon of the avant garde including P Inman Russell Atkins N H Pritchard and Andy Warhol The result is an inspiring intervention in contemporary poetics

What Are Poets For? Gerald L Bruns, 2012-06 Conceptions and practices of poetry change not only from time to time and from place to place but also from poet to poet This has never been more the case than in recent years Gerald Bruns s magisterial What Are Poets For

explores typographical experiments that distribute letters randomly across a printed page sound tracks made of vocal and buccal noises and holographic poems that recompose themselves as one travels through their digital space Bruns surveys one word poems found texts and book length assemblies of disconnected phrases he even includes descriptions of poems that no one could possibly write but which are no less interesting or no less poetic for all of that The purpose of the book is to illuminate this strange poetic landscape spotlighting and describing such oddities as they appear anomalies that most contemporary poetry criticism ignores Naturally this breadth raises numerous philosophical questions that Bruns also addresses for example whether poetry should be responsible semantically ethically politically to anything outside itself whether it can be reduced to categories distinctions and the rule of identity and whether a particular poem can seem odd or strange when everything is an anomaly Perhaps our task is simply to learn like anthropologists how to inhabit such an anarchic world The poets taken up for study are among the most important and innovative in the late twentieth and early twenty first centuries John Ashbery Charles Bernstein Paul Celan Kenneth Goldsmith Lyn Hejinian Susan Howe Karen Mac Cormack Steve McCaffery John Matthias J H Prynne and Tom Raworth What Are Poets For is nothing less than a lucid detailed study of some of the most intractable writings in contemporary poetry

The Incorporative Consciousness of Robert Bly Victoria Frenkel Harris, 1992 Victoria Frenkel Harris traces the aesthetic journey of poet Robert Bly from his early structured works of mystical imagery and lyrical landscapes to his recent explorations of intimate relationships and male socialization Examining the various ways Bly's prose poems articulate his opposition to the Vietnam War and his recent writings manipulate more formal patterns in detailing the intricacies of human relationships Harris labels this evolution in form subject and imagery the incorporative consciousness incorporative because it assimilates Jungian psychological categories international poetic traditions and a compelling breadth of topics Harris relies in part on contemporary feminist theory to throw revealing new light on Bly's recent works Though sympathetic to Bly Harris finds that in spite of his affirmation of the interaction of psychic creative and intellectual energies in both sexes the poet's later erotic poems tend to objectify women in counterproductive ways Bly's idealization of woman as a Jungian universal Harris contends can blind him toward actual women Harris is at her best as she delimits with balance and precision the full complexity of the poet's work

Gadamer on Celan Hans-Georg Gadamer, 1997-02-20 Gadamer on Celan makes all of Hans Georg Gadamer's published writings on Paul Celan's poetry available in English for the first time Gadamer's commentaries on Celan's work are explicitly meant for a general audience and they are further testimony to Celan's growing importance in world literature since the Second World War Celan's poetry has attracted the attention of many well known figures including Maurice Blanchot Jacques Derrida Edmond Jabes Otto Poggeler and George Steiner As Steiner has said It will take a long time for our sensibilities to apprehend poetry of these dimensions and this radicality Gadamer's commentaries will help readers to listen to Celan's poetry and to become acquainted with his only book length commentary on a poet using the best example of Gadamer's

thinking on the relationship of philosophy and poetry This book also contains a translation of *Who Am I and Who Are You* the centerpiece of Gadamer's most important philosophical project since the publication of *Truth and Method* 1960 *Who Am I and Who Are You* demonstrates Gadamer's continual engagement with the key figures of twentieth century thought and his responsiveness to the challenges of modernist art and its various affronts to hermeneutics
