Evolution Is Wrong Erich von Däniken, 2025-09-12 A Fascinating Exploration on Why the Darwinists Theory No Longer Explains Everything There was once a set of ideas called the theory of evolution conceived by clever people and confirmed by countless scientists Then people discovered the electron microscope This made it possible to make the molecules within the cell visible and suddenly questions about evolution arose that were not possible before Which force actually bundles the atoms in the right order What moves the molecular chains into the correct position How did the first living unit within the cell actually come about How does inheritance work how does information pass on to the next generation Did humans descend only and exclusively from primates as Charles Darwin and countless other great minds assumed or did additional engines intervene in evolution Today it is clear countless questions can no longer be answered with the previous theory of evolution There is a form of life called Blob *Physarum polycephalum* The thing has neither eyes nor ears neither a mouth nor a nose or even a brain Nevertheless it takes in food overcomes obstacles by the shortest route and exchanges information with other blobs The blob contradicts any evolutionary thought that one develops from the other Or the gastric brooding frogs *Rheobatrachus* found in Australia They hatch their young in the stomach Impossible in a slow evolutionary process Everywhere there are characteristics of animals that do not want to fit into the theory of evolution anywhere And man Are we really the most adapted life form on this planet Today more and more scientists who contradict the previous theory of evolution speak out The theory fits the changes within the species but it can no longer be reconciled with the inner workings of the cell Some other influence that has so far escaped us is affecting evolution It is called Intelligent Design Intelligent planning is suspected behind this Anyone or anything a spirit of the universe Aliens could be behind this planning Erich von Däniken uses countless examples to demonstrate the impossibility of the previous evolutionary idea He quotes scientists who argue against the previous teaching but also those who defend it Unfortunately established science still refuses to look at discrepancies and holes in the theory of evolution even though it is quite obvious that there is more going on with regard to the development of all species as well as human culture than could be explained by the theory of evolution alone
