At the height of his initial turn of the 1990s infamy as the maraca-wielding dancer with Manchester giants Happy Mondays the pop-eyed Mark Berry forever known to the world as Bez was visibly a danger to society He became the so-called Chemical Generation's bug-eyed pied piper every weekend leading millions out to oblivion and beyond as they adopted his E-gobbling party lifestyle Neither an accomplished musician nor even a very good dancer Bez was a prime candidate for fleeting celebrity soon to sink into Where Are They Now obscurity That however never happened nor does it show any sign of happening Through Black Grape the second band he co-fronted with the Mondays Shaun Ryder and his ever presence in the mass media Bez's popularity has grown exponentially his star rocketing ever upwards When he bowled into Celebrity Big Brother in 2005 he ended up winning the series as viewers came to understand his fundamental decency and sunny outlook His adult life has been extraordinary unbelievable scrapes with mortality periods of financial ruin mindfuck moments like when David Bowie genuflected before him and enough narcotic strewn hi-jinx to fill several more volumes of memoir This is the story of a bad lad who has turned his life good tracing his passage from early thirties something casual to middle-aged politician eco-warrior and bee aficionado
