## **Reclaiming The Soul:**

**Reclaiming the Soul** W. Tom Wiseman, Theresa Bowen, 2004-05 There were an estimated two million American men and women who served in the Republic of Vietnam during the 1960s and 1970s. Now some 30 years later these individuals have had time to reflect on their life. Our book is different from the typical Vietnam stories because we have interviewed former Viet Cong V C North Vietnamese Army Regulars and South Vietnam Army Veterans parents of Soldiers Killed in Action and wives of veterans. Our book offers stories of resilience survival and hope. Reclaiming the Soul contains short narrative stories from local Vietnam Veterans as well as former North Vietnamese war veterans. A comparative view of how these veterans have reclaimed their souls will be inspirational to all that have been there and be of great interest to those who have not.

**Reclaiming Your Soul - Healing Your Spirit, Building Confidence, Finding Your Voice** Kelly Wallace, 2022-11-15 Depending on your experiences in life your soul can become totally lost. It's as if a part of you has faded over the years or completely disappeared. Although it's true that the soul isn't a physical thing and is made up of pure energy it can still become fragmented. When it does you might experience depression anger anxiety hopelessness or feelings of loss even if you aren't sure why. Too many of us struggle with self confidence are unable to speak up for ourselves or know how to create healthy boundaries. What ends up happening is we face health problems relationship issues and financial difficulties. No matter how badly we want things to be different life is an uphill battle that we keep losing. All of this because part of your soul is lost fragmented or torn. Yes there's rarely a person who can say they're absolutely whole. Everything we go through in life affects us on some level though usually it's in the subconscious. So we go through the motions of life often on autopilot never healing never knowing why we feel the way we do and wondering if there's any way to change it. You can. But you first need to reclaim your soul. Retrieving the parts of you that have been lost due to trauma grief excessive stress and conflict will bring new power that you might never have experienced before. Ultimately you'll find your authentic self and rebuild your life better than it's ever been.

and thus live in conditions which are generally described as being poor or even below the poverty line and because of their longing for some luxuries and often bare necessities the poorer people become trapped into the credit card and loan systems on offer borrowing and buying often beyond their means enticed too by the many advertisements in the printed media and on TV telling them they can have everything they want now and pay for it later by borrowing up to the limits or against the equity of their homes often for goods or services they do not really need or want Others again take out mortgages to buy expensive homes beyond their means or ability to repay the often over valued and priced homes At times also through their sheer ignorance people are unaware of the consequences of their often impulsive actions and motives The reason for this in many cases is they are so involved in running their lives trying to make ends meet that they have no time to look outside the proverbial square Others again become involved in activities such as compulsive gambling drinking and smoking which consume a large proportion of their disposable income In our modern world it is also becoming more evident through the almost daily exposure of corrupt officials crooked trades people unethical businesses industries and service providers that honesty and ethics seem to have disappeared and have been replaced by the terminology me me me and profit profit profit at any cost People have to become more and more vigilant and aware of what is going on around them and protect them selves by whatever means available to them from the impact these outside influences have on their finances lives families and relationships Consequently many when realizing what is happening try to turn their lives around to break out of this vicious cycle of monetary enslavement but due to the circumstances they find themselves in very few actually can see a way out of their misery or manage to do something about it Many in their despair seek outside help by attending seminars and workshop that promise them they will change their lives and circumstances and more often than not pay enormous amounts of money to secure a seat at these sessions and when one listens to some of the talk it sounds quite logical and believable but does it work During the session people get all fired up heading for home to turn into practice what they have learned only to find that after e few weeks their situations and conditions have not changed leaving them with a feeling of disappointment and helplessness about their situation The facts are nothing will change unless people themselves make a personal effort commit them selves too and have the desire to make the changes and to see them through A favored saying which is often used is that you must believe you already have what you desire otherwise it cannot come into your life But how can you believe in something you know and through your eyes you can see it not to be true because in the process of co creation your mind is playing a very important part and when you can only see the opposite around you day after day and when whatever you try does not work how can you believe you already have what you want or desire Consequently when this happens people become disillusioned and start to believe that they have no power over what happens in their lives and many even stop trying altogether The contents of the book are based on events situations and conditions which actually occurred in the author s life and are happening to the average working families in Australia and world wide on a daily basis in their lives Through
