Practicability: Steps Ahead of Probability Purna Pradhan, 2021-01-22 Intending to serve the nation further the author felt motivated after retirement on superannuation from government service on 31 01 2019 to spread the message of science whatever received in life so far His soft and simple approach to science literature Indian culture and Sri Aurobindo philosophy has provided him interest and energy to innovate this book Science is the scientific bent of mind in attitude and action any time anywhere When the mind is incomplete and is in an evolving stage to control over mind there is conscience

which is again evolving Science is made confined to matter It is incomplete and needs to be spiritualized The emergence of life from lifeless though not proved yet by this limited science the evolution of species in life and transformation of human life to the Divine Life with Supramental Consciousness are among a few phases in the journey of life Art literature and culture would be helpful to provide rest and hence to collect energy in case life lingers on while proceeding on its spiritual path What has happened so far what is happening now and what would happen in the future are all predestined These can never be calculated by this incomplete human endeavor So the author feels convinced to convey the message behind the title Practicability Steps Ahead of Probability through various articles in the book Let us be conscious to catch the outcome of Nature s deed and try to make use of it to go into the root

Materializing Silence in Feminist Activism Jessica Rose Corey, 2021-10-27 This book examines how rhetorically effective uses of silence and materiality mediate feminist activism and discusses the implications of these dynamics for pedagogy Specifically the text establishes a theoretical foundation for what the author terms psychosocial composing or the metaphorical composing and revising of individual participants and society and the contribution of written and visual texts as an input and output of the relationships between individuals and social culture This idea is examined through primary research on the Clothesline Project an international event that invites people who have experienced gender violence directly or indirectly to decorate tee shirts that get hung on clotheslines in public places Through looking at values and roles of silence in global cultures and the use of material arts in activist efforts the author argues for the unique value of silence and materiality in individual and collective spaces The manuscript includes discussion questions and sample teaching materials Overall making connections among composition and rhetoric psychology sociology politics women s studies art and design pedagogy and history this book further demonstrates the potential interdisciplinary approaches to rhetoric and communication

Mysticism, Ineffability and Silence in Philosophy of Religion Laura E. Weed, 2023-01-13 The authors in this volume explore a wide variety of the contemporary approaches to mystical and religious experience to elucidate what religious experience is in its own terms and how its practitioners understand it This anthology features contributions that point out that contemporary studies of consciousness sociology hermeneutics neuroscience medicine and other fields are revealing that there is much more to be said for the inner life of a human s consciousness than reductionists and behaviorists will allow This book is one of very few that primarily takes the stance of academic practitioners explaining their own experience rather than that of academics trying to explain the phenomena away as really politics or sociology or delusion or psychological pathology or literary flights of fancy or an aberration of any of the other academic fields Most of the authors in this volume embrace the task of explaining and analyzing religious experience mysticism and the healing power of silence and presence using the resources of all of the academic disciplines as appropriate The essays contained analyze religious and non religious mystical and profoundly personal experiences across several world religions and in areas

such as art and music as well as in solving personal crises such as family disruption and patriarchal oppression. The authors address the subject matter through analyses of the frequent and destructive failures of language or just noise to capture or express the nuances of the inner life of a person. It is this very ineffability of self that renders the spiritual, emotional, and interior life of individuals beyond cognition and perception of the straightforward sorts embraced by most cognitive disciplines. The contributors come from a variety of cross-disciplinary fields to bring forth the possibilities for an intuitive and creative, rich and growing inner life for a human. Survival of Weak Countries in the Face of Globalization Raffaello Benetti, Raffaello Benetti, 2003

Accidental Ethnography Christopher N. Poulos, 2018-08-15

Each family has its secrets, ones that shape family communication and relationships in a way generally unknown to the outsider, and often the family itself. Autoethnographers, students of these relationships, confront many silences in their attempts to understand these social worlds. Now issued as a Routledge Education Classic Edition, *Accidental Ethnography* delves into this shadowy world of pain and loss in the hopes of finding productive, ethical avenues for transforming the secret lives of families into powerful narratives of hope. It merges autoethnographic method with the therapeutic power of storytelling to heal family wounds. A new preface text by the author reflects on the changes in the field of qualitative research and on his own research journey since the publication of the original edition.

Enfolding Silence

Brett J. Esaki, 2016-05-02

This book demonstrates how Japanese Americans have developed traditions of complex silences to survive historic moments of racial and religious oppression and how they continue to adapt these traditions today. Brett Esaki offers four case studies of Japanese American art, gardening, origami, jazz, and monuments and examines how each artistic practice has responded to a historic moment of oppression. He finds that these artistic silences incorporate and convey obfuscated and hybridized religious ideas from Buddhism, Christianity, Confucianism, Shinto, indigenous religions, and contemporary spirituality. While silence is often thought of as the binary opposite and absence of sound, Esaki offers a theory of non-binary silence that articulates how multidimensional silences are formed and how they function. He argues that non-binary silences have allowed Japanese Americans to disguise, adapt, and innovate religious resources in order to negotiate racism and oppressive ideologies from both the United States and Japan. Drawing from the fields of religious studies, ethnic studies, theology, anthropology, art, music, history, and psychoanalysis, this book highlights the ways in which silence has been used to communicate the complex emotions of historical survival, religious experience, and artistic inspiration.
