## **Reclaiming Democracy:**

Reclaiming Democracy Meta Mendel-Reyes, 2013-10-11 Meta Mendel Reyes provides a critical look at our fascination with the sixties discusses the ways in which democratic participation was at the heart of sixties politics and explores the interrelationship between the history and memory of the sixties and contemporary democratic politics Mendel Reyes stresses that if told properly the story of the sixties could help open our eyes to the possibility that ordinary people can take democratic action and do have the ability to make a difference in nineties politics In a time of cynicism about the American government's ability to solve the crises of inequality poverty and racism Mendel Reyes puts the decline of political participation in historical context and provides hope for the coming decades

We Are Not Able to Live in the Sky Mara Kardas-Nelson, 2024-06-11 Shortlisted for the J Anthony Lukas Prize A deeply reported work of journalism that explores the promises and perils of microfinance told through the eyes of international lenders and women borrowers in West Africa In the mid 1970s Muhammad Yunus an American trained Bangladeshi economist met a poor female stool maker who needed money to expand her business In an act widely known as the beginning of microfinance Yunus lent 27 to forty two women hoping small credit would help the women pull themselves out of poverty Soon Yunus's Grameen Bank was born and the idea of giving very small high interest loans to poor people took off In 2006 Yunus and the Grameen Bank won the Nobel Peace Prize for efforts to create economic and social development from below But there's a problem with this story There are mounting concerns that these small loans are as likely to bury poor people in debt as they are to pull them from poverty with borrowers from India to Kenya facing consequences such as jail time and forced land sales Reportedly hundreds have even committed suicide What happened Did microfinance take a wrong turn or was it flawed from the beginning Mara Kardas Nelson's *We Are Not Able to Live in the Sky* is about unintended consequences blind optimism and the decades long ramifications of seemingly small policy choices The book is rooted in the stories of women borrowers in Sierra Leone West Africa Their narratives woven through a deep history of modern international development are set against the rise of Yunus's vision that tiny loans would put poverty in museums Kardas Nelson asks What is missed with a single financially focused solution to global inequity that ignores the real drivers of poverty Who stands to benefit and more important who gets left behind

**Political Entrepreneurship** Josef

Lentsch,2018-11-20 This book demonstrates how political entrepreneurs entrepreneurially minded citizens who launch innovative political start ups can drive political change Building on unique insights rich examples and personal stories of centrist political entrepreneurs distilled from 40 in depth interviews the author guides readers through key stages of political entrepreneurship and shows how to master them By equally highlighting successes and failures the book reveals how political entrepreneurs actually go about producing transformative political change In light of the populist challenge and the decline of traditional political parties the book also offers an entertaining backstage view and first hand insights into the successes of En Marche in France Ciudadanos in Spain NEOS in Austria and other centrist political startups It provides practical advice on how to learn from and replicate their successes Political practitioners and other politically interested readers will find a useful theory of Political Entrepreneurship what it is how it works and what its role is in 21st century democracies Most of all they will find essential reproducible tools and methods You have read a lot about startups in business but if you want to know how Silicon Valley style startups look in politics read this Its author is not only writing about political entrepreneurs he is one of them Ivan Krastev Chairman of the Centre for Liberal Strategies in Sofia and permanent Fellow at the Institute of Human Sciences in Vienna No one understands better what it takes to take a political start up from ideation to the parliament than Josef Lentsch In Political Entrepreneurship he combines first hand experience with a thoughtful review of what we know about entrepreneurship in the interest of society Johanna Mair Professor of Organization Strategy and Leadership at the Hertie School of Governance and Co Director Global Innovation for Impact Lab at Stanford University Josef Lentsch has produced a fascinating commanding guide to the new insurgent players shaking up traditional party systems and reinvigorating liberal politics Political Entrepreneurship is essential reading for anyone who wants to understand today s fragmented and disrupted European politics and the European politics of the future Jeremy Cliffe Charlemagne columnist The Economist The rarest of events has occurred a new political species has appeared in the European eco system the centrist political start up From Macron s En Marche in France to Spain s Ciudadanos a new type of political actor has emerged Few are better positioned to tell this Europe wide story than Josef Lentsch who has had a front seat view on this important political transformation that is shaking Europe A dramatic and important account Daniel Ziblatt Eaton Professor of Government Harvard University and co author of How Democracies Die *Reclaiming Democracy* Albena Azmanova,Mihaela Mihai,2015-03-02 Democracy is in shambles economically and politically The recent economic meltdown in Europe and the U S has substituted democratic deliberation with technocratic decisions In Athens Madrid Lisbon New York Pittsburgh or Istanbul protesters have denounced the incapacity and unwillingness of elected officials to heed to their voices While the diagnosis of our political economic illness has been established remedies are hard to come What can we do to restore our broken democracy Which modes of political participation are likely to have an impact And what are the loci of political innovation in the wake of the crisis It is with these questions that Reclaiming Democracy

engages We argue that the managerial approach to solving the crisis violates a right to politics that is a right that our collective life be guided by meaningful politics by discussion of and decision among genuinely alternative principles and policies The contributors to this volume are united in their commitment to explore how and where this right can be affirmed in a way that resuscitates democracy in the wake of the crisis Mixing theoretical reflection and empirical analysis the book offers fresh insights into democracy s current conundrum and makes concrete proposals about how the right to politics can be protected

**The Will to Empower** Barbara Cruikshank, 2019-06-30 How do liberal democracies produce citizens who are capable of governing themselves In considering this question Barbara Cruikshank rethinks central topics in political theory including the relationship between welfare and citizenship democracy and despotism and subjectivity and subjection Drawing on theories of power and the creation of subjects Cruikshank argues that individuals in a democracy are made into self governing citizens through the small scale and everyday practices of voluntary associations reform movements and social service programs She argues that our empowerment is a measure of our subjection rather than of our autonomy from power Through a close examination of several contemporary American technologies of citizenship from welfare rights struggles to

philanthropic self help schemes to the organized promotion of self esteem awareness she demonstrates how social mobilization reshapes the political in ways largely unrecognized in democratic theory Although the impact of a given reform movement may be minor the techniques it develops for creating citizens far extend the reach of governmental authority Combining a detailed knowledge of social policy and practice with insights from poststructural and feminist theory The Will to Empower shows how democratic citizens and the political are continually recreated **Political Theory and the Enlarged Mentality** Stephen Acreman,2017-10-20 In this book Stephen Acreman follows the development and reception of a hitherto under analyzed concept central to modern and postmodern political theory the Kantian *ein erweiterte Denkungsart* or enlarged mentality While the enlarged mentality plays a major role in a number of key texts underpinning contemporary democratic theory including works by Arendt Gadamer Habermas and Lyotard this is the first in depth study of the concept encompassing and bringing together its full range of expressions A number of attempts to place the enlarged mentality at the service of particular ideals the politics of empathy of consensus of agonistic contest or of moral righteousness are challenged and redirected In its exploration of the enlarged mentality the book asks what it means to assume a properly political stance and in giving as the answer facing reality together it uncovers a political theory attentive to the facts and events that concern us and uniquely well suited to the ecological politics of our time **Constituting Economic and Social Rights** Katharine G.
