Recognition Struggles And Social Movements

Neil Stammers

Recognition Struggles And Social Movements:

Recognition Struggles and Social Movements Barbara Hobson, 2003-11-27 Offers historical comparative and cross national perspectives to the debates on the politics of recognition *Recognition Struggles and Social Movements* Barbara Hobson, 2003-11-27 This study looks comparatively and cross nationally at the dynamic interplay between those fighting for a fairer division of economic resources and those struggling for recognition and respect of group differences The book addresses key debates on the political gender of multiculturalism and identity politics with original empirical research Written by prominent scholars across disciplinary and geographical borders it transcends social movement studies by confronting issues of power and governance authenticity and boundary making Social Movements and the Struggles for Rights, Justice and Democracy in Paraguay Charmain Levy, Laureen Elgert, Valérie L'Heureux, 2023-04-28 Paraguay is an under examined but remarkably fascinating country where war dictatorship and elite capture have produced cycles of popular mobilization and repression Yet its social movements are less known to international audiences This book analyzes Paraguay's principal social movements since the transition to democracy and examines how in the context of a weak state authoritarian political elite and a deficient democratization process they contribute to progressive policy socio economic development and democracy Using critical perspectives in sociology anthropology geography and political science we bring together scholars activists and practitioners of social critique and community organizing They reflect on movements involving peasant indigenous and agrarian rights to land and livelihoods LGBTQ and feminist struggles labor union struggles and student demands for access to quality education and social development while exploring how the particularisms of Paraguay result in differences from other Latin American movements and how overarching regional tendencies may explain the similarities This volume is the first English language book on social movements in Paraguay As such it aims to provide a deeper understanding Paraguay's principal social movements since the transition to democracy This volume contributes to analyzing how social movements within the context of a weak state authoritarian political elite and a deficient democratization process contribute to progressive public policy socio economic development and democracy In addition this book focuses on how Paraguayan social movements are similar to or different from their Latin American counterparts how the particularism of Paraguay explains these variations and how overarching regional tendencies explain the similarities The contribution of this volume is twofold to provide new empirical examples in the study of Latin American social movements and their contribution to development and democracy as well as to validate or challenge social movement theories by employing empirical studies of Paraguayan social movements Each chapter delves into the background to a specific movement while closely analyzing the movement in the post Lugo era 2012-2021 Together the chapters in this book contribute to a better understanding of social movements in Paraguay and Latin America thus dialoguing with the existing literature and social movement theories and considering how such studies can further our understanding of social

movements in Paraguay and in Latin America in general Finally the study of different social movements within the Paraguayan context takes into consideration the links that each movement has forged with other such movements in Latin America including the contributions that Paraguayan social movements have made to regional networks

Handbook of Political Citizenship and Social Movements Hein-Anton van der Heijden,2014-10-31 This Handbook uniquely collates the results of several decades of academic research in these two important fields The expert contributions successively address the different forms of political citizenship and current approaches and recent development

Social Theory and Social Movements Jochen Roose,Hella Dietz,2016-09-06 Social movements are not only a potential challenge to societies they also challenge social theory This volume looks at social movements and social movement research through the lens of different social theories What can social movement studies learn from these theories And What can these theories learn from the analysis of social movements From this double vantage point the book discusses the theories of Michel Foucault Pierre Bourdieu Niklas Luhmann Jeffrey Alexander and Judith Butler as well as rational choice theory relational sociology and organizational neo institutionalism

The Oxford Handbook of Social Movements Donatella della Porta,Mario Diani,2015-10-29 The Oxford Handbook of Social Movements is an innovative volume that presents a comprehensive exploration of social movement studies mapping the field and expanding it to examine the recent developments in cognate areas of studies within and beyond sociology and political science This volume brings together the most distinguished social and political scientists working in this field each writing thought provoking essays in their area of expertise and facilitates conversations between classic social movement agenda and lines of research The Oxford Handbook of Social Movements discusses core theoretical perspectives recent contributions from the field and how patterns of macro social change may affect social movements as well as suggesting what contributions social movement studies can give to other research areas in various disciplines

Legacies of Enslavement in the French Republic Nicola Frith,2025-05-06 Legacies of Enslavement in the French Republic explores the complex dynamics between social movements invested in remembering and addressing the legacies of African enslavement and the French State Exploring 25 years of activism from the build up to the 150th anniversary of the Abolition Act 1998 through to the present day the book Investigates strategies used by the French State to delink the recognition of France s enslaving past from contemporary issues with anti Black racism and reparation Asks why in the wake of the first Taubira law that recognized slavery as a crime against humanity 2001 the state has legitimized the work of certain activist groups while delegitimizing others Uses critical race theory and decolonial theory to examine the extent to which the State s approach to recognizing its past is structured by a colonial matrix of power Highlights and contests political and media misconceptions about reparations by showcasing the work of grassroots activists operating in France the Caribbean and the Indian Ocean In doing so Legacies of Enslavement showcases some of the key shifts that have taken place in the recent history of activist work operating in parallel with the successive metamorphoses of

the French state as it responds to social and political pressure to recognize and repair the nation's enslaving past and its racial legacies today

Social Movements Dieter Rucht, 2023 Dieter Rucht offers a theoretically and historically informed approach to social movements as a phenomenon of modern societies. He links the analysis of social movements to general theories of society and processes of social change and combines three basic perspectives: interactionist, constructivist, and process-oriented. ICP approach

Rethinking equality Chris Armstrong, 2013-07-19 Although formally equal relations between citizens are actually characterised by many and varied forms of inequality. Do contemporary theories of equality provide an adequate response to the inequalities that afflict contemporary societies? And what is the connection between theories of equality and the contemporary politics of citizenship? Accessible and comprehensive, *Rethinking equality* provides a clear, critical, and very up-to-date account of the most important contemporary egalitarian theories. Unusually, it also relates these theories to contemporary political practice, assessing them in relation to the impact of neoliberalism on contemporary welfare states and the shift from social to active forms of citizenship. As well as representing a significant intervention within academic debates on equality and citizenship, this book represents essential reading for students of contemporary political theory.

The Politics of Belonging in India Daniel J. Rycroft, Sangeeta Dasgupta, 2011-03-29 Since the 1990s the Indigenous movement worldwide has become increasingly relevant to research in India, re-shaping the terms of engagement with Adivasi Indigenous tribal peoples and their pasts. This book responds to the growing need for an interdisciplinary re-assessment of Tribal studies in postcolonial India and defines a new agenda for Adivasi studies. It considers the existing conceptual and historical parameters of Tribal studies as a means of addressing new approaches to histories of de-colonization and patterns of identity formation that have become visible since national independence. Contributors address a number of important concerns, including the meaning of Indigenous studies in the context of globalised academic and political imaginaries and the possibilities and pitfalls of constructions of indigeneity as both a foundational and a relational concept. A series of short editorial essays provide theoretical clarity to issues of representation, resistance, agency, recognition, and marginality. The book is an essential read for students and scholars of Indian Sociology, Anthropology, History, Cultural Studies, and Indigenous studies.

The Roma and Their Struggle for Identity in Contemporary Europe Huub van Baar, Angéla Kóczé, 2020-02-03 Thirty years after the collapse of Communism and at a time of increasing anti-migrant and anti-Roma sentiment, this book analyses how Roma identity is expressed in contemporary Europe. From backgrounds ranging from political theory, postcolonial cultural and gender studies to art history, feminist critique, and anthropology, the contributors reflect on the extent to which a politics of identity regarding historically disadvantaged racialized minorities such as the Roma can still be legitimately articulated.

The Discursive Politics of Gender Equality Emanuela Lombardo, Petra Meier, Mieke Verloo, 2009-06-02 Adopting a critical perspective, this book explores how the concept of gender equality is stretched and bent in different ways according to the intervention of policy actors and assesses the consequences of the processes the

policy framing **Recognition, Conflict and the Problem of Global Ethical Community** Shannon Brincat, 2017-10-02 Recognition is a fundamental aspect of all social interactions between individuals groups local communities and sovereign states Recognition refers to those sociological processes whereby two or more entities such as states groups such as ethnic or cultural communities or individuals interact with one another and come to understand themselves and the other as mutually free individuals as social agents whose identities interests and outlooks are equally bound together Without the foundational act of recognition relations can become unequal and antagonistic leading to social pathologies denigration and even open conflict This volume brings together leading international scholars of recognition theory in world politics to discuss the potential for recognition to pacify relations between states groups and individuals and to develop recognition processes in the global community It examines the implications of recognition theory in helping to understand the problem of conflict and the possibilities for forging a form of global ethical community This book was published as a special issue of Global Discourse

Human Rights and Social Movements Neil Stammers, 2009-04-20 This book champions social movements as one of the most influential agents that shape our conceptions of human rights It argues that human rights cannot be understood outside of the context of social movement struggles It explains how much of the literature on human rights has systematically obscured this link consequently distorting our understandings of human rights Neil Stammers shows how human rights can be understood He suggests that what he calls the paradox of institutionalisation can only be addressed through a recognition of the importance of human rights arising out of grassroots activism and through processes of institutional democratisation

Mobilizing on the Extreme Right Manuela Caiani, Donatella della Porta, Claudius Wagemann, 2012-02-16 Mobilizing on the Extreme Right compares the extreme right in Italy Germany and the United States using concepts and methods developed in social movement studies While the political parties on the right are well studied this is the first volume to address in comparative perspective the social movement organizations on the extreme right

Activist Citizenship in Southeast Europe Adam Fagan, Indraneel Sircar, 2020-04-28 This volume explores recent episodes of progressive citizen led mobilisation that have spread across Southeast Europe over the past decade These protests have allowed citizens the opportunity to challenge prevailing notions of citizenship and provided the chance to redress what is perceived to be the unjust balance of power between elites and the masses Each contribution debunks the myth of inherently passive post socialist populations imitating West European forms of civil society activism Rather we gain a deeper sense of progressive and innovative forms of activist citizenship that display essentialist and particular forms of protest in combination with the antics of global protest networks Through richly detailed case study research the authors illustrate that whilst the catalysts for protest in Southeast Europe were invariably familiar the expanse of private ownership into urban public spaces the impact of austerity the pathology of such protests were undoubtedly indigenous in origin reflecting the particular post socialist post authoritarian trajectories of these societies The chapters in this book were originally published

as a special issue in Europe Asia Studies

Social justice and public policy Craig, Gary, Burchardt, Tania, 2008-06-18

Social justice is a contested term incorporated into the language of widely differing political positions Those on the left argue that it requires intervention from the state to ensure equality at least of opportunity those on the right believe that it can be underpinned by the economics of the market place with little or no state intervention To date political philosophers have made relatively few serious attempts to explain how a theory of social justice translates into public policy This important book drawing on international experience and a distinguished panel of political philosophers and social scientists addresses what the meaning of social justice is and how it translates into the everyday concerns of public and social policy in the context of both multiculturalism and globalisation

Justice of Marxism Zhang Xiaomeng, 2023-10-11 This book analyzes Marxian theories of justice within the context of contemporary political philosophy and intellectual history Transcending perspectives from classical Marxism the author analyzes how Western Marxism has engaged with critically and responded to the theories of justice especially since the 1970s The nine chapters cover major intellectual movements and multi dimensional frameworks of thought that critique and understand anew the idea of justice including anglophone debates on Marxism and justice global distributive justice and viewpoints from analytical Marxism radical egalitarianism the Frankfurt School Marxian feminism and ecological Marxism The second part of the book returns to the classical texts of Marxism with a focus on historical materialism and a critique of capitalism to reinterpret basic tenets of justice in Marxism and to reconstruct Marxian theory of justice This title will be of value to scholars and students interested in theories of justice Marxian philosophy and political philosophy

Social Justice and Public Policy Craig, Gary, Burchardt, Tania, David

Gordon, 2008-06-18 This important book explores the meaning of social justice and examines how it translates into the everyday concerns of public and social policy

From Ricoeur to Action Todd S. Mei, David Lewin, 2012-03-15 From Ricoeur to Action engages with the thinking of the French philosopher Paul Ricoeur 1913 2005 in order to propose innovative responses to 21st century problems actively contributing to global conflict Ricoeur s ability to draw from a diverse field of philosophers and theologians and to provide mediation to seemingly irreconcilable views often has both explicit and implicit practical application to socio political questions Here an international team of leading Ricoeur scholars develop critical yet productive responses through the development of Ricoeur s thought with respect to such topics as race environmental ethics technology political utopia and reinterpreting religion Representing a new generation of Ricoeur scholarship that attempts to move beyond an exegetical engagement with his philosophy this collection of original essays examines key problems in the 21st century and the ways in which Ricoeur s philosophy understands the subtleties of these problems and is able to offer a productive response As such it presents an elucidation of the practical significance of Ricoeur s thinking and an innovative contribution to resolving socio political conflicts in the 21st century
