Quarterly Bulletin Berkshire Athenaeum and Museum, 1923 **Famine Irish and the American Racial State** Peter D. O'Neill, 2017-02-03 Accounts of Irish racialization in the United States have tended to stress Irish difference Famine Irish and the American Racial State takes a different stance This interdisciplinary transnational work uses an array of cultural artifacts including novels plays songs cartoons government reports laws sermons memoirs and how to manuals to make its case It challenges the claim that the Irish became white in the United States showing that the claim fails to take into full account the legal position of the Irish in the nineteenth century US state a state that deemed the Irish white upon arrival The Irish thus not only fitted into the US racial state they helped to form it Till now little heed has been paid to the state's role in the Americanization of the Irish or to the Irish role in the development of US state institutions Distinguishing American citizenship from American nationality this volume journeys to California to analyze the means by which the Irish gained acceptance in both categories at the expense of the Chinese Along the way it contests ideas that have taken hold within American studies One is the notion that the Roman Catholic Church operated outside of the power structure of the nineteenth century United States On the contrary Famine Irish and the American Racial State argues the Irish led corporate Catholic Church became deeply imbricated in US state structures Its final chapter discusses a radical transnational Irish tradition that offers a glimpse at a postnational future **The Rise of Theodore Roosevelt** Edmund Morris, 2010-11-23
