H.H. Farmer's Theological Interpretation of Religion Christopher Hugh Partridge, 1998 Providing a comprehensive survey of H H Farmer s writings this volume pays special attention to his treatment of the relationship of Christianity to other religions *New Dictionary of Theology* Martin Davie, Tim Grass, Stephen R. Holmes, John McDowell, Thomas A. Noble, 2016-04-27 This classic one volume reference work is now substantially expanded and revised to focus on a variety of theological themes thinkers and movements From African Christian Theology to Zionism this volume of historical and systematic theology offers a wealth of information and insight for students pastors and all thoughtful Christians **Roland Allen II** Steven Richard Rutt, 2018-04-25 In Roland Allen A Theology of Mission a companion work with Roland Allen A Missionary Life Steven Richard Rutt completes a portrait of Roland Allen 1868 1947 in this intellectual biography Extensive archival evidence discloses how apostolic principles formed the basis for Allen s missionary theology Although it is well known that Allen s hermeneutical ideas were born of Pauline principles Steven Richard Rutt expounds the ways in which Allen s missionary experiences had profoundly impacted Allen s theological beliefs Allen wrote about his findings in letters sermons articles and books some of which were never published Allen s writings tenaciously challenged the methodology of colonial missionary societies and exposed the causes hindering Church expansion failures occurred in missions due to the imposition of Western missionary paternalism and institutional devolution Allen advocated the empowerment of indigenous churches to apply the principles of self government and self support He asserted the importance of the Pauline concept of

Spirit and order which encompasses both the doctrine of the Holy Spirit as well as that of the Church. Allen's diagnosis of the missionary situation and the proposed ways to restore apostolic order presented contemporary controversy but since his death we have seen the importance of Allen's ideas in Mission studies grow steadily. With an expert evaluation of Allen's theological insight, Roland Allen's *A Theology of Mission* also offers a superb contribution to the discipline of historical theology and historical missiology as Rutt delves into a contextual assay into the missionary landscape of the nineteenth and the twentieth centuries.

Dictionary of Twentieth-Century British Philosophers Stuart Brown, 2005-06-01 This is a two volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after. The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date. Typically the individuals included have been born by 1935 and by now have made their main contributions. Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included. The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy. There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonization and the changing denotation of the term. The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U.K. but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin. In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad. In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture.

The Consecration of a Greek Orthodox Church According to Eastern Orthodox Tradition Gus George Christo, 2005 The

consecration of the worship space and the people who gather there for worship is a time honored custom It has its roots in Old Testament scripture and its fruition in the New The foundation is the Person of Jesus Christ the Son of God and His perfect and complete Resurrection from the dead and enthronement at the right hand of God the Father God became accessible to the Israelites through the temple ritual The Temple especially the Holy of Holies became the site where God concretely interacted with His people The people of God found it necessary to dedicate such space through an elaborate ritual which set apart this space for worship and ultimate communion with God Likewise the Christians as Israel fulfilled consecrate their entire beings to the glory of God the Father Son and Holy Spirit They see themselves as liturgical creatures who commune in the very life of the Holy Trinity via the Flesh and Blood of the Son of God For this to take place they congregate on hallowed ground where heaven and earth unite and they participate in the Mysteries of the everlasting Kingdom which were inaugurated and consummated by the Son in His risen and glorified Humanity martyrdom of Christ and its cosmic saving effects and the death of the holy martyrs mandates that holy relics of martyrs be interred in the altar table which is the focal point of the local Church The subsequent baptism and chrismation of the altar table solidify the identification of the heavenly realm upon the hallowed ground The spiritual wedding of the Christians as brides of Christ the Bridegroom becomes accessible through the Sacraments that emanate from the celestial altar The local Church is the revelation of the eschaton in time and space An appendix containing the rite of consecration as celebrated in the Greek Orthodox Church follows the study Also included is an index listing the citations of consecration dedicating and anointing in the holy scriptures

A Critical Appraisal of the Origin and Nature of the

Institution of the Monarchy in Israel in the Light of Eric Voegelin's Theory of Symbolic Forms Caroline J.

Nolan, 2003 This study uses Voegelin's Theory of Symbolic Forms as a framework from which to study the development of the monarchy in Israel in its move from compactness to differentiation. The study offers an explanation of the contradictions that the ambivalence of the monarchy presents. Old Testament scholars to date have not given due attention to Voegelin's theory of symbolic forms. That is unfortunate because by going beyond the philological preoccupations of Scripture scholars, Voegelin goes right to the heart of the meaning of texts. Voegelin connects the Old Testament symbolism to human experience and shows that it is still relevant to the contemporary world. This study is in keeping with the recent contemporary shift from historical criticism to narrative criticism in Biblical studies and its application to the biblical domain provides a new method and approach that should be of benefit not only to philosophers and biblical exegetes but also to theologians, historians, political scientists and scholars of ancient civilizations.
