now about conventional healing The new frequencies of healing described by Dr Pearl transcend technique entirely and bring you to levels beyond those previously accessible to anyone anywhere This book takes you on Dr Pearl s journey from the discovery of his ability to facilitate healings to his well deserved reputation as the instrument through which this process is being introduced to the world But most important The Reconnection reveals methods you can use to personally master these new healing energies

*Healing Our Deepest Wounds* Stanislav Grof, 2012 Dr Grof s consciousness research over the last five decades has shown that the deepest roots of trauma often lie in experiences from birth or in events from human history that have not yet been resolved and are still active in the collective unconscious This unresolved personal or collective history then expresses through an individual or group that has some connection to the earlier events Traditional therapeutic approaches which focus only on events in the personal biography or tranquilizing medications do not access or heal these deeper wounds in the human psyche From a more general perspective Dr Grof examines the broad problems of violence and greed in society and finds that the widespread fear and aggression between individuals and groups may also originate in large part from the unconscious acting out of unresolved historical traumas from the collective unconscious The message of Dr Grof and this book is however a hopeful one there are approaches to therapy which utilize a specific non ordinary state of consciousness which enables individuals with support to access and heal these deeper levels of trauma from the personal and collective

unconscious He has named this state of consciousness Holotropic a composite word which means oriented toward wholeness or moving in the direction of wholeness from the Greek holos whole and trepo trepein moving toward or in the direction of something Dr Grof describes various approaches to achieving this Holotropic state and using it for healing with his focus on Holotropic Breathwork which he developed with his partner Christina and psychedelic therapy which he pioneered in the 1950s and which is now experiencing a renaissance of clinical research for treatment of addictions and PTSD
