interviews historical documents and newly unearthed information ten Harmsel relates how Wm B Eerdmans Sr started and built the American publishing company that bears his name and how Wm B Eerdmans Jr has carried on the family tradition of independent eclectic religious publishing into the company's 100th year *The Supreme Court and Religion in American Life, Vol. 2* James Hitchcock, 2009-01-10 School vouchers The Pledge of Allegiance The ban on government grants for theology students The abundance of church and state issues brought before the Supreme Court in recent years underscores an incontrovertible truth in the American legal system the relationship between the state and religion in this country is still fluid and changing This the second of two volumes by historian and legal scholar James Hitchcock offers a complete analysis and interpretation of the Court's historical understanding of religion explaining the revolutionary change that occurred in the 1940s In Volume I *The Odyssey of the Religion Clauses* Princeton Hitchcock provides the first comprehensive survey of the court cases involving the Religion Clauses including a number that scholars have ignored Here Hitchcock examines how in the early history of our country a strict separation of church and state was sustained through the opinions of Jefferson and Madison even though their views were those of the minority Despite the Founding Fathers' ideas the American polity evolved on the assumption that religion was necessary to a healthy society and cooperation between religion and government was assumed This view was seldom questioned until the 1940s notes Hitchcock Then with the beginning of the New Deal and the appointment of justices who believed they had the freedom to apply the Constitution in new ways the judicial climate changed Hitchcock reveals the personal histories of these justices and describes how the nucleus of the Court after World War II was composed of men who were alienated from their own faiths and who looked at religious belief as irrational divisive and potentially dangerous assumptions that became enshrined in the modern jurisprudence of the Religion Clauses He goes on to offer a fascinating look at how the modern Court continues to grapple with the question of whether traditional religious liberty is to be upheld **The Least Dangerous Branch?** Stephen P. Powers, Stanley Rothman, 2002-11-30 Is the American judiciary still the least dangerous branch as Alexander Hamilton and legal scholar Alexander Bickel characterized it Unlike legislatures or administrative agencies courts do not make policy so much as direct and redirect policy as it is implemented The judicial contribution to policymaking involves the infusion of constitutional rights into the realm of public policy and as the government has grown the courts have become more powerful from doing more and more of this Powers and Rothman explore the impact of the federal courts providing a brief account of the development of constitutional law and an overview of the judiciary's impact in six controversial areas of public policy Busing Affirmative action Prison reform Mental health reform Procedural reforms in law enforcement Electoral redistricting In each of these areas the authors review significant cases that bear on the particular policy exploring the social science evidence to assess the impact of the courts on policies and the consequences of that intervention Powers and Rothman conclude that judicial intervention in public policy has often brought about undesirable consequences sometimes even for the intended beneficiaries of government intervention

Unsecular America Paul Johnson, Richard John Neuhaus, 1986 *Obama Power* Jeffrey C. Alexander, Bernadette N.

Jaworsky, 2014-08-12 What is the source of Obama's power? How is it that after suffering a humiliating defeat in the 2010 mid-term elections, Obama was able to turn the situation around deftly outmaneuvering his opponent and achieving a decisive victory in the November 2012 presidential election? In this short and brilliant book, Jeffrey Alexander and Bernadette Jaworsky argue that neither money nor demography can explain this dramatic turnaround. What made it possible, they show, was cultural reconstruction. Realizing he had failed to provide a compelling narrative of his power, the President began forging a new salvation story. It portrayed the Republican austerity budget as a sop to the wealthy and Obama as a courageous hero fighting for plain folks against the rich. The reinvigorated cultural performance pushed the Tea Party off the political stage in 2011, and Mitt Romney became fodder for the script in 2012. Democrats painted their Republican opponent as a backward-looking elitist, a Bain capitalist whose election would threaten the civil solidarity upon which democracy depends. Real-world events can spoil even the most effective script. Obama faced monthly unemployment numbers, the daunting Bin Laden raid, three live debates, and Hurricane Sandy. The clumsiness of his opponent and his own good fortune helped the President, but it was the poise and felicity of his improvisations that allowed him to succeed a second time. Converting events into plot points, the President demonstrated the flair for the dramatic that has made him one of the most effective politicians of modern times. While persuasively explaining Obama's success, this book also demonstrates a fundamental but rarely appreciated truth about political power in modern democratic societies: namely, that winning power and holding on to it have as much to do with the ability to use symbols effectively and tell good stories as anything else. **Military Chaplains' Review**, 1985 **The**

Public Order and the Sacred Order Stephen M. Krason, 2009-05-20 The *Public Order and the Sacred Order* evaluates a range of contemporary social and political questions in light of Catholic social teaching philosophy, great political thinkers, and America's founding tradition. It treats a wide range of topics including economics, education, free speech, abortion, church-state relations, American legal trends, international politics. Through discussions of these and other issues confronting contemporary American society, author Stephen M. Krason offers a scholarly social commentary, suggests means for a reconstruction of sound social and political thought, and calls for a renewal of American institutions, politics, and culture. The book is structured in three parts. Part I sets out foundational principles guided by Catholic social teaching, philosophical reasoning, Western political thought, and the American founding. Part II examines and evaluates the numerous issues in light of the principles set out in Part I, and Part III provides approaches to the issues, both general and specific policy ideas consonant with the foundational principles set out in Part I. There is also a volume of important Catholic Church documents, Supreme Court cases, and excerpts of important writings in the history of Western and American political thought that let the reader examine directly many documents discussed in the text of the book. Along with being a strong and focused defense of traditional Catholic approaches to the questions of our time, the vast array of material covered makes this book an invaluable

reference for anyone interested in contemporary politics **Christian Existence Today** Stanley Hauerwas, 2010-09-01 Stanley Hauerwas begins this volume with a vigorous response to the charge of sectarianism leveled against his work by James Gustafson among others Show me where I am wrong about God Jesus the limits of liberalism the nature of the virtues or the doctrine of the church Hauerwas replies to his critics but do not shortcut that task by calling me a sectarian The essays that follow explore in a lucid compelling firm and provocative way the church's nature message and ministry in the world Hauerwas writes on the church as God's new language on clerical character on the pastor as prophet on the ministry of the local congregation on grace and public virtue and on the relation of church and university Underlying Hauerwas's argument is his conviction that the most important knowledge Christian convictions involve and there is much worth knowing for which Christians have no special claim requires a transformation of the self Christianity is no world view not a form of primitive metaphysics that can be assessed in comparison to alternative world views Rather Christians are people who remain convinced that the truthfulness of their beliefs must be demonstrated in their lives There is a sense in which Christian convictions are self-referential but the reference is not to propositions but to lives *The Hauerwas Reader* Stanley
