Reconstructing American Literary History:

Reconstructing American Literary History Sacvan Bercovitch, 2000 Reconstructing American Literary History Sacvan Bercovitch, 2000 **The American Literary History Reader** Gordon Hutner, 1995 American Literary History has emerged as the leading journal devoted to U S literary and cultural studies In this anthology 17 major scholars address subjects as diverse as Hawthorne s utopias Indian pictographs Emily Dickinson and class and the Black Arts Movement **A Critical History of the New American Studies, 1970-1990** Günter H. Lenz, 2016-12-06 Starting in 2005 Gunter H Lenz began preparing a book length exploration of the transformation of the field of American Studies in the crucial years between 1970 and 1990 As a commentator on contributor to and participant in the intellectual and institutional changes in his field Lenz was well situated to offer a comprehensive and balanced interpretation of that seminal era Building on essays he wrote while these changes were ongoing he shows how the revolution in theory the emergence of postmodern socioeconomic conditions the increasing globalization of everyday life and postcolonial responses to continuing and new forms of colonial domination had transformed American Studies as a discipline focused on the distinctive qualities of the United States to a field encompassing the many different Americas in the Western Hemisphere as well as how this complex region influenced and was interpreted by the rest of the world In tracking the shift of American Studies from its exceptionalist bias to its unmanageable global responsibilities Lenz shows the crucial roles played by the 1930s Left in the U S the Frankfurt School in Germany and elsewhere between 1930 and 1960 Continental post structuralism neo Marxism and post colonialism Lenz s friends and colleagues now his editors present here his final backward glance at a critical period in American Studies and the birth of the Transnational *The Culture of Interpretation* Roger Lundin, 1993 This book offers a broad ranging account of contemporary American culture the complex network of symbols practices and beliefs at the heart of our society Lundin explores the historical background of some of our postmodern culture s central beliefs and considers their crucial ethical and theological implications **The American Aeneas** John C. Shields, 2004-11 Choice Magazine Outstanding Academic Book John Shields s book is a provocative challenge to the venerable Adamic myth so exhaustively deployed in examinations of early American literature and in American studies Moreover The American Aeneas builds wonderfully on Shields s considerable work on Phillis Wheatley American Literature The American Aeneas should be of interest to classicists and American studies scholars alike The New England Quarterly John Shields exposes a significant cultural blindness within American consciousness Noting the biblical character Adam as an archetype who has long dominated ideas of what it means to be American Shields argues that an equally important component of our nation s cultural identity a secular one deriving from the classical tradition has been seriously neglected Shields shows how Adam and Aeneas Vergil s hero of the Aeneid in crossing over to American from Europe dynamically intermingled in the thought of the earliest American writers Shields argues that uncovering and acknowledging the classical roots of our culture can allay the American fear of pastlessness that

the long standing emphasis on the Adamic myth has generated John C Shields is the editor of The Collected Works of Phillis Wheatley and the author of The American Aeneas Classical Origins of the American Self which won a Choice Outstanding Academic Book award and an honorable mention in the Harry Levin Prize competition sponsored by the American Comparative Literature Association

Chicano Narrative Ramón Saldivar, 1990 In struggling to retain their cultural unity the Mexican American communities of the American Southwest in the nineteenth and twentieth centuries have produced a significant body of literature Chicano Narrative examines representative narratives including the novel short story narrative verse and autobiography that have been excluded from the American canon

We Wear the Mask Rafia Zafar, 1997 Zafar demonstrates that in doing so these forerunners of modern black American writers both adapted to and reacted against a milieu of social resistance and cultural antipathy By the end of Reconstruction this first century of black writers had paved the way for a distinctive African American literature

Engendering Romance E. Miller Budick, 1994-01-01 Describes how four 20th century women writers have inherited and adapted a tradition of American romance Analyzing fiction by Faulkner and others this work goes on to explain how women have updated the genre to include alternatives to matriarchal as well as patriarchal constructions

American Literature in Transition, 1980-1990 D. Quentin Miller, 2017-12-28 History has not been kind to the 1980s The decade is often associated with absurd fashion choices neo Conservatism in the Reagan Bush years the AIDS crisis Wall Street ethics and uninspired television film and music Yet the literature of the 1980s is undeniably rich and lasting American Literature in Transition 1980 1990 seeks to frame some of the decade s greatest achievements such as Toni Morrison s monumental novel Beloved and to consider some of the trends that began in the 1980s and developed thereafter including the origins of the graphic novel prison literature and the opening of multiculturalism vis vis the canon wars This volume argues not only for the importance of 1980s American literature but also for its centrality in understanding trends and trajectories in all contemporary literature against the broader background of culture This volume serves as both an introduction and a deep consideration of the literary culture of our most maligned decade

Henry Steele Commager Neil Jumonville, 2003-07-11 Historian Henry Steele Commager 1902 1998 was one of the leading American intellectuals of the mid twentieth century Author or editor of more than forty books he taught for decades at New York University Columbia University and Amherst College and was a pioneer in the field of American studies But Commager s work was by no means confined to the halls of the university a popular essayist lecturer and political commentator he earned a reputation as an activist for liberal causes and waged public campaigns against McCarthyism in the 1950s and the Vietnam War in the 1960s As few have been able to do in the past half century Commager united the two worlds of scholarship and public intellectual activity Through Commager s life and legacy Neil Jumonville explores a number of questions central to the intellectual history of postwar America After considering whether Commager and his associates were really the conservative and conformist group that critics have assumed them to be Jumonville offers a reevaluation of the liberalism of the period

Finally he uses Commager's example to ask whether intellectual life is truly compatible with scholarly life

American Literature Before 1880 Robert Lawson-Peebles, 2003-11-13 American Literature Before 1880 attempts to place its subject in the broadest possible international perspective. It begins with Homer looking westward and ends with Henry James crossing the Atlantic eastward. In between the book examines the projection of images of the East onto an as yet unrecognised West, the cultural consequences of Viking, Colombian and then English migration to America, the growth and independence of the British American colonies, the key writers of the new Republic and the development of the culture of the United States before and after the Civil War. It is intended both as an introduction for undergraduates to the richness and variety of American Literature and as a contribution to the debate about its distinctive nature. The book therefore begins with a lengthy survey of earlier histories of American Literature.

Reconstructing Pragmatism Chris Voparil, Christopher J. Voparil, 2022 Known as the bad boy of American philosophy, Richard Rorty bears a complex relation to the tradition of American pragmatism. Chris Voparil aims to provide a counterweight to the reams of criticism of Rorty's alleged distortions and misunderstandings of the so-called classical pragmatists: Peirce, James, Dewey, Royce, Addams. He offers an updated interpretation of Rorty's rejuvenated pragmatism, newly relevant for today, that responds to and moves beyond the philosopher's critical challenges.

Changing Representations of Minorities, East and West Larry E. Smith, John Rieder, 1996-01-01

The Power of Historical Knowledge Susan L. Mizruchi, 2014-07-14 In this provocative study Susan Mizruchi argues that the act of writing history is the key to the political concerns of American novelists. Using nineteenth-century theories of history as well as recent narratological models, she examines reconstructions of the past in *The House of the Seven Gables* (1851), *The Bostonians* (1886), *The Wings of the Dove* (1902) and *An American Tragedy* (1925). Her special focus allows us to see that the efforts on the part of characters and narrators alike to reshape the past reveal both anxieties about the self and larger struggles for political power. Professor Mizruchi demonstrates the deepening connections between narrative and political coercion from Hawthorne to Dreiser, whose novels, as she further shows, both incorporate and portray their characters incorporating the conditions of their contemporary worlds. Her argument addresses a major contemporary dialogue on the subversive qualities of American texts and the place of history in literary interpretation. Originally published in 1988, *The Princeton Legacy Library* uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Culture Concept Michael A. Elliott, 2002 Culture is a term we commonly use to explain the differences in our ways of living. In this book Michael A. Elliott returns to the moment this usage was first articulated, tracing the concept of culture to the writings, folktales, dialect literature, local color sketches and ethnographies.

that provided its intellectual underpinnings in turn of the century America The Culture Concept explains how this now familiar definition of culture emerged during the late nineteenth century through the intersection of two separate endeavors that shared a commitment to recording group based difference American literary realism and scientific ethnography Elliott looks at early works of cultural studies as diverse as the conjure tales of Charles Chesnutt the Ghost Dance ethnography of James Mooney and the prose narrative of the Omaha anthropologist turned author Francis La Flesche His reading of these works which struggle to find appropriate theoretical and textual tools for articulating a less chauvinistic understanding of human difference is at once a recovery of a lost connection between American literary realism and ethnography and a productive inquiry into the usefulness of the culture concept as a critical tool in our time and times to come *Contesting the Subject* William H. Epstein, 1991 Stanley Fish opens the collection with a persuasive argument for the role of intention and biography Michael McKeon Gordon Turnbull and Jerome Christensen are concerned with the late eighteenth and early nineteenth century English cultural discourse that gave rise to the nearly simultaneous emergence of literary biography Romantic sensibility and reflexive human consciousness The essays by Alison Booth Cheryl Walker and Sharon O'Brien reveal that the recognition or lack thereof the biographical subject has received and remains both a problem and an opportunity for women writers and readers The essays by Valerie Ross Rob Wilson Steven Weiland and William Epstein pursue the question of difference and cultural reification in the theory and practice of a specifically American biography and biographical criticism A Reference Guide for English Studies Michael J. Marcuse, 2023-11-15 Rereading the Revolution Benjamin S. Lawson, 2000 Approximately fifty historical novels dealing with the American Revolution were published in the United States in the single ten year period from 1896 to 1906 Benjamin Lawson critically examines the narrative strategies employed in these many novels the ways in which fiction is made to serve the purpose of vivifying national history The British conventions of the historical romance in one sense seem to preclude radical declarations of literary independence even in books purportedly about a war against Britain Working within the formula these many writers nonetheless created fictional plots which parallel and reflect the enveloping concerns of the War for Independence Just as the war was sometimes viewed as an Anglo American family squabble these metaphorical narratives depict familial and love interests **The Social Construction of American Realism** Amy Kaplan, 1992-12-15 Kaplan redefines American realism as a genre more engaged with a society in flux than with one merely reflective of the status quo She reads realistic narrative as a symbolic act of imagining and controlling the social upheavals of early modern capitalism particularly class conflict and the development of mass culture Brilliant analyses of works by Howells Wharton and Dreiser illuminate the narrative process by which realism constructs a social world of conflict and change Kaplan offers some enthralling readings of major novels by Howells Wharton and Dreiser It is a book which should be read by anyone interested in the American novel Tony Tanner Modern Language Review Kaplan has made an important contribution to our understanding of American realism This is a book that deserves

wide attention June Howard American Literature

Ignite the flame of optimism with Crafted by is motivational masterpiece, **Reconstructing American Literary History** . In a downloadable PDF format (*), this ebook is a beacon of encouragement. Download now and let the words propel you towards a brighter, more motivated tomorrow.
