Music & the British Military in the Long Nineteenth Century Trevor Herbert,Helen Barlow,2013-07-05 Although military music was among the most widespread forms of music making during the nineteenth century it has been almost totally overlooked by music historians Music the influence of the military on the civilian music establishments and an incremental movement towards central control of military music making by governments throughout the world In so doing they show that military music impacted everything from the configuration of the music profession in the major metropolitan centers to the development of wind instruments throughout the century to the emergence of organized amateur music making A much needed addition to the scholarship on nineteenth century music Music the British Military in the Long Nineteenth Century is an essential reference for music cultural and military historians the social history of music and nineteenth century studies Transatlantic Liverpool Mark Christian,2022-10-03 In Transatlantic Liverpool Shades of the Black Atlantic Mark Christian presents a Black British study within the context of the transatlantic and Liverpool England Taking a semi autoethnographic approach based on the author s Black Liverpool heritage Christian interacts with Paul Gilroy s notion of the Black Atlantic Yet provides a fresh perspective that takes into account a famous British slave port s history that has been overlooked or under utilized The longevity of Black presence in the city involves a history of discrimination stigma and a population group known colloquially as Liverpool Born Blacks LBBs Crucially this book provides the reader with a deeper insight of the transatlantic in regard to the movement of Black souls and their struggle for acceptance in a hostile environment This book is an evocative passionate and revealing read Needles, Herbs, Gods, and Ghosts Linda L. BARNES,2009-06-30 When did the West discover Chinese healing traditions Most people might point to the rediscovery of Chinese acupuncture in the 1970s In Needles Herbs Gods and Ghosts Linda Barnes leads us back instead to the thirteenth century to uncover the story of the West s earliest known encounters with Chinese understandings of illness and healing A medical anthropologist with a degree in comparative religion Barnes illuminates the way constructions of medicine religion

race and the body informed Westerners understanding of the Chinese and their healing traditions **To Try Her Fortune in London** Angela Woollacott, 2001 Between 1870 and 1940 thousands of Australian women were drawn to London their imperial metropolis and the centre of the art publishing theatrical and educational worlds This study examines connections between whiteness colonial status and modernity Beyond Slavery and Abolition Ryan Hanley, 2019 Shows how black writers helped to build modern Britain by looking beyond the questions of slavery and abolition **Counterflows to Colonialism** Michael Herbert Fisher, 2006 **The Victorian Reinvention of Race** Edward Beasley, 2010-07-02 Not until the early nineteenth century would polygenetic and racist theories win many adherents But by the middle of the nineteenth century in England racial categories were imposed upon humanity How the idea of race gained popularity in England at that time is the central focus of *The Victorian Reinvention of Race* New Racisms and the Problem of Grouping in the Human Sciences **Race and Power** Gargi Bhattacharyya, John Gabriel, Stephen Small, 2016-04-29 Reviewing cutting edge debates around racial politics and the culture and economy of globalization this book draws together a wide range of important contemporary debates in a clear and concise way for undergraduate students Far from concluding that racism is over the authors contend that the forces of globalization inhabit older cultures of racial division in order to safeguard the economic interests of the privileged Arguing that the unspoken culture of whiteness informs much that passes in the name of globalization the book suggests that we are witnessing a reformulation of economic relations around global racism Alongside these shifts in economic relations racialized identities evolve to encompass mixed heritages and mixed cultures both in personal identities and in lifestyle choices This is one of the few texts that concentrates on the theory of race rather than politics It looks at race in global terms and at whiteness as a part of ethnic studies British Evangelical Identities Past and Present, Volume 1 Mark Smith, 2009-04-01 The nature of evangelical identity in Britain is both a perennial issue and an urgent one This is especially the case because evangelical Christianity has throughout its history been characterized by a remarkable degree of dynamism and diversity These essays by a distinguished list of contributors explore the issue of evangelical identity and the nature of evangelical diversity by investigating the interactions of evangelicalism with national and denominational identities race and gender and its expression in spirituality and culture from the evangelical revivals of the eighteenth century to evangelical churches and movements of the present A second volume will investigate similar issues in relation to evangelical interactions with the Bible and theology Contributors Rob Ambler Andrew Atherstone Kristin Aune David W Bebbington David Goodhew John Harvey Andrew R Holmes David Ceri Jones Ian Jones Rachel Jordan David Killingray Ian Randall Mark Smith Brian Talbot Peter Webster Martin Wellings and Eryn White **African and Caribbean People in Britain** Hakim Adi, 2022-09-01 SHORTLISTED FOR THE WOLFSON HISTORY PRIZE A major new history of Britain that transforms our understanding of this country's past I've waited so long so read a comprehensively researched book about Black history on this island This is it a journey of discovery and a truly exciting and important work Zainab Abbas

Despite the best efforts of researchers and campaigners there remains today a steadfast tendency to reduce the history of African and Caribbean people in Britain to a simple story it is one that begins in 1948 with the arrival of a single ship the Empire Windrush and continues mostly apart from a distinct British history overlapping only on occasion amid grotesque injustice or pioneering protest Yet as acclaimed historian Hakim Adi demonstrates from the very beginning from the moment humans first stood on this rainy isle there have been African and Caribbean men and women set at Britain's heart Libyan legionaries patrolled Hadrian's Wall while Rome's first African Emperor died in York In Elizabethan England Black Tudors served in the land's most eminent households while intrepid African explorers helped Sir Francis Drake to circumnavigate the globe And as Britain became a major colonial and commercial power it was African and Caribbean people who led the radical struggle for freedom a struggle which raged throughout the twentieth century and continues today in Black Lives Matter campaigns Charting a course through British history with an unobscured view of the actions of African and Caribbean people Adi reveals how much our greatest collective achievements universal suffrage our victory over fascism the forging of the NHS owe to these men and women and how in understanding our history in these terms we are more able to fully understand our present moment

Identity and Agency in England, 1500-1800 J. Barry, H. French, 2004-11-23 This collection of essays is arranged around the central issue raised by a raft of new empirical research the relationship between social identity or the vision of the self and the ways in which this can explain historical agency If identities in early modern society were multiple complex and dependent on context rather than homogenous consistent or easily determined then it is difficult to make simple causal links to behaviour This collection aims to make innovative new research on the structures of English society available to the wider scholarly audience The essays use a number of detailed contextual case studies to explore the twin themes of the nature of identities in early modern society and their role in influencing historical agency They examine the variety of identities available to individuals in early modern England and the ways in which these were invoked and employed

Britons and Fighting Irish Adam Chill,2017-09-12 Boxing was phenomenally popular in 18th and 19th century Britain Aristocrats attended matches and patronized boxers and the most important fights drew tens of thousands of spectators Promoters of the sport claimed that it showcased the timeless and authentic ideal of English manhood a rock of stability in changing times Yet many of the best fighters of the era were Irish Jewish or black This history focuses on how boxers journalists politicians pub owners and others used national religious and racial identities to promote pugilism and its pure English pedigree even as ethnic minorities won distinction in the sport putting the diversity of the Empire on display

Phillis Wheatley Vincent Carretta,2014-01-30 Carretta offers the first full length biography of Phillis Wheatley 1753 1784 who became the first English speaking person of African descent to publish a book and only the second woman of any race or background to do so in America **Legal Histories of the British Empire** Shaunnagh Dorsett,John

McLaren,2014-04-24 This book is a major contribution to our understanding of the role played by law s in the British Empire Using a variety of interdisciplinary approaches the authors provide in depth analyses which shine new light on the role of law in creating the people and places of the British Empire Ranging from the United States through Calcutta across Australasia to the Gold Coast these essays seek to investigate law s central place in the British Empire and the role of its agents in embedding British rule and culture in colonial territories One of the first collections to provide a sustained engagement with the legal histories of the British Empire in particular beyond the settler colonies this work aims to encourage further scholarship and new approaches to the writing of the histories of that Empire Legal Histories of the British Empire Laws Engagements and Legacies will be of value not only to legal scholars and graduate students but of interest to all of those who want to know more about the laws in and of the British Empire **Faces of Perfect Ebony** Catherine Molineux,2012-01-02 Though blacks were not often seen on the streets of seventeenth century London they were already capturing the British imagination For two hundred years as Britain shipped over three million Africans to the New World popular images of blacks

as slaves and servants proliferated in London art both highbrow and low Catherine Molineux assembles a surprising array of sources in her exploration of this emerging black presence from shop signs tea trays trading cards board games playing cards and song ballads to more familiar objects such as William Hogarth's graphic satires By idealizing black servitude and obscuring the brutalities of slavery these images of black people became symbols of empire to a general populace that had little contact with the realities of slave life in the distant Americas and Caribbean The earliest images advertised the opulence of the British Empire by depicting black slaves and servants as minor exotic characters who gazed adoringly at their masters Later images showed Britons and Africans in friendly gatherings smoking tobacco together for example By 1807 when Britain abolished the slave trade and thousands of people of African descent were living in London as free men and women depictions of black laborers in local coffee houses taverns or kitchens took center stage Molineux's well-crafted account provides rich evidence for the role that human traffic played in the popular consciousness and culture of Britain during the seventeenth and eighteenth centuries and deepens our understanding of how Britons imagined their burgeoning empire
