*Record Sources for Local History* Philip Riden, 1987

**Sources for English Local History** W. B. Stephens, 1981-09-10

English local and regional history has attracted widespread attention in the last twenty five to thirty years Its study has expanded at undergraduate and postgraduate levels in universities polytechnics and at other institutions of higher education and it has long retained its popularity as a subject for adult education classes In schools the teaching of local history in its own right and as an ingredient of general history environmental studies and local and social studies is well established and commonly involves the use of original sources The expansion of genealogical studies into the wider area of family history has involved many individuals and groups in the investigation of the local conditions which existed where former generations lived and in this pursuit increasing use of local records has been made Many who seek to involve themselves in this work however find that they are ill equipped in the knowledge of what sources exist where they are to be found or what techniques are suitable in making the best use of them

### **Tracing Your Ancestors Through Local History Records**

Jonathan Oates, 2016-02-29 Family history should reveal more than facts and dates lists of names and places it should bring ancestors alive in the context of their times and the surroundings they knew and research into local history records is one of the most rewarding ways of gaining this kind of insight into their world That is why Jonathan Oates detailed introduction to these records is such a useful tool for anyone who is trying to piece together a portrait of family members from the past In a series of concise and informative chapters he looks at the origins and importance of local history from the sixteenth century onwards and at the principal archives national and local those kept by government councils boroughs museums parishes schools and clubs He also explains how books photographs and other illustrations newspapers maps directories and a range of other resources can be accessed and interpreted and how they can help to fill a gap in your knowledge As well as describing how these records were compiled he highlights their limitations and the possible pitfalls of using them and he suggests how they can be combined to build up a picture of an individual a family and the place and time in which they lived

**English Local History** Kate Tiller, 2020 The classic guide to exploring English local history brought up to date and expanded This is a book for anyone wanting to explore local history in England It summarises in an accessible and authoritative way current knowledge and approaches bringing together and illustrating the key sources and evidence the skills and tools the contexts and interpretations for successive periods Case studies show these ingredients in use combined to create histories of people and place over time A standard text since its first edition in 1992 this new edition features extensive fresh material updated to reflect additional availability of evidence changing interpretations new tools and skills not least the use of IT and developments in the time periods and topics tackled by local historians The interdisciplinary character of twenty first century local family and community history is a prominent feature Complemented by 163 illustrations this book offers an unrivalled introduction to understanding and researching local history

*Writing local*

*history* John Beckett,2013-07-19 This fascinating book looks at how local history developed from the antiquarian county studies of the sixteenth century through the growth of professional history in the nineteenth century to the recent past Concentrating on the past sixty years it looks at the opening of archive offices the invigorating influence of family history the impact of adult education and other forms of lifelong learning The author considers the debates generated by academics including the divergence of views over local and regional issues and the importance of standards set by the Victoria County History VCH Also discussed is the fragmentation of the subject The antiquarian tradition included various subject areas that are now separate disciplines among them industrial archaeology name studies family landscape and urban history This is an authoritative account of how local history has come to be one of the most popular and productive intellectual pastimes in our modern society Written by a practitioner who has spent more than twenty years teaching local history to undergraduates and M A students as well as lecturing to local history societies John Beckett is currently Director of the VCH A remarkable book that will be of great interest to students and scholars of local history as well as amateur and professional genealogists

**Researching Local History** Stuart A. Raymond,2022-09-08 How has the place we live in changed developed and grown over the centuries That is the basic question local historians seek to answer The answer is to be found in the sources of information that previous generations have left us The records of parish county and diocesan administration of the courts of the national government and of private estates all have something to tell us about the history of the locality we are interested in So do old newspapers and other publications All of these sources are readily available but many have been little used Local historians come from a wide diversity of backgrounds But whether you are a student researching a dissertation a family historian interested in the wider background history of your family a teacher a librarian an archivist an academic or are merely interested in the history of your own area this book is for you If you want to research local history you need a detailed account of the myriad sources readily available This book provides a comprehensive overview of those sources and its guidance will enable you to explore and exploit their vast range It poses the questions which local historians ask and identifies the specific sources likely to answer those questions

R. Hill,Theodore William Moody,Francis X. Martin,Francis John Byrne,2010-08-26 Volume VII covers a period of major significance in Ireland s history the division of Ireland and the eventual establishment of the Irish Republic *Encyclopedia of Library and Information Science, Second Edition* - Miriam Drake,2003-05-20 A revitalized version of the popular classic the Encyclopedia of Library and Information Science Second Edition targets new and dynamic movements in the distribution acquisition and development of print and online media compiling articles from more than 450 information specialists on topics including program planning in the digital era recruitment information management advances in digital technology and encoding intellectual property and hardware software database selection and design competitive intelligence electronic records preservation decision support systems ethical issues in information online library instruction telecommuting and digital library projects *The Future of Post-Human History* Peter Baofu,2012-03-15 Is history really so universalistic even when similar events happen in different contexts that as George Santayana 1905 once famously wrote those who cannot remember the past are condemned to repeat it This more universalistic view of history can be contrasted with an opposing view which is more relativistic in orientation as shown by the equally known remark by Winston Churchill that history is written by the victor to the extent that what is regarded as true in history today may not be so in another era when a new victor comes into power THEX 2011 So which of the two views is correct here Contrary to these opposing views and other ideas as will be discussed in the book history in relation to both universality and relativity is neither possible or impossible nor desirable or undesirable to the extent that the respective ideologues on different sides would like us to believe Of course this challenge to the opposing views about history does not suggest that the study of history is controversial at best or that those fields related to the study of history like political science economics military studies anthropology sociology psychology philosophy theology literature ethics and so on should be rejected too Needless to say neither of these extreme views is reasonable Rather this book offers an alternative better way

to understand the future of history especially in the dialectic context of universality and relativity while learning from different approaches in the literature but without favoring any one of them or integrating them since they are not necessarily compatible with each other Instead this book offers a new theory that is the multifold theory of history to go beyond the existing approaches in a novel way If successful this seminal project is to fundamentally change the way that we think about history from the combined perspectives of the mind nature society and culture with enormous implications for the human future and what the author originally called its post human fate
