Records Management Handbook Ira A. Penn, Gail B. Pennix, 2017-03-02 Records Management Handbook is a complete guide to the practice of records and information management. Written from a multi-media perspective and with a comprehensive systems design orientation, the authors present proven management strategies for developing, implementing, and operating a 21st-century records management programme. Where most available titles are biased toward dealing with inactive records, this book gives a balanced treatment for all phases of the record's life cycle from creation or receipt through to ultimate disposition. The Records Management Handbook is a practical reference for use by records managers, analysts, and other information management professionals which will aid decision making, improve job performance, stimulate ideas, help avoid legal problems, minimize risk and error, save time, and reduce expense. Special features of the second edition include new chapters on record media, active records systems, and records disposition; new information on management strategies and programme implementation; revised guidance and material on records appraisal and record inventorying; expanded and increased information on retention scheduling, records storage, and electronic forms. Cases on Electronic Record Management in the ESARBICA Region Keakopa, Segomotso Masegonyana, Mosweu, Tshepho Lydia, 2020-02-28 The Eastern and Southern African Regional Branch of the International Council of Archives (ESARBICA) is dedicated to keeping and preserving records and documents so they may be accessible to the public. Constant research and re-examination of current record-keeping methods such as the Electronic Document and Records Management System (EDRMS) is necessary to ensure the preservation and dissemination of information. Cases on Electronic Record Management in the ESARBICA Region is an essential reference source that shares case studies on the development and implementation of records management strategies, including the procurement and implementation of EDRMS. Covering topics such as record management strategy development, e-records readiness, and legal frameworks, this book is ideally designed for archivists, librarians, records specialists, knowledge managers, ICT professionals, policymakers, system analysts, project managers, legal officers, academicians, researchers, and students. **Handbook of Research on ICTs and Management Systems for Improving Efficiency in Healthcare and Social Care** Cruz-Cunha, Maria Manuela, Miranda, Isabel Maria, Gonçalves, Patricia, 2013-04-30 Through the use of ICT tools such as the internet portals and telecommunication devices, the quality of healthcare has improved in local and global health, aiding in the development of a sustainable economy. Handbook of Research on ICTs and Management Systems for Improving Efficiency in Healthcare and Social Care brings together a valuable research collection on ICT elements needed to improve communication and collaboration between global health institutes, public and private organizations, and foundations. Highlighting the adoption and success factors in the development of technologies for healthcare, this book is essential for IT professionals, technology solution providers, researchers, and students interested in technology and its relationship with healthcare and social services. **Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations for 2016: Food and Drug**

Department of State, 1989 **Enterprise Content Management in Information Systems Research** Jan vom Brocke, Alexander Simons, 2013-11-04 This book collects ECM research from the academic discipline of Information Systems and related fields to support academics and practitioners who are interested in understanding the design use and impact of ECM systems It also provides a valuable resource for students and lecturers in the field Enterprise content management in Information Systems research Foundations methods and cases consolidates our current knowledge on how today's organizations can manage their digital information assets The business challenges related to organizational information management include reducing search times maintaining information quality and complying with reporting obligations and standards Many of these challenges are well known in information management but because of the vast quantities of information being generated today they are more difficult to deal with than ever Many companies use the term enterprise content management ECM to refer to the management of all forms of information especially unstructured information While ECM systems promise to increase and maintain information quality to streamline content related business processes and to track the lifecycle of information their implementation poses several questions and challenges Which content objects should be put under the control of the ECM system Which processes are affected by the implementation How should outdated technology be replaced Research is challenged to support practitioners in answering these questions The First Generation of Electronic Records Archivists in the United States Richard Cox, 2020-07-26 This book helps readers understand the current status of archivists in the United States It addresses issues of professionalization by re-examining two major aspects of the archival community institutional forms and structures and the basic educational foundations that are important to any profession While United States archivists now seem poised to develop new approaches to the management of electronic records including research and education venues this profession's long journey to reach this point is an interesting step on the continuing road to professionalization The First Generation of Electronic Records Archivists in the United States represents the first major study of how and why American archivists have struggled to contend with the management of electronic records The book provides a framework for studying this issue includes suggestions for additional research and serves as a basis for discussion about the continued strengthening of the archival profession Despite more than thirty years of striving to manage electronic records American archivists have not developed an effective infrastructure for this purpose The First Generation of

Electronic Records Archivists in the United States considers the evidence for this failure by evaluating archival literature on the topic of electronic records management. It examines how position descriptions in state government archives and job advertisements across the discipline have reflected a bias toward paper-based formats and the failure of graduate and continuing archival education programs to deal effectively with electronic records. The book details state government archives and position descriptions, trends and practices in the Information Age 1976-1990, graduate archival education and electronic records, an analysis of current approaches and their strengths and weaknesses, the effectiveness of the NAGARA Institute as a form of advanced archival education, problems, challenges, opportunities, and needs for additional research. The First Generation of Electronic Records Archivists in the United States is an enlightening study for library and information science educators, archival graduate students, and archivists themselves as they work toward the professionalization of their field.
