*Understanding Women's Recovery From Illness and Trauma* Margaret H. Kearney, 1999-06-23 Understanding Women's Recovery from Illness and Trauma is a practical guide to the why and how questions of human responses to illness. With this volume Margaret Kearney presents aspects of women's experiences that counselors are not always exposed to and provides support in the treatment of women who are facing or recovering from serious illness and other health crises. This book draws on qualitative data from a variety of sources and offers a theoretical model of women's health and identity. Kearney begins with an overview of that model and discusses the grounded theory approach to collecting and analyzing experiential data. She next moves on to describing a number of health crises recovery situations, women's responses to these events, and discusses clinical implications for women undergoing these experiences. The author also examines women's approaches to staying healthy and balancing their lives, and she closes by suggesting areas for future research. She also discusses policy implications for health and human service agencies that deal specifically with women from various cultural and ethnic groups. *Understanding Women's Recovery from Illness and Trauma* synthesizes the many studies that have been conducted on the topic across various disciplines. As such, this book provides one of the first general resources for therapists and counselors who work with women. It will also be particularly interesting to graduate and undergraduate students of clinical psychology, counseling, and social work, women's studies, and education. This volume will prove useful for in-service training programs for counselors, social workers, nurses, and psychologists.

*The Compassionate Mind Approach to Recovering from Trauma* Deborah Lee, Sophie James, 2012-07-19 Terrible events are very hard to deal with, and those who go through a trauma often feel permanently changed by it. Grief, numbness, anger, anxiety, and shame are all very common emotional reactions to traumatic incidents such as an accident or death of a loved one, and ongoing traumatic events such as domestic abuse. How we deal with the aftermath of trauma and our own emotional response can determine how quickly we are able to move on and get back to normality once more. An integral part of the recovery process is not only recognizing and accepting how our lives may have been changed, but also learning to deal with feelings of shame, an extremely common reaction to trauma. *Recovering from Trauma* uses the groundbreaking Compassion Focused Therapy to help the reader to not only develop a fuller understanding of how we react to trauma, but also to deal with any feelings of shame and start to overcome any trauma-related difficulties.
