Weiskopf,1982 Torkildsen's Sport and Leisure Management George Torkildsen, A Literature Review ,1986 A Literature Review President's Commission on Americans Outdoors (U.S.),1986 Whatever Happened to the Leisure Society? A. J. Veal,2018-10-10 The idea of a leisure society was in its heyday in the 1960s and 1970s when it was predicted that the pattern of falling working hours which had been experienced in Western societies in the first half of the twentieth century would continue indefinitely The leisure society has clearly not been realised On the contrary contemporary industrial societies seem to be characterised by a shortage of time experienced as time squeeze and stress The leisure society idea can be seen as the modern version of the age old dream of a life of ease and plenty This analytically and empirically rich book traces the idea in history through biblical classical Greek medieval and nineteenth century utopian writings and into twentieth century concerns with dystopia and the impact of rapid technological change The leisure society concept turns out to have been an elusive and short lived phenomenon For a variety of reasons the trend towards shorter working hours ran out of steam in the last quarter of the twentieth century However while leisure scholars have deserted the topic a diverse range of activists including environmentalists economists and feminists continue to make the case for reducing working hours Whatever Happened to the Leisure Society concludes that the on going struggle for time should be supported for the sake of human health and well being and for the sake of the planet This is a valuable resource for students and academics in the fields of leisure studies cultural studies history economics sociology and political science *The Crisis in Urban Recreational Services* Jay Sanford Shivers,Joseph W. Pentland,M. Powell Lawton,Andrew S. Harvey,Mary Ann McColl,2007-05-08 Despite the fact that for most of us time is a central focus of our

lives the examination of what we do with our time and why has received limited attention as a method for understanding human behavior in the social sciences Humans view and use of time shows tremendous variation including across cultures and with age lifestyle and gender For many of us a sense of time is ever present We speak of time as a commodity a resource an ally an enemy and a gift It maybe on our side on our hands with us or against us We perceive it to change speeds dragging vs flying vs standing still and lest it get away on us we attempt to harness and control it with clocks schedules and deadlines We describe our use of time in a myriad of ways we spend it save it waste it kill it give it take it and grab it The impetus for this book grew from a three day research symposium where established time use researchers from a variety of disciplines from Canada the United States Finland Australia and New Zealand gathered together to merge their knowledge and resources to collaborate in examining the relationship between human time utilization and health and well-being We gratefully acknowledge the financial support for the symposium received from the Government of Canada's Program for International Research Linkages and M Powell Lawton without whose support and encouragement this book would likely not exist
