The Defaulting State and the South China Sea Arbitration Alfredo C. Robles Jr.,2023-05-27 This book focuses on the legal and procedural

problems caused by China s default in the South China Sea Arbitration Many of these problems arose because in several respects China departed from the conduct of other defaulting States in cases before the International Court of Justice The book argues that the Tribunal confronted with the difficulties of maintaining the balance between two parties in a situation of default drew on the full range of its powers to ensure that neither China nor the Philippines would suffer from China s default

Further the book describes the shortcomings of the submissions of putative amicus curiae. It refutes China's questioning of the independence and impartiality of the experts and of the judges. In so doing it explains the expert opinions and the Tribunal's assessments of the latter in the areas of satellite imagery, coral reef ecology and navigational safety while rebutting the half truths and counter truths disseminated by Chinese scholars about the proceedings. The book compares China's threats to the independence of the Tribunal to its behavior towards Chinese judges. It places China's accusations of bias against the Tribunal in the context of China's domestic situation and concludes that the Tribunal acting independently and impartially was able to perform the judicial function despite China's default.

The Baltic Sea Renate Platzöder, Philomène Verlaan, 2023-07-24

Recent developments have produced fundamental and far reaching changes in the sovereignties bordering the semi enclosed area of the Baltic Sea. This book presents a comprehensive and balanced codification of issues and views focusing on new developments in the Baltic Sea Area with specific reference to the UNCLOS 1982 Convention, the particular marine uses of the Baltic Sea and national views and interests of the bordering states and third parties. It deals with matters such as the Kiel Canal delimitation dispute, settlement and navigation, shipping, the ecosystem, fisheries and scientific research. The Baltic Sea is the outcome of a European Workshop on the Law of the Sea co sponsored by the Law of the Sea Institute, University of Hawaii, the William S. Richardson School of Law, University of Hawaii and the Stiftung Wissenschaft und Politik Research Institute for International Affairs in Ebenhausen, Germany. This workshop is the first in a series designed to illuminate major issues in ocean law and policy which require attention on the national, regional and global levels. This book provides a useful basis for the consideration and further discussion of those interested in the sea and the environment, helping academics and policy makers alike not only ascertain but also understand objectives and concerns underlying the states of the region and the reaction of other states and the international community as a whole.
