Recueil Des Cours - Collected Courses ACEDEMIE DE DROIT INTERNATIONAL,1986-06-01 The Academy is an institution for the study and teaching of public and private international law and related subjects Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law *Recueil Des Cours, Collected Courses, 1936* Academie De Droit International De La Ha,1973-07-01

Répertoire des décisions et documents de la Cour de La Haye , The Transit Regime for Landlocked States Kishor Uprety,2006-01-01 The Transit Regime for Landlocked States assesses the strengths and limits of existing international law related to the free access of landlocked states to and from the sea The book analyzes whether the provisions of international law satisfy the economic demands of landlocked states the majority of which are among the world s poorest nations The book reviews the several principles of international law that dominated the evolution of the rights of access It discusses both general and specific conventions as well as treaty regimes emanating therefrom and examines some restrict **Collected**

Carlos Closa,2013-09-02 Since its inception the European Union EU has revised its foundational treaties several times resulting in national ratification processes involving different actors with varying success This book focuses on the politics of ratification of EU Treaties and reviews the processes of ratification of EU primary legislation Existing research and academic debate on EU constitutional politics have almost exclusively focussed on negotiation of new treaties and their institutional setting However this book explains how the result of ratification was achieved and analyses the strategy that actors pursue across Europe Ratification of the Treaty of Maastricht and the EU Constitution failed totally whilst other ratification can be considered partial failures such as the Irish Nice and Lisbon referendums As the EU Constitution has proved the ratification process may have deep effects unforeseen during the processes of negotiation In recent years ratification has produced some of the most intense debates on national membership of the EU and the EU itself The Politics of Ratification of EU Treaties will be of interest to students and researchers of European Studies European Union studies European Union Law and European Union Politics **Répertoire des décisions et des documents de la procédure écrite et orale de la Cour**

McCaffrey,2019-02-21 The Law of International Watercourses is an authoritative guide to the rules of international law
governing the navigational and non navigational uses of international rivers lakes and groundwater The continued growth of
the world s population places increasing demands on Earth s finite supplies of fresh water Because two or more States share
many of the world s most important drainage basins including the Danube the Ganges the Indus the Jordan the Mekong the
Nile the Rhine and the Tigris Euphrates competition for increasingly scarce fresh water resources will only increase
Agreements between the States sharing international watercourses are negotiated and disputes over shared water are
resolved against the backdrop of the rules of international law governing the use of this precious resource The basic legal
rules governing the use of shared freshwater for purposes other than navigation are reflected in the 1997 UN Convention on
the Law of the Non Navigational Uses of International Watercourses This book devotes a chapter to the 1997 Convention but
also examines the factual and legal context in which the Convention should be understood considers the more important
rules of the Convention in some depth and discusses specific issues that could not be addressed in a framework instrument of
that kind The book reviews the major cases and controversies concerning international watercourses as a background
against which to consider the basic substantive and procedural rights and obligations of States in the field The third edition
covers the implications of the 1997 Convention coming into force in August 2014 and the compatibility of the 1997 and 1992
Conventions This edition also updates the entire book adds new material to many of the chapters and adds a number of new
case studies including Pulp Mills on the River Uruguay Argentina v Uruguay and Certain Activities carried out by Nicaragua
in the Border Area Costa Rica v Nicaragua amongst others **Legal Problems Relating to the Utilization and Use of
