The History of Vietnam Justin Corfield, 2008-02-28 Everyone knows Vietnam for its turbulent environment during the second half of the 20th century but few know that archaeologists believe that civilization there existed as far back as the Bronze Age Vietnam's history runs rampant with clashing dynasties civil wars and power struggles between the North and South and conflicts with neighboring and other countries First ruled under China's close watch for centuries Vietnam fell under conflicting commands of France and Japan during the 19th and 20th centuries finally leading to the split of North and South Vietnam and ultimately the Vietnam War Today Vietnam still struggles with its scars from the past but is slowly emerging as its own country independent of China and France An essential addition for high school and public library shelves The History of Vietnam is the only reference book to examine Vietnam's complete history from the 2nd century BCE to the present *Hardware & Machinery*, 1961

World History and the Mysteries Rudolf Steiner, 2021-05-17 In this landmark series of lectures Rudolf Steiner challenges the notion that human consciousness has in essence remained the same throughout history On the contrary we can only see the past in its true light when we study the differences in human souls during the various historical eras Consciousness he says evolves constantly and we can only comprehend the present by understanding its origin in the past Delivered in the evenings during the course of the mystery act of the Christmas Foundation Meeting when Rudolf Steiner not only re founded the Anthroposophical Society but for the first time took a formal role within it these lectures study world history in parallel with the ancient mysteries of initiation showing how they are intimately linked Steiner describes consciousness in the ancient East and follows the initiation principle from Babylonia to Greece up to its influences in present day spiritual life He also discusses Gilgamesh and Eabani the mysteries of Ephesus and Hibernia and the occult relationship between the destruction by fire of the Temple of Artemis and the burning of the first Goetheanum in Dornach Switzerland Published for the first time with colour plates of Steiner's blackboard drawings the freshly revised text is complemented with an introduction notes and appendices by Professor Frederick Amrine and an index
