Ockham's Razors Elliott Sober, 2015-07-23 Ockham's razor the principle of parsimony states that simpler theories are better than theories that are more complex It has a history dating back to Aristotle and it plays an important role in current physics biology and psychology The razor also gets used outside of science in everyday life and in philosophy This book evaluates the principle and discusses its many applications Fascinating examples from different domains provide a rich basis for contemplating the principle's promises and perils It is obvious that simpler theories are beautiful and easy to understand the hard problem is to figure out why the simplicity of a theory should be relevant to saying what the world is like In this book the ABCs of probability theory are succinctly developed and put to work to describe two parsimony paradigms within which this problem can be solved

Doing What Matters James M. Kilts, Robert L. Lorber, John F. Manfredi, 2010-01-05 When Warren Buffett was asked why the Gillette board of directors chose Jim Kilts to be CEO he said Jim made as much sense in terms of talking about business as anybody I've ever talked to If you listen to Jim analyze a business situation you get absolutely no baloney And frankly finding someone like that is a rarity There is only one CEO in recent times who has faced and succeeded at the extraordinary challenges of leading three major companies Gillette Nabisco and Kraft into prosperous futures by doing what matters on the fundamentals That CEO is Jim Kilts In this vivid first person account he reveals his system for success that is both cutting edge and back to basics Doing What Matters the action plan for identifying and tackling what's important and ignoring the rest is the key to winning in a warp speed world where the need for revolutionary speed and decisiveness increases by the day Kilts illustrates his ideas with colorful stories such as that little red razor A new product idea he proposed early on at Gillette it was initially shelved because everyone knew you couldn't sell a red razor but went on to become one of Gillette's biggest marketing successes ever Jim Kilts's focus on both business fundamentals and personal attributes provides the complete package showing how to get results that make a difference through Intellectual integrity The ability to face the unvarnished truth about yourself and your business and using what you see as the basis for action Generating emotional engagement and enthusiasm Using the force of your personality and ideas to infuse people and an entire organization with a sense of purpose and mission Action Gillette with just five product lines had over 20 000 SKUs After studying the issue for over two years there were still 20 000 How Kilts got Gillette off the dime to pare down the number to 7 000 almost overnight is an astonishing example of getting the rubber to meet the road with enormous benefits to the business Understanding the right things through an overarching concept to frame and filter issues For Jim Kilts it was Total Brand Value the framework he used in the consumer products industry for achieving better faster and more complete results than the competition Whether you're CEO of a multibillion dollar global company the brand manager for a product an entrepreneur starting a small business or just beginning a career Doing What Matters provides the practical ideas that get results ranging from a day one action plan for starting a new job to a chorus of cheers and support to a program of total innovation that involves everyone in changes from small to big bang

Red Pill Guide to Mater Familias Conrad Riker, When Empowerment Becomes Tyranny How Feminist Institutions Enslave Men and Erase Fatherhood Do you feel like a walking wallet in a system that strips your rights as a father, husband, or son? Why can women weaponize the state to destroy your reputation, finances, and family while you face zero due process? What happens to civilization when boys are indoctrinated to hate their own biology? Reveal the hidden mechanisms feminist elites use to replace paternal authority with state-controlled matriarchy. Learn how family courts, false accusations, and equality laws are engineered to dispossess men. Discover why evolutionary biology proves male leadership is non-negotiable and how to reclaim it. Unmask the medical industrial complex's abortion loopholes that let women kill children men can't save. Break free from the double bind of toxic masculinity: damned if you're strong, despised if you're vulnerable. Defeat paternity fraud traps that force men to fund kids who aren't theirs. Arm yourself against social services that treat fathers like suspects and mothers like saints. Reverse engineer the cultural Marxist playbook that turned schools, media, and corporations into feminist re-education camps. If you want to dismantle the gynocratic state, protect your family, and resurrect masculine sovereignty, buy this book today.

To Run for Life from Swastika and Red Star A. Reisfeld, 2002-10-07 When the Germans invaded Poland in September 1939, the author and his father were drafted into the Polish Army. After a few days of hopeless fighting, the brigade in which the author served was routed and dispersed. This precipitated a headlong flight of soldiers and civilians alike, anxious to escape the murderous attack of the rapidly advancing enemy armored columns and their attendant aircraft, which ceaselessly bombed and strafed roads and villages. For some three weeks, Aaron Reisfeld and his father desperately sought to escape the Nazi onslaught by fleeing eastward to the Russian border and the perceived safety that country offered. It was a harrowing ordeal covering hundreds of kilometers during which the Reisfelds endured hunger, exposure, bombing, shelling, and countless dangers on roads clogged with millions of terrified escaping refugees. At the outbreak of war, the author lived a comfortable life in a reasonably affluent home in the town of Lodz and was about to complete his last year of high school. Little did he know it would be more than a decade before he could complete his education and obtain a degree in textile engineering from Nottingham College in England. In that decade, the author survived many trials by fire and mortal danger: first in escaping from the Nazis, then fighting the Germans in North Africa as a soldier in the British Army, and finally serving in the Israeli Army in that country's bloody war for independence. While he managed to escape the fires of the Holocaust, his mother, sister, and most members of his extended family were consumed in it, along with six million Jews and untold numbers of gentiles. Running from the advancing Nazis, the author and his father, through sheer determination,

willpower to survive and luck managed to reach the Russian Zone of Occupation and its temporary safety Soon however they found they had to flee from the Russians as well when they began deporting into the Siberian hinterland capitalists professionals and the intelligentsia who were unlikely to hew to the Soviet ideology and order Fleeing the Russians the Reisfelds brought off another harrowing escape this time by crossing a raging river in the middle of a cold wintry night into Romania where they hoped to find a temporary haven Because they had crossed illegally into the country the author and his father were apprehended by the Romanian police and forced to serve a brief jail sentence before being set free and allowed to stay in that country From their base in Bucharest Reisfelds father tried to arrange for his mothers and sisters escape from Nazi occupied Poland Such arrangements were difficult to make but possible by bribing the right police and Nazi officials Reisfelds father succeeded in making those arrangements and his mother and sister were set to travel to then neutral Italy from where they could continue on to Palestine But just as they were about to depart Italy entered the war on Germanys side thus trapping them in Poland and sealing their doom The security they found in Romania did not last as both Germany and the Soviets were poised to march into Romania and partition the country between them The Reisfelds had to flee once again before they could be overtaken by their dreaded enemies They managed to book passage on one of the last passenger ships to leave Romania barely days ahead of the German occupation After a tour of eastern Mediterranean ports the Reisfelds finally landed in Haifa where they were taken in by family members already established in Palestine Yet this was hardly the end of the authors peregrinations With the war raging in North Africa and creeping closer to Palestine Aaron joined the British Armys Corp of Royal Engineers as a sapper lifting and planting mines blowing up fortifications and building and destroying bridges among ot
