## **Red Colobus Monkey:**

The Red Colobus Monkeys Thomas T. Struhsaker, 2010-04 This unique research level text is suitable for graduate level students as well as professional researchers in primatology behavioral ecology anthropology and conservation biology Book Jacket

**Chimpanzee and Red Colobus** Craig Britton Stanford, 1998 Our closest living relatives the chimpanzees are familiar enough bright and ornery and promiscuous But they also kill and eat their kin in this case the red colobus monkey which may say something about primate even hominid evolution This book the first long term field study of a predator prey relationship involving two wild primates documents a six year investigation into how the risk of predation molds primate society Taking us to Gombe National Park in Tanzania a place made famous by Jane Goodall s studies the book offers a close look at how predation by wild chimpanzees observable in the park as nowhere else has influenced the behavior ecology and demography of a population of red colobus monkeys As he explores the effects of chimpanzees hunting Craig Stanford also asks why these creatures prey on the red colobus Because chimpanzees are often used as models of how early humans may have lived Stanford s findings offer insight into the possible role of early hominids as predators a little understood aspect of human evolution The first book length study in a newly emerging genre of primate field study **Chimpanzee and Red Colobus** expands our understanding of not just these two primate societies but also the evolutionary ecology of predators and prey in general

**The Red Colobus Monkey** Thomas T. Struhsaker, 1975 **The Red Colobus Monkeys** Thomas T. Struhsaker, 2010-04-01 Based on field studies spanning nearly 40 years this reference book summarizes and integrates past research with new and previously unpublished information on the behavioral ecology of Africa s red colobus monkeys from study sites as diverse as Senegal Uganda and Zanzibar It provides an unparalleled compilation of information on taxonomy genetics vocalizations demography social organization dispersal social behavior reproduction mortality factors diet ranging patterns interspecific relations and conservation Social relationships in red colobus are less rigidly structured than in other African monkeys resulting in considerable variation in social organization and group composition both within and between taxa This provides a unique opportunity to examine the extent to which social variables correlate with differences in habitat quality demography and predation by chimpanzees and humans Unfortunately at least half of the 18 taxa of red colobus are now threatened with extinction Conservation problems are described causal factors identified and solutions proposed This volume is intended not only to serve as a reference book but to stimulate and guide future long term research and to encourage effective conservation action
