RED DWARF III

BACKWARDS

byte one

THE VESSEL The flying ship *Red Dwarf*.
THE CREW The silliest, most
marked and bunch of spacebums and losers
ever to set foot in an alienated reality.
THE PLOT To get back to Earth and
living with
THE JOURNEY We never to the same again.
The phenomenon that spawned a huge cult
on both sides of the Atlantic, and two inter-
nationally best-selling novels is now available
on video. The only

byte one

BACKWARDS

The *Red Dwarf* crew return to Earth to
find Time is running backwards. With
some brilliant time photography and
ingenious editing this non-classic episode
heralds the arrival of the new-look *Red Dwarf*.

MAROONED

As *Red Dwarf* heads on a collision course towards a minefield of Black
Holes, the crew is forced to abandon ship. Lister finds himself marooned on
an arctic moon with Rimmer and only a pot noodle and a tin of dogfood
between him and starvation.

POLYMORPH

A chameleon-like genetic mutant which salivates unpeckable slobber gets loose
aboard *Red Dwarf*, and the nightmare begins. The crew are subjected to 24
hours of non-stop horror in a gruesome, petrifying comedy blood-fest.
With Frances Barber as Gerry Polymorph

Winner of the British Science Fiction Award for Best Presentation, 1991
Winner of the British Science Fiction Award for Best Presentation, 1991

Directed by Neil Barrie • Produced by Neil Barrie, Rob Grant and Doug Naylor • Starring Chris Barrie, Craig Charles, Danny John-Jules, Hattie Hayridge and Robert Llewellyn
Running Time: 90 mins approx.

Red Dwarf Backwards

**Julia Eckel, Bernd Leiendecker, Daniela
Olek, Christine Piepiorka**

Red Dwarf Backwards:

Red Dwarf Bloomsbury Publishing Plc, 2000-06 **Backwards** Rob Grant, 1996 Backwards Rob Grant, 1996 Dave Lister has finally found his way back to planet Earth which is good What's bad however is that time isn't running in quite the right direction And if he doesn't get off the planet soon he's going to have to go through puberty again backwards *Red Dwarf: Discovering the TV Series* Tom Salinsky, 2024-11-30 Explores the unique journey of the long running British sitcom detailing its creation cast changes and enduring legacy through critical analysis and behind the scenes insights Red Dwarf is virtually unique among British sitcoms It began in 1988 and was still releasing new episodes in 2020 making it one of the longest running sitcoms of all time but the core cast has remained largely unchanged And its science fiction flavor contrasts strongly with the drawing rooms and sofas which were the norm when it launched and the fast cut mockumentary style which is popular today And yet this is a show which nobody wanted to make and which only barely made it to our screens at all In this work Tom Salinsky will look at exactly how it came to be who was considered for the cast but didn't make it how it was radically reinvented for the third sixth seventh ninth and tenth seasons how it survived the breakup of its key creative partnership the loss of the original spaceship models BBC strikes the departure of a major cast member and the seemingly self defeating rules which the writers imposed on themselves But this isn't just a behind the scenes account It's also a detailed critical analysis examining why the best episodes succeed and why the less impressive episodes struggle while also finding time to ask just how a hologram made of light can smell burning camphor wood why a creature evolved from a cat is familiar with Wilma Flintstone or just how long Lister and Kochanski were dating for How can all this possibly be contained in one book It can't Volume I will cover the first six series and Volume II will conclude the story of Red Dwarf on television as well as looking at the novels comic strips computer games and more **Backwards** Robert Ray Grant, 1996 Dave Lister has finally found his way back to the planet Earth But time isn't running in quite the right direction and if he doesn't get off the planet soon he's going to have to go through puberty again backwards Still his crew mates from Red Dwarf have come to rescue him **Time-Travel Television** Sherry Ginn, Gillian I. Leitch, 2015-10-08 Stories of time travel have been part of science fiction since H G Wells sent his nameless hero hurtling into Earth's distant future in *The Time Machine* Time travel enables the storyteller to depict alternate realities bring fictional characters face to face with historical figures and depict moral and ethical dilemmas in which millions of lives or the world as we know it are at stake From Doctor Who and Quantum Leap to the multiple incarnations of Star Trek time travel has been a staple of science fiction television for more than fifty years Time Travel Television The Past from the Present the Future from the Past surveys the whole range of time travel stories on the small screen The essays in this collection explore time travel series both familiar Babylon 5 Stargate SG 1 and forgotten The Time Tunnel Voyagers as well as time travel themed episodes and arcs in series where it is not central such as Red Dwarf Lost and Heroes Contributors to this volume consider some of the classic themes of time travel stories the

promise and peril of fixing the past the chance to experience and choose possible futures and the potential for small changes to have great effects Exploring time travel as a teaching tool as a vehicle for moral lessons and as a background for high adventure this book offers new perspectives on many familiar programs and the first serious study of several unjustly neglected ones Time Travel Television is essential reading for science fiction scholars and fans and for anyone interested in the many ways that television brings the fantastic into viewers living rooms *Best of the Britcoms* Garry

Berman,2011-02-16 With crisp dialog outrageous characters and an absurd sense of humor it s no wonder British sitcoms are so well loved *Best of the Britcoms* covers the most noteworthy situation comedies ever to cross the pond Each entry combines a show summary with descriptions of standout episodes and behind the scenes details plus gives you production data and full cast listings And now the revised edition of this Britcom classic contains seven new chapters on programs that have aired in the U S since the original edition was published such as *The Office Extras* and *My Family Fans* of old school Britcoms won t be disappointed either as the revised edition also includes the later developments of older series storylines and detailed information on specials and cast reunions that have occurred in the intervening years Pick up this book kick back and get to know a Britcom *Red Dwarf* Chris Howarth,Steve Lyons,1997 *Red Dwarf* is the biggest cult of recent years Since 1988 there have been seven series of mind boggling comedy adventures as Lister Rimmer Cat and Kryen attempt to make their way back to Earth after a five million year interstellar sleep *(Dis)Orienting Media and Narrative Mazes* Julia

Eckel,Bernd Leiendecker,Daniela Olek,Christine Piepiorka,2014-03-15 *Dis Orientation* appears to be a phenomenon that is connected to media in numerous respects today finding your way in the world often means finding your way with the help of as well as within media which in turn creates new virtual realms of dis orientation This book deals with recent media technologies and structures navigation devices databases transmediality and unconventional narrative patterns narrative complexity plot twists non linearity using the ambivalent concept of dis orientation as a shared focus to analyse various phenomena of contemporary media thereby raising overarching questions about current mediascapes *JUDITH*

MEZZELSTONE HASAN MALIK,2013-05 A work absolutely new in form much as Laurence Sterne s *Tristram Shandy* Herman Melville s *Moby Dick* James Joyce s *Ulysses* and Franz Kafka s *The Castle* were in their respective times Stories conflating from and to the mind of its character in dizzying accesses *Fearful Symmetry* Ian Stewart,Martin Golubitsky,2010-08-01

From the shapes of clouds to dewdrops on a spider s web this accessible book employs the mathematical concepts of symmetry to portray fascinating facets of the physical and biological world More than 120 figures illustrate the interaction of symmetry with dynamics and the mathematical unity of nature s patterns *Irreversible* Tim Palmer,2014-12-12 *Gaspar No s Irreversible* is uncompromising and visceral an essential piece of modern cinema Punctuated by dazzling avant garde techniques the film depicts in reverse chronological order a woman s rape and her boyfriend and friend s subsequent hunt for vengeance through the underworld of Paris Confrontational yet influential *Irreversible* has polarized audiences since its

release in 2002 making it until now almost impossible to study dispassionately This first book length study of Irreversible situates No s work in the ecosystem of contemporary French media exploring how Irreversible and a larger scale cin ma du corps actually inspired France s film resurgence in the early twenty first century From there Palmer shows Irreversible to be one of the most subversive star vehicles in recent world cinema in the form of its iconic lead performers Vincent Cassel Monica Bellucci and Albert Dupontel Investigating the spectrum of reactions created by No s film through its pugnacious stylistic design its on screen deconstruction of Paris its international critical reception and its unexpectedly utopian counterpoints to violence and despair the book generates a new rational dialogue about Irreversible that challenges any instinct simply to reject or condemn it *Bowker's Complete Video Directory* ,1992 **Paradoxes** , **Cult TV** Jon E. Lewis,Penny Stempel,1998 Cult TV is the only guide providing comprehensive information on all your favourite cult shows Covering over 300 TV programmes the authors outline each show from conception to execution with cast lists plus little known facts and anecdotes In Pursuit of the Unknown Ian Stewart,2012-03-13 The seventeen equations that form the basis for life as we know it Most people are familiar with history s great equations Newton s Law of Gravity for instance or Einstein s theory of relativity But the way these mathematical breakthroughs have contributed to human progress is seldom appreciated In In Pursuit of the Unknown celebrated mathematician Ian Stewart untangles the roots of our most important mathematical statements to show that equations have long been a driving force behind nearly every aspect of our lives Using seventeen of our most crucial equations including the Wave Equation that allowed engineers to measure a building s response to earthquakes saving countless lives and the Black Scholes model used by bankers to track the price of financial derivatives over time Stewart illustrates that many of the advances we now take for granted were made possible by mathematical discoveries An approachable lively and informative guide to the mathematical building blocks of modern life In Pursuit of the Unknown is a penetrating exploration of how we have also used equations to make sense of and in turn influence our world Out of this World Stephen Webb,2013-04-17 Stephen Webb author of WHERE IS EVERYBODY takes the interested amateur on a thrilling and enlightening tour of the amazing even bizarre new ideas of modern physics including alternatives to the Big Bang parallel universes and an imaginary trip to the other side of the black hole Film and Television In-Jokes Bill van Heerden,2008-09-11 In Only the Lonely 1991 Ally Sheedy appeases prospective mother in law Maureen O Hara by going along to see the 1939 film How Green Was My Valley starring Maureen O Hara Richard LaGravenese slighted by critic Gene Siskel over his screenplay for The Fisher King 1991 wrote an unsavory character named Siskel into The Ref 1994 Movies and television shows often feature inside jokes Sometimes there are characters named after crew members Directors are often featured in cameo appearances Alfred Hitchcock s silhouette can be seen in Family Plot 1976 for example This work catalogs such occurrences Each entry includes the title of the film or show year of release and a full description of the in joke *The Sorceress, The Druid, and The Timewalker* Elizabeth Wilde,2014-08-02 Cythera a sea

pixie needs help in saving her kinds island home from sinking and letting loose a horrible beast that would terrorize the seas of the Crystal Realm This story takes place right after The Apprentice The Swordsman and The Impossible Mission and Falina the Sorceress and her friends Adriel the Druid and Kilian the Timewalker set out on another great adventure that takes them from the hidden nooks of their world and across the unknown seas encountering the forgotten past sea monsters pirates mermaids mysterious spirits and much more
