Red October Bolshevik Revolution Of 1917

Henry W Berger

Red October Bolshevik Revolution Of 1917:

Red October Robert Vincent Daniels,1967 The Russian Revolution is the collective term for a series of revolutions in Russia in 1917 which dismantled the Tsarist autocracy and led to the creation of the Russian SFSR The Emperor was forced to abdicate and the old regime was replaced by a provisional government during the first revolution of February 1917 March in the Gregorian calendar the older Julian calendar was in use in Russia at the time In the second revolution during October the Provisional Government was removed and replaced with a Bolshevik Communist government Wikipedia **Red October** Daniels Robert V.,1984-09-01 **Red October; the Bolshevik Revolution of 1917 [by] Robert V. Daniels** Daniels, Robert Vincent,1967 **The Course of Russian History, 5th Edition** Melvin C. Wren,Taylor Stults,2009-01-08 Now in its fifth edition this definitive history of the Russian land and people builds on its success as a fascinating survey of two thousand years of struggle to harness vast resources and talents into a powerful and cohesive nation From its beginning as a savage and exotic land Russia underwent a complex evolution of political social and religious forces the barbarism of its internal conflicts in seeming contradiction with its goals to advance in the realms of technology art education and high culture From the conflicts of the fantastically wealthy ruling class to the poor and oppressed masses emerged the Communist party and the enigmatic figures whose charismatic manipulation of political power reflected the myriad rulers before them Finally as the modern world watched this great entity collapsed in a devastatingly brief time millennia of precarious conflict proving too much for the tenuous coalescence of twentieth century politics Written in an engaging and accessible style this text presents students with a comprehensive look at the momentous events and legendary figures which helped shape Russia's turbulent history **Historical Dictionary of the Russian Revolution** Jonathan Davis,2020-05-15 Historical Dictionary of the Russian Revolution focuses on the leading individuals ideas political parties and main events that were central to the transformation of Russia during the revolution The time period runs from January 1917 through to the Treaty of Brest Litovsk that took Russia out of the First World War in March 1918 It covers the main events ideas people and parties and takes the story of the revolution from the eve of the overthrowing of Tsar Nicholas II through to the Bolshevik seizure of power the first six months of Leninist rule and the Treaty of Brest Litovsk that ended Russia's involvement in the First World War Historical Dictionary of the Russian Revolution contains a chronology an introduction and an extensive bibliography The dictionary section has over 200 cross referenced entries on the revolutions the First World War political parties ideologies and individuals and the main events that defined the course of the Russian Revolution This book is an excellent resource for students researchers and anyone wanting to know more about the Russian Revolution **The Soviet Colossus** Michael Kort,2001 The most readable history of twentieth century Russia from tsarist times to the present now completely revised and updated to integrate new revelations and ongoing debates about the nature of the Soviet regime and including coverage of the first decade of post Soviet Russia **Injustice: The Social Bases of Obedience and Revolt** Barrington Moore,

Jr,2016-07-01 First Published in 1978 This is a book about why people so often put up with being the victims of their societies and why at other times they become very angry and try with passion and forcefulness to do something about their situation I his most ambition book to date Barrington Moore Jr explores a large part of the world s experience with injustice and its understanding of it In search of general elements behind the acceptance of injustice he discusses the Untouchables of India Nazi concentration camps and the Milgram experiments on obedience to authority **A History of Russia** George Vernadsky,1969-01-01 Scholarly intellectually stimulating and readable It is not only a very good guide through the record of Russian development but it makes one go deeper by the way it raises interesting questions Frederick C Barghoorn Generally recognized as the standard one volume history of Russia this monumental work describes Russia s growth from the times of the nomadic tribes to the Cold War and examines the social religious and cultural as well as the political and economic aspects of Russian civilization Professor Vernadsky reviews the origins of the Russian state Kievan Russia the Mongol period the tsardom of Moscow in the sixteenth and seventeenth centuries and the Russian empire from Peter the Great to Nicholas II The last third of the book discusses the revolution of 1917 and the emergence of the Soviet Union as a world power *St. Louis and Empire* Henry W Berger,2015-04-23 At first glance St Louis Missouri or any American city for that matter seems to have little to do with foreign relations a field ostensibly conducted on a nation state level However St Louis despite its status as an inland river city frequently relegated to the backwaters of national significance has stood at the crossroads of international matters for much of its history From its eighteenth century French fur trade origins to post Cold War business dealings with Latin America and Asia the city has never neglected nor been ignored by the world outside its borders In this pioneering study Henry W Berger analyzes St Louis s imperial engagement from its founding in 1764 to the present day revealing the intersection of local political cultural and economic interests in foreign affairs Berger uses a biographical approach to explore the individuals and institutions that played a leading role in St Louis s expansionist reach He shows how St Louis business leaders entrepreneurs politicians and investors often driven by personal and ideological motives as well as the potential betterment of the city and its people looked to the west southwest Latin America Europe Asia and the Pacific to form economic or political partnerships Among the people and companies Berger profiles are Thomas Hart Benton who envisioned a western democratic capitalist empire hosted by St Louis cotton exporters James Paramore and William Senter who were involved in empire building in the southwest and Mexico St Louis oil tycoon and railroad investor Henry Clay Pierce who became deeply involved in political intrigue and intervention in Mexican affairs entrepreneur and politician David R Francis who promoted personal and St Louis interests in Russia and McDonnell Douglas and its founder James S McDonnell Jr who were part of the transformation of St Louis s political economy during the Cold War Many of these attempted imperial activities failed but even when they succeeded Berger explains the economy and the people of St Louis did not usually benefit The vision of a democratic capitalist empire embraced by its exponents proved to be both an illusion

and a contradiction By shifting the focus of foreign relations history from the traditional confines of nation state conduct to city and regional behavior this innovative study highlights the domestic foundations and content of foreign policy opening new avenues for study in the field of foreign relations

The Russian Secret Police Ronald Hingley,2021-05-30 This book first published in 1970 is an important study of Russia s security services from their earliest years to the mid twentieth century Ronald Hingley demonstrates how the secret police acted both under the Tsars and under Soviet rule as a key instrument of control exercised over all fields of Russian life by an outstandingly authoritarian state He analyses the Tsarist Third Section and Okhrana and their role in countering Russian revolutionary groups and examines the Soviet agencies as they assumed the roles of policeman judge and executioner This masterly evaluation of Russian and Soviet secret police makes extensive use of hard to find Russian documentary sources and is the first such research that studies Russian political security Muscovite Imperial and Soviet as a whole

Lenin and the Revolutionary Party Paul Le Blanc,2016-02-01 For generations historians of the right left and center have all debated the best way to understand V I Lenin s role in shaping the Bolshevik party in the years leading up to the Russian Revolution At their worst these studies locate his influence in the forcefulness of his personality At their best they show how Lenin moved other Bolsheviks through patient argument and political debate Yet remarkably few have attempted to document the ways his ideas changed or how they were in turn shaped by the party he played such a central role in building In this thorough concise and accessible introduction to Lenin s theory and practice of revolutionary politics Paul Le Blanc gives a vibrant sense of the historical context of the socialist movement in Russia and abroad from which Lenin s ideas about revolutionary organization spring What emerges from Le Blanc s partisan yet measured account is an image of a collaborative ever adaptive and dynamically engaged network of revolutionary activists who formed the core of the Bolshevik party

Politics and the Russian Army Brian D. Taylor,2003-06-09 Military coups have plagued many countries around the world but Russia despite its tumultuous history has not experienced a successful military coup in over two centuries In a series of detailed case studies Brian Taylor explains the political role of the Russian military Drawing on a wealth of new material including archives and interviews Taylor discusses every case of actual or potential military intervention in Russian politics from Peter the Great to Vladimir Putin Taylor analyzes in particular detail the army s behavior during the political revolutions that marked the beginning and end of the twentieth century two periods when the military was uncharacteristically heavily involved in domestic politics He argues that a common thread unites the late Imperial Soviet and post Soviet Russian army an organizational culture that believes that intervention against the country s political leadership whether tsar general secretary or president is fundamentally illegitimate

The Great Fear James Harris,2016-02-25 Between the winter of 1936 and the autumn of 1938 approximately three quarters of a million Soviet citizens were subject to summary execution More than a million others were sentenced to lengthy terms in labour camps Commonly known as Stalin s Great Terror it is also among the most misunderstood moments

in the history of the twentieth century The Terror gutted the ranks of factory directors and engineers after three years in which all major plan targets were met It raged through the armed forces on the eve of the Nazi invasion The wholesale slaughter of party and state officials was in danger of making the Soviet state ungovernable The majority of these victims of state repression in this period were accused of participating in counter revolutionary conspiracies Almost without exception there was no substance to the claims and no material evidence to support them By the time the terror was brought to a close most of its victims were ordinary Soviet citizens for whom counter revolution was an unfathomable abstraction In short the Terror was wholly destructive not merely in terms of the incalculable human cost but also in terms of the interests of the Soviet leaders principally Joseph Stalin who directed and managed it The Great Fear presents a new and original explanation of Stalin s Terror based on intelligence materials in Russian archives It shows how Soviet leaders developed a grossly exaggerated fear of conspiracy and foreign invasion and lashed out at enemies largely of their own making

States of Memory Jeffrey K. Olick, 2003-07-21 A journal into book collection on national memory focusing on commemorations collective apologies and historical revisions now enhanced by the addition of 6 essays by senior historical sociologists

The Soviet Colossus Michael G. Kort, 2015-05-18 The twentieth century was not kind to Russia Despite its great potential and remarkable achievements the country also bore the weight of two world wars a revolution and civil war totalitarian tyranny famine and ecological destruction economic ruin and imperial decline Will Russia ever be prosperous peaceful and free Seeking clues in the past Michael Kort revisits earlier turning points in Russia s history from the fall of the old regime to the establishment of the Bolshevik dictatorship and Stalinist totalitarianism from the reforms and counter reforms of Khrushchev and Brezhnev to the tumultuous years of change under Gorbachev and Yeltsin Which strands of Russia s past is their successor Vladimir Putin weaving into the fabric of the present and which are being allowed to fade for better or worse This new edition of The Soviet Colossus brings the story up through the first decade of the twenty first century Distinctively readable judicious and focused on critical events and questions it integrates new revelations about the Soviet past and ongoing debates about the Soviet regime as well as its successor It is the ideal text for as one semester history course or background for a political science course

Liberal City, Conservative State Robert William Thurston, 1987-09-17 Between 1906 and the outbreak of World War I Moscow was the locale of great uncertainty and experimentation Moscow s liberal leaders sought social and political stability for their city following the violence of the 1905 revolution by offering attractive programs in education employment housing and other areas to Moscow s unruly lower classes They were countered in their efforts however by central authorities of the Old Regime who feared the political effects of these programs and stressed social rigidity Liberal City Conservative State examines the resulting clash between the city and the state as it brought to the surface and exacerbated the deep tensions plaguing Russia by the eve of World War I It focuses on the roots of this dispute juxtaposing the Old Regime s rural background and orientation with the urban concerns of Moscow s liberals and sees the

state's essential failure in its inability to come to terms with the realities of urban life and growth. Providing new perspectives and insights into Russian liberalism, the scope and urgency of urban problems and the importance of tsarist ideology in conditioning development after 1905, Moscow's story sheds light on the unsolved dilemmas and contradictions that pushed Russia inexorably toward revolution.

The Russian Revolution Sean McMeekin, 2017-05-30 A powerful revisionist history. Times UK illuminating the tensions and transformations of the Russian Revolution. In *The Russian Revolution*, acclaimed historian Sean McMeekin traces the events which ended Romanov rule, ushered the Bolsheviks into power and introduced Communism to the world. Between 1917 and 1922, Russia underwent a complete and irreversible transformation. Taking advantage of the collapse of the Tsarist regime in the middle of World War I, the Bolsheviks staged a hostile takeover of the Russian Imperial Army, promoting mutinies and mass desertions of men in order to fulfill Lenin's program of turning the imperialist war into civil war. By the time the Bolsheviks had snuffed out the last resistance five years later, over 20 million people had died and the Russian economy had collapsed so completely that Communism had to be temporarily abandoned. Still, Bolshevik rule was secure owing to the new regime's monopoly on force enabled by illicit arms deals signed with capitalist neighbors such as Germany and Sweden who sought to benefit politically and economically from the revolutionary chaos in Russia. Drawing on scores of previously untapped files from Russian archives and a range of other repositories in Europe, Turkey and the United States, McMeekin delivers exciting groundbreaking research about this turbulent era. The first comprehensive history of these momentous events in two decades, *The Russian Revolution* combines cutting edge scholarship and a fast-paced narrative to shed new light on one of the most significant turning points of the twentieth century.

The First World War, 1914-1918 Gerd Hardach, 1981 The First World War unquestionably represents an important climacteric in economic history. However, the significance of that climacteric is variously interpreted. Essentially, there are four themes whose order of priority depends on the observer's viewpoint: the decay of the classical capitalist world economy based on Great Britain and the gold standard; the progress of industrialisation overseas brought about by the temporary economic paralysis of Europe; the long-term effect of structural changes in the economies of the warring industrial countries; more especially, the merging of the economy and the apparatus of state; finally, the development of the international labour movement from its nadir in August 1914 to its triumphant culmination of the Russian October Revolution. I have endeavoured to the best of my ability to do justice to these various aspects and to place them in a common context which might be described as the crisis of the capitalist world economy.

Red October: The Rise and Fall of the Soviet Regime Pasquale De Marco, 2025-05-14 In the annals of history, few experiments have been as ambitious, transformative and ultimately tragic as that of the Soviet Union. Spanning seven tumultuous decades, this colossal enterprise sought to reshape the world in the image of communism, leaving an indelible mark on humanity's collective memory. This comprehensive and captivating book delves into the heart of the Soviet experience, unraveling the intricate tapestry of events, decisions and

personalities that shaped its destiny From the ashes of the Russian Empire we witness the birth of the Bolshevik Revolution and the rise of Vladimir Lenin the charismatic leader who ignited the flames of communism We follow the Soviet Union s tortuous path through industrialization collectivization and the Great Purge as Joseph Stalin s iron fist grips the nation Through the lens of ordinary citizens we experience the hardships hopes and dreams of those who lived under the Soviet regime We witness the sacrifices they made the compromises they endured and the resilience they displayed in the face of adversity We encounter dissidents and reformers visionaries and tyrants all playing their part in the grand drama of Soviet history We traverse the harrowing years of World War II witnessing the Soviet Union s resilience in the face of Nazi Germany s onslaught We explore the ideological battles of the Cold War the space race and the Cuban Missile Crisis as the world teeters on the brink of nuclear annihilation We navigate the labyrinthine corridors of the Kremlin observing the power struggles political intrigues and economic challenges that plagued the Soviet leadership The collapse of the Soviet Union in 1991 marked a seismic shift in the global geopolitical landscape The world watched in awe as the Iron Curtain crumbled and the Soviet republics declared their independence Yet the legacy of the Soviet Union continues to cast a long shadow over Russia and the world shaping political discourse international relations and cultural identities This book is an essential guide to understanding this fascinating and complex chapter in human history Through a blend of rigorous research vivid storytelling and insightful analysis it provides a comprehensive overview of the Soviet Union s rise reign and eventual collapse It is a must read for anyone seeking to unravel the enigmas of this vanished empire and its enduring impact on the modern world If you like this book write a review on google books

Lenin's Legacy Robert Wesson, 1978-03-01 This concise monograph traces Russian Marxism from its beginnings to mid 1977 shows how and why the party achieved power how it has strengthened its position and how it has undertaken to remold the country and to solve its internal problems Wesson s study is the only up to date party history currently available The book opens with background material on Russian discontent and endeavors to analyze the fundamental nature of Communist Party rule taking into account new perspectives in Lenin s revolution the Stalinist period and the Khrushchev years as well as the latest period not covered in earlier accounts It treats the rise of Lenin the struggle for power after Lenin and after Stalin and the consolidation of Brezhnev s authority As the most recent history of communism in the Soviet Union it has great topical interest and is clearly written for the benefit of the student and general reader as well as the professional
