Unpopular Privacy Anita Allen, 2011-10-17 Can the government stick us with privacy we don't want? It can, it does, and according to this author may need to do more of it. Privacy is a foundational good, she argues, a necessary tool in the liberty lover's kit for a successful life. A nation committed to personal freedom must be prepared to mandate inalienable liberty-promoting privacies for its people, whether they eagerly embrace them or not. The eight chapters of this book are reflections on public regulation of privacy at home, isolation and confinement for punitive and health reasons, religious modesty, attire, erotic nudity, workplace and professional confidentiality, racial privacy, online transactions, social networking, and the collection, use, and storage of electronic data.

Spiritual Masters for All Seasons Michael Ford, 2009 Every age needs figures of spiritual inspiration, but in times of recession and uncertainty they are essential in helping us to rise above despair and to search for God deep within ourselves. In this new book, Michael Ford invites four spiritual masters onto the same stage for the first time and shows how they speak not only to our own times but for all seasons: Thomas Merton, Henri Nouwen, Anthony de Mello, and John O'Donohue. All died suddenly at the height of their fame as spiritual masters, but they continue to have immense followings. What was their secret, and why do their legacies endure? Through unpublished interviews with some of the authors themselves, encounters with their friends, and reflections from readers who have been inspired by their writings, Michael Ford journeys across the United States and Europe to assess their place in the world of contemporary spirituality. He goes behind the scenes of the Abbey of Gethsemani in Kentucky to hear first-hand from monks who were novices under Merton; visits Lambeth Palace in London to discover Merton's influence on the Archbishop of Canterbury; talks to people about how Nouwen, the proverbial wounded healer, helped them through depression because he had suffered himself; speaks to Jesuits who worked with de Mello in India and tries to find out how close the international storyteller came to Buddhism; and takes a walk with O'Donohue through landscapes in rural Ireland that feature in such books as *Anam Cara* and discusses the appeal of Celtic spirituality. Blending the spiritual with the journalistic, Michael Ford presents four unique writers as Spiritual Masters for All Seasons.

Sonorous Desert Kim Haines-Eitzen, 2024-04-16

Deserts have a long religious history. Think of the biblical stories of the ancient Israelites migrating through deserts after they had been freed from slavery in Egypt and the stories from the New Testament of Jesus being tempted in the desert. Early Christian monks and hermits were deeply influenced by such stories, drawing from them the lesson that the desert is an important place. It's the place to which one flees the cacophony and distractions of the marketplace and town square in order to hear and contemplate the voice of God in solitude. Of course the practice of withdrawal was a Graeco-Roman ideal as well as a biblical one, and some early monks were surely influenced by pre-Christian philosophical ideas about the power of solitude too. Alone or in monastic communities which paradoxically blended the communal and the solitary, monks found something surprising in the harsh desert environment while they went there in search of silence: they found that the desert too is rich with sound, which one can appreciate if one pays attention. One has to learn to listen to the subtle natural sounds of the desert in order to become quiet and still enough to listen with the ear of the heart. In the words of the sixth-century AD monk Benedict of Nursia, Kim Haines-Eitzen has written a book about the sayings, anecdotes, and stories of these desert monks based on her reading of a wide range of texts written in Greek, Coptic, and Latin between the third and seventh centuries, including letters, treatises, and philosophical and practical instructions for monastic life. This material speaks to the interdependence between humans and other animals and between humans and the environment. The author highlights the ways in which monks wrestled with the sounds of the desert and how they used these to cultivate a quality of inner listening. She invites her readers to reflect with her on what we might learn about our own world from their experience and stories: how in the midst of our cacophonous surroundings we might cultivate a sense of inner quietude. And how we might grapple with the tensions that those early monks also felt between the pulls of solitude and community. Accompanying this book are a set of audio recordings the author made in desert environments.

Man's Search for Meaning Viktor E. Frankl, 2006-06-01

Psychiatrist Viktor Frankl's memoir has riveted generations of readers with its descriptions of life in Nazi death camps and its lessons for spiritual survival. Between 1942 and 1945, Frankl labored in four different camps, including Auschwitz, while his parents, brother, and pregnant wife perished. Based on his own experience and the experiences of others he treated later in his practice, Frankl argues that we cannot avoid suffering, but we can choose how to cope with it, find meaning in it, and move forward with renewed purpose. Frankl's theory, known as logotherapy, from the Greek word *logos* meaning "holds that our primary drive in life is not pleasure as Freud maintained, but the discovery and pursuit of what we personally find meaningful." At the time of Frankl's death in 1997, *Man's Search for Meaning* had sold more than 10 million

copies in twenty four languages A 1991 reader survey for the Library of Congress that asked readers to name a book that made a difference in your life found Man's Search for Meaning among the ten most influential books in America In Search of Solitude Missouri.
