Religion, Language, Narrative and the Search for Meaning Anthony Campbell, 2009-08-09 This is a book about religion from a secular standpoint which nevertheless takes its subject seriously Anthony Campbell is a medical doctor who has long been interested in religion and spirituality and has written several books about it in the last 30 odd years including the first detailed examination of the philosophical ideas underlying Transcendental Meditation Seven States of Consciousness published in 1973 He has also made a study of the Persian heretical Islamic sect known in the West as the Assassins The Assassins of Alamut available from Lulu In 2008 he published a personal account in Totality Beliefs and the Religious Imagination also available from Lulu of his own gradual abandonment of the search for religious truth The present book looks at a number of attempts to explain the existence of religious belief and concludes that religion will probably always appear naturally in human consciousness because of the way in which our minds have evolved **In Search of Radical Theology**

John D. Caputo, 2020-10-06 These sparkling essays from a seasoned scholar are a great breath of fresh air in our claustrophobic and catastrophic time Cornel West Capturing a career's worth of thought and erudition this rich volume treats readers to creative thought careful argumentation and sophisticated analysis transmitted through the lucid accessible prose that has earned the author a wide readership of academics and non academics alike In tackling radical theology John D Caputo has in mind the deeper stream that courses its way through various historical and confessional theologies upon which these theologies draw even while it disturbs them from within They are well served by this disturbance because it keeps them on their toes When we read about professional theologians losing their jobs in confessional institutions the chances are that by earnestly digging into what is going on in their tradition they have hit upon radical theological rock Unlike modernist dismissals of religion radical theology does not debunk but re-invents the theological tradition Radical theology Caputo says is a double deconstruction of supernatural theology on the one hand and of transcendental reason on the other and therefore of the settled distinctions between the religious and the secular Caputo also addresses the challenge for radical theology to earn a spot in the curriculum given that the radical makes it suspect among the confessional seminaries while the theology renders it suspect among university seminars Journeying from the academy to contemporary American culture In Search of Radical Theology includes a captivating presentation of radical political theology for the time of Trump This utterly unique volume not only brings readers on an enlightening tour of Caputo's thought but also invites us to accompany the author as he travels into intriguing new territories Freedom of Religion or Belief Heiner Bielefeldt, Nazila Ghanea, Michael

Soul Searching : The Religious and Spiritual Lives of American Teenagers Christian Smith Dr William R Kenan Jr Professor of Sociology University of Notre Dame, Candidate University of North Carolina Melina Lundquist Denton Ph.D, Chapel Hill USA, 2005-01-25 In innumerable discussions and activities dedicated to better understanding and helping teenagers one aspect of teenage life is curiously overlooked Very few such efforts pay serious attention to the role of religion and spirituality in the lives of American adolescents But many teenagers are very involved in religion Surveys reveal that 35% attend religious services weekly and another 15% attend at least monthly 60% say that religious faith is important in their lives 40% report that they pray daily 25% say that they have been born again Teenagers feel good about the congregations they belong to Some say that faith provides them with guidance and

resources for knowing how to live well What is going on in the religious and spiritual lives of American teenagers What do they actually believe What religious practices do they engage in Do they expect to remain loyal to the faith of their parents Or are they abandoning traditional religious institutions in search of a new more authentic spirituality This book attempts to answer these and related questions as definitively as possible It reports the findings of The National Study of Youth and Religion the largest and most detailed such study ever undertaken The NYSR conducted a nationwide telephone survey of teens and significant caregivers as well as nearly 300 in depth face to face interviews with a sample of the population that was surveyed The results show that religion and spirituality are indeed very significant in the lives of many American teenagers Among many other discoveries they find that teenagers are far more influenced by the religious beliefs and practices of their parents and caregivers than commonly thought They refute the conventional wisdom that teens are spiritual but not religious And they confirm that greater religiosity is significantly associated with more positive adolescent life outcomes This eagerly awaited volume not only provides an unprecedented understanding of adolescent religion and spirituality but because teenagers serve as bellwethers for possible future trends it affords an important and distinctive window through which to observe and assess the current state and future direction of American religion as a whole

Selected Readings in the Anthropology of Religion Stephen D. Glazier, Charles A. Flowerday, 2003-12-30 Brings together in one volume a number of key theoretical and methodological advances in the anthropological study of religion Chapters cover important topics not ordinarily included in books dealing with the anthropology of religion e g bipedalism the study of alcohol film and video images notions of religious agency In addition this collection is intended to build bridges between anthropologists of religion and religious studies scholars Over the last four decades anthropologists have grappled with the dialectical relationship between the examination of cultures from the emic or insider perspective and the etic or outsider perspective Nowhere is this creative tension more evident than in the anthropological study of religion In this volume anthropologists and religious studies scholars come to

terms not only with a landscape that has shifted fundamentally but a landscape that is still shifting Essays in this collection raise new and important issues for the anthropological study of religion in new and important ways In intensely personal essays a number of contributors address two fundamental concerns in the study of religion 1 how should anthropologists deal with the beliefs and practices of others and 2 how should anthropologists deal with their own religious backgrounds and beliefs as these may affect their understanding of the beliefs and practices of others A partial resolution to both questions is necessary before the anthropological study of religion can advance to a higher level

Mission in Context: In Search of Asian Strategic Communication of the Gospel
Thang Deih Lian Davidlianno, 2018-05-09. There is a profusion of missional issues emerging in the Asian fields that call Christ's followers to actively witnessing the Truth. Missionaries from different continents have come to serve the Asian nations and yet these God's loving missionaries' effectiveness often seem to have left in the shade by some damaging fruits and sometimes being too much of Westernness stemming from a diversity of lacking knowledge, particularly the local contexts to contextualize and lack of preparation. The irrefutable finding is appealing within the Asian mission study in regard to the essentiality in equipping the Christians so that the ministries in Asia will experience the effectiveness in cultivating the diverse contexts/cultures with the text Scripture they have. Many principles and practical information from this book grew out of the author's experiences and the reflection of Missiologists and scholars such as Andrew Walls, Christopher Wright, Kazoh Kitamori, Paul Hiebert, etc.

Building Your Life on the principles of God: The Solid foundation Anthony Bright Atwam, 2014. Lord, please continue to have mercy on humanity. You have made provisions for everything we need in this world and the world to come. Yet many people, although they desire good life, are suffering; some are confused, others are desperate, families are broken down, our nation is struggling to cope, many people are lost in spiritual matters and sin. In this book, the author's main argument is that God, in his unfailing love for humanity, has already provided what people are frantically seeking in life. What people need to do is to turn to the Holy Scriptures for guidance. This book can be of such help. You see, when life is calm, our foundations don't seem to matter. But when crisis comes, our foundations are tested. In this book, the author also argues that it is a waste of time and effort for people to build their lives on a faulty foundation. Jesus describes God's principles as a solid foundation for people to build their lives on. We are strangers in this world; therefore, we need someone who knows the journey of life to guide us. God is the creator of this world and He alone knows the in and out of this world. His principles provide guidance for a perfect life. The attempts by some

groups of people to suppress the knowledge of God in the society have not been very helpful in many ways although they could not succeed For example these people could not provide the society with any viable alternative guiding principles on how people should live their lives This has led many people to turn to wrong sources for guidance sometimes with very little success or no success at all leading to a life of despair hopelessness and failure Because of this suppression of God's word there seems to be famine in our society famine of truth famine of the word of God There is also darkness in our society many people are confused and some do not know what to do with their lives But the word of God is light it gives understanding it gives hope it provides guidance on spiritual matters the salvation of the human soul and solutions to all our problems Sometimes life is easier and beautiful if you know what to do in any situation you find yourself Many people desire a good family life peace joy hope self discipline strength encouragement a connection with a higher being that transcends human existence and meaning to life in their spiritual quest As you read this book know that I am praying for you for all these blessings in Jesus name amen Anthony Bright Atwam According to scripture the church is the salt and the light of this world But the church seems to have locked the resources God has given her to be given to the world in the room and has put the keys in her pocket while the world is suffering One of the things the church needs to do is to start to unpack and release the resources God has given her to meet the needs of postmodern spiritual quest Anthony Bright Atwam

Free Exercise of Religion in the Liberal Polity Emily R. Gill, 2019-08-21 This book addresses the challenge of providing for the free exercise of religion without allowing religious exercise by some individuals and groups to impinge upon the conscientious convictions of others State neutrality toward religion is impossible because neutrality means inattention to religion for some but leveling the playing field through accommodations or exemptions for others Both formal and substantive neutrality have a place in addressing particular conflicts One such example is public funding for religiously affiliated social service programs for which neither type of neutrality is satisfactory and thus some restrictions are justifiable conversely private voluntary organizations that do not receive direct public funding should be allowed wide latitude regarding their practices This title also examines the expansive free exercise claims that are now made by those who argue that following the law impinges upon their beliefs as exemplified by the ministerial exception and the Hobby Lobby and Masterpiece Cakeshop Supreme Court cases It concludes by analyzing the relationship between neutrality and marriage as a civil status which impacts a variety of commitment types and plural marriage
