Semiotics And Structuralism Readings From The Soviet Union:

Semiotics and Structuralism Henryk Baran, 1976 **Handbook of Semiotics** Winfried Noth, 1990-09-22 History and Classics of Modern Semiotics Sign and Meaning Semiotics Code and the Semiotic Field Language and Language Based Codes From Structuralism to Text Semiotics Schools and Major Figures Text Semiotics The Field Nonverbal Communication Aesthetics and Visual Communication Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01

The last half of the twentieth century has seen the emergence of literary theory as a new discipline. As with any body of scholarship, various schools of thought exist and sometimes conflict within it. I. R. Makaryk has compiled a welcome guide to the field. Accessible and jargon-free, the *Encyclopedia of Contemporary Literary Theory* provides lucid, concise explanations of myriad approaches to literature that have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars, not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant complex terms, places them in context, and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini-bibliographies, and cross-referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture.

The Semiotic Sphere Thomas A. Sebeok, Jean Umiker-Sebeok, 2012-12-06

Although semiotics has in one guise or another flourished uninterruptedly since pre-Socratic times in the West, and important semiotic themes have emerged and developed independently in both the Brahmanic and Buddhist traditions, semiotics as an organized undertaking began to take form only in the 1960s. Workshops materialized with a perhaps surprising spontaneity over much of Europe, Eastern and Western, and in North America. Thereafter, others quickly surfaced almost everywhere over the literary globe. Different places strategically allied themselves with different legacies, but all had a common thrust: to aim at a general theory of signs by way of a description of different sign systems, their comparative analysis, and their classification. More or less permanent confederations were forged with the most diverse academic disciplines, and amazingly varied frameworks were devised suited to the needs of the times and the sites to carry the work of consolidation forward. Bit by bit, mutually supportive international networks were put together. Today, it can truly be asserted that semiotics has become a global enterprise. This, of course, is far from saying that the map is uniform or even that world-wide homogeneity is in the least desirable. While our conjoint ultimate goal remains steadily in focus, the multiplicity of avenues available for its realization is inherent in the adventure of the search itself. Essential Readings in

Biosemiotics Donald Favareau, 2010-06-10 Synthesizing the findings from a wide range of disciplines from biology and anthropology to philosophy and linguistics the emerging field of Biosemiotics explores the highly complex phenomenon of sign processing in living systems Seeking to advance a naturalistic understanding of the evolution and development of sign dependent life processes contemporary biosemiotic theory offers important new conceptual tools for the scientific understanding of mind and meaning for the development of artificial intelligence and for the ongoing research into the rich diversity of non verbal human animal and biological communication processes Donald Favareau's *Essential Readings in Biosemiotics* has been designed as a single source overview of the major works informing this new interdisciplinary and provides scholarly historical and analytical commentary on each of the texts presented The first of its kind this book constitutes a valuable resource to both bioscientists and to semioticians interested in this emerging new discipline and can function as a primary textbook for students in biosemiotics as well Moreover because of its inherently interdisciplinary nature and its focus on the big questions of cognition meaning and evolutionary biology this volume should be of interest to anyone working in the fields of cognitive science theoretical biology philosophy of mind evolutionary psychology communication studies or the history and philosophy of science

The Spirit of Carnival David Danow, 2021-05-11 The world of literature responds to the spirit of carnival in ways that are both social and cultural mythological and archetypal Literature provides a mirror in which carnival is reflected and refracted through the multifarious perspectives of verbal art In his original wide ranging book David K Danow catches the various reflections in that mirror from the bright life affirming magical side of carnival as revealed in the literature of Latin American writers to its dark grotesque death embracing aspect as illustrated in numerous novels depicting the dire experience of the Second World War The remarkable meshing of these two diametrically opposed yet inextricably intertwined facets of literature and of life makes for an intriguing sphere of investigation for the carnival spirit is animated by a human need to dissolve borders and eliminate boundaries including symbolically those between life and death in an ongoing effort to merge opposing forces into new configurations of truth and meaning Expanding upon the seminal ideas of Mikhail Bakhtin carnival argues Danow is designed to allow one extreme to flow into another to provide for one polarity official culture to confront its opposite unofficial culture much as individuals engage in dialogue In this case the result is dialogized carnival or carnivalized dialogue In their artmaking Danow claims human beings are animated by a periodic predisposition toward the bright side of carnival matched by an equally strong far darker predilection Carnival forms of thinking are firmly embedded within the human psyche as archetypal patterns In this engaging exploratory book we are shown the distinctive imprint of these primordial structures within a multitude of seemingly disparate literary works

Persistent Forms Ilya Kliger, Boris Maslov, 2015-12-14 Since the mid 1980s attempts to think history and literature together have produced much exciting work in the humanities Indeed some form of historicism can be said to inform most of the current scholarship in literary studies including work in poetics yet much of this scholarship remains undertheorized Envisioning a revitalized and more expansive historicism this volume builds on the tradition of Historical Poetics pioneered by Alexander Veselovsky 1838 1906 and developed in various fruitful directions by the Russian Formalists Mikhail Bakhtin and Olga Freidenberg The volume includes previously untranslated texts of some of the major scholars in this critical tradition as well as original contributions which place that tradition in dialogue with other thinkers who have approached literature in a globally comparatist and evolutionary historical spirit The contributors seek to challenge and complement a historicism that stresses proximate sociopolitical contexts through an engagement with the longue dur e of literary forms and institutions In particular Historical Poetics aims to uncover deep historical stratifications and asynchronicities in which formal solutions may display elective affinities with other chronologically distant solutions to analogous social and political problems By recovering the traditional nexus of philology and history Persistent Forms seeks to reinvigorate poetics as a theoretical discipline that would respond to such critical and intellectual developments as Marxism New Historicism the study of world literature practices of distant reading and a renewed attention to ritual oral poetics and genre

Neverending Stories Ann Fehn, Ingeborg Hoesterey, Maria M. Tatar, 2014-07-14 In these compelling new essays leading critics sharpen our understanding of the narrative structures that convey meaning in fiction taking as their point of departure the narratological positions of Dorrit Cohn Grard Genette and Franz Stanzel This collection demonstrates how narratology with its attention to the modalities of presenting consciousness offers a point of entry for scholars investigating the socio cultural dimensions of literary representations Drawing from a wide range of literary texts

the essays explore the borderline between fiction and history explain how characters are constructed by both author and reader through the narration of consciousness show how gender shapes narrative strategies ranging from the depiction of consciousness through intertextuality to the representation of the body address issues of contingency in narrative and present a debate on the crucial function of person in the literary text The contributors are Stanley Corngold Gail Finney Kte Hamburger Paul Michael Ltzeler David Mickelsen John Neubauer Thomas Pavel Jens Rieckmann Shlomith Rimmon Kenan Judith Ryan Franz Stanzel Susan Suleiman Maria Tatar David Wellbery and Larry Wolff Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

World-Games Cristopher Nash, 2024-10-31 Contemporary readers face a literature that seems to speak for them yet they often struggle to say just how or why Out of the deluge of works from such writers as Barth Barthelme Beckett Borges Brooke Rose Burroughs Butor Calvino Cort zar Federman Fuentes Le Guin M rquez McElroy Nabokov O Brien Pynchon Robbe Grillet Sanguineti Sarraute Sollers Sukenick Tolkien Vonnegut new words and world models that demand understanding fill the air Yet they seem frequently beyond reach because the framework of ideas within which this often brilliant but seemingly bewilderingly disparate flood of discourses might make sense remains largely unexpressed Beginning with the first concisely concerted assessment in English of the premisses and practice of Realism as viewed by those who feel that there is no choice but to move on this book first published in 1987 confronts the vocabulary and rhetoric of current radical theory with the actual procedures of post war fiction In a spirit of challenging experiment it scrutinizes the themes motifs and strategies of contemporary narrative and reveals an unsuspected continuity of hitherto concealed premisses and dilemmas built into recent postmodern and poststructuralist thought As provocative as the literature it regards it proposes that anti Realism is no longer merely a movement that it has become a massive and equally conventionalized and problematical tradition living alongside Realism throughout the Western world
