

Лексика русского политического дискурса

Английский язык, как язык глобального общения, является сегодня посредником в межкультурном общении во всех сферах его адаптивные возможности позволяют ему стать «голосом» иноязычных культур, в том числе и русской. Участники межкультурного политического дискурса стремятся к формированию положительного имиджа своей страны, что требует манипулирования общественным сознанием, которое, в свою очередь, актуализируется главным образом на лексическом уровне. Именно лексика способствует выражению идеологической оценочности и разрешению неоднозначности или, напротив, формированию двусмысленности. Эффективное межкультурное общение в сфере политики требует понимания вариативности лексики при контакте с иноязычной культурой, овладения механизмом образования англоязычных вариантов русского политического лексикона и способом разрешения неоднозначности. Именно эти аспекты анализируются в монографии, для чего привлекается значительный корпус англоязычных текстов, главным образом британских и американских авторов, словарей и справочных изданий. Издание адресовано политикам, журналистам, лингвистам и переводчикам, специалистам в области связей с общественностью и аспирантам.
