Unsolved Western American Murders and Extended Cold Case Resolutions Marques Vickers,2020-07-18 This

edition profiles 75 illustrated murder cases committed within California Oregon Washington Northern Idaho and Montana
 Accompanying photography returns the reader to the scene of the crime with precise listed locations The most daunting
 dilemma of a murder investigation is typically uncovering proof beyond a reasonable doubt that a perpetrator committed a
 killing The evolution of forensic technology has enabled investigators to match DNA profiles from evidence obtained at a
 crime scene with specific individual samplings This development has resulted in several high profile cases ultimately
 achieving resolution Some of the accompanying profiles have developed promising suspects and probable perpetrators but
 lacked the tangible evidence or persuasive courtroom presentation to convict In a few instances due to the notoriety of the
 trial the court of popular opinion did convict the defendant yet they remain free of incarceration Other cases have simply
 lacked accompanying evidence from the outset and subsequent clues or confessions have never materialized For a victim's
 immediate circle of family acquaintances and even society in general a lack of closure becomes an accompanying torment
 Stolen lives deserve accountability and one cannot fully understand the enormity of loss without concrete explanations of
 motive Given time some of these cases may one day find closure Some murderers do have a conscience and scientific
 advancements may one day piece together the fractured incoherency of inconclusive evidence CALIFORNIA Unsolved
