The Making of American Spirituality This is a masterful overview The history of the senses has been a frontier field for a while now Mark Smith draws together what we know with an impressive sensory range and encourages further work A really exciting survey Peter N Stearns author of American Fear The Causes and Consequences of High Anxiety Who would ever have guessed that a book on the history of the senses seeing hearing touching tasting and smelling could be informative thought provoking and at the same time most entertaining Ranging in both time and locale Mark Smith s Sensing the Past makes even the philosophy about the senses from ancient times to now both learned and exciting This work will draw scholars into under recognized subjects and lay readers into a world we simply but unwisely take for granted Bertram Wyatt Brown author of Southern Honor Ethics and Behavior in the Old South Mark M Smith has a good record of communicating his research to a broad constituency within and beyond the academy This will be required reading for anyone addressing sensory history Penelope Gouk author of Music Science and Natural Magic in Seventeenth Century England This is a fine cultural history of the body which takes Western and Eastern traditions and their texts quite seriously Smith views a history of the senses not only from below but places it squarely in the historical imagination It will be of interest to a wide range of readers Sander L Gilman author of Difference and Pathology *The Sense of the Past / By Henry James - Scholar's Choice Edition* Henry James, Percy Lubbock, 2015-02-13 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *Miracles, Past and Present* William Mountford, 1870 **Remains of the Past in Old English Literature** Jan-Peer Hartmann, 2025-02-11 Argues for a new understanding of Old English responses to materiality and historical change Human communities have interacted with the material remains of earlier periods for millennia Such archaeological objects including bones coins weapons building materials and architectural landmarks were physically handled reused transformed and reinterpreted they were also depicted in literature This book examines how Old English texts imagine such human encounters with the remnants of the past It explores Elene s perspective on the discovery of the True Cross as a narrative of political spiritual and epistemic translatio and the multiple ways in which The Wanderer and The Ruin use images of ruins and the poetic formula work of giants to construct an unknown and unrecoverable past it also

considers the engagements with untimely objects in Beowulf and the Anonymous Old English Legend of the Seven Sleepers and how the Ruthwell Cross Poem and The Dream of the Rood play off figural against literal history As this study demonstrates Old English texts combined and creatively adapted a broad variety of ways of conceptualizing not merely history but indeed the very processes by which historical thought operates Its careful readings show that these texts not only display a deep and conflicted understanding of the philosophical implications of viewing history and temporality through the prism of material objects but also exhibit a powerful capacity for expressing such an understanding through aesthetic strategies

[Red Lodge and the Mythic West](#) Bonnie Christensen, 2002 Tracing the story of Red Lodge from the 1880s to the present, Christensen tells how a mining town managed to endure the vagaries of the West's unpredictable extractive industries economy. She connects Red Lodge to a myriad of larger events and historical forces to show how national and regional influences have contributed to the development of local identities, exploring how and why westerners first rejected and then embraced western images and how ethnicity, wilderness, and historic preservation became part of the identity that defined one town.

**The Logic of Time** Johan van Benthem, 2012-12-06 That philosophical themes could be studied in an exact manner by logical means was a delightful discovery to me. Until then the only outlet for a philosophical interest known to me was the production of poetry or essays. These means of expression remain inconclusive however with a tendency towards profuseness. The logical discipline provides so me intellectual backbone without excluding the literary modes. A master's thesis by Erik Krabbe introduced me to the subject of tense logic. The doctoral dissertation of Paul Needham awakened me as so many others from my dogmatic slumbers concerning the latter's monopoly on the logical study of Time. Finally a set of lecture notes by Frank Veltman showed me how classical model theory is just as relevant to that study as more exotic intensional techniques. Of the authors whose work

inspired me most I would mention Arthur Prior for his irresistible blend of logic and philosophy Krister Segerberg for his technical opening up of a systematic theory and Hans Kamp for his mastery of all these things at once Many colleagues have made helpful comments on the two previous versions of this text I would like to thank especially my students Ed Brinksma Jan van Eyck and Wilfried Meyer Viol for their logical and cultural criticism The drawings were contributed by the versatile Bauke Mulder Finally Professor Hintikka's kind appreciation provided the stimulus to write this book Outline of General Psychology Robert Harvey Gault, Delton Thomas Howard, 1925
