D. Broad's Theory of Perception, by Martin Lean... [A Dissertation.].** Martin Lean,1953      **Sense-Perception And Matter** Martin

Lean,2013-07-04 First published in 1999 This is Volume IX of twenty one of a series on Cognitive Psychology Written in 1953 this book offers a critical analysis of C D Broad s argument in Chapter IV The Mind and Its Place in Nature concerning Sense Perception and Matter and his Theory of Perception      Dictionary of Twentieth-Century British Philosophers Stuart

Brown,2005-06-01 This is a two volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date Typically the individuals included have been born by 1935 and by now have made their main contributions Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonialization and the changing denotation of the term The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U K but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture      **Psychology and Philosophy of Abstract Art** Paul M.W. Hackett,2016-05-25

This book examines how we perceive and understand abstract art in contrast to artworks that represent reality Philosophical

psychological and neuroscience research including the work of philosopher Paul Crowther are considered and out of these approaches a complex model is developed to account for this experience The understanding embodied in this model is rooted in facet theory mapping sentences and partially ordered analyses which together provide a comprehensive understanding of the perceptual experience of abstract art
