Sensing The World:

Sensing the World David Le Breton, 2017 **Sensing the World** Philip Morgan, 2011 Discusses the different senses of the human body and how each work together and on their own Provided by publisher **Sensing the Perfect Tomato** Denise Wilson, 2019-04-19 Fresh Juice Paste Canned Stewed Diced Pureed Sun Dried Salsa Sauce Ketchup Rare is the cuisine that does not make use of the tomato in some way shape or form and the resulting culinary popularity of the tomato has led to its proliferation in fields and farms around the world While some may still argue whether the tomato is a fruit or a vegetable few would argue that tomato crops are highly lucrative attractive to farmers in both developing and developed countries and on large and small farms alike In fact for those crops with significant global volume and market share tomatoes are the highest valued among those crops that lack an affiliation to mind altering drugs But the tomato can be a persnickety critter The tomato doesn't like it too hot too chilly too wet too dry or too fertile Many don't ripen at the same time Most are easily bruised And the selective breeding that has yielded a larger more attractive and deep red tomato has also mercilessly drained much of the taste and flavor from a once sweet and delectable fruit Enter the world of sensors and modern sensing technology The Internet of Things IOT when using well chosen well networked and well aggregated sensors has shown tremendous potential to support precision agriculture providing a more detailed picture of crops than was previously possible using conventional crop monitoring techniques But the stringent resources and tight profit margins that are a fact of life among many tomato growing operations large and small mean that sensor technologies must be chosen and used carefully There is no doubt that each sensor must earn its keep in producing the perfect tomato With that in mind this book explores key opportunities to marry the potential of sensors that are networked within the IOT to the needs of tomato production in ways that are economically fruitful technologically robust and sustainable overall **Sensing the World** Moreland Perkins, 1983-01-01 **The Fidelity of Reason: A Phenomenological Metaphysics of Self, Nature and Divinity** Felix Ó Murchadha, 2025-04-01 The book reveals a phenomenological metaphysics which places it at the cutting edge of contemporary work on phenomenology It addresses the crisis of world that is all around us as the meaning structures relating to self nature and divinity all seem to be undermined politically and socially within the current reality of climatic geo political and ideology turmoil In addressing these issues this text argues for a renewed understanding of reason as a fidelity to world understood as faithfulness to the being and value of self nature and divinity The account of the self engages with contemporary and older phenomenological discussions Husserl Heidegger Ricoeur Henry Zahavi as well as debates in the Philosophy of Mind the account of nature ranges over Schelling's Naturphilosophie Whitehead Philosophy of Quantum Physics and Bruno Latour the section on divinity engages with debates in Anthropology and the History of Religion as well as within the so called theological turn and theological discussions of ecology This book is directed at scholars working within the fields of phenomenology philosophy of nature philosophy of self philosophical theology philosophy of religion and

metaphysics as well as upper undergraduate and graduate students in philosophy ecological studies and theology
