**Experimental Psychology Its Scope and Method: Volume V (Psychology Revivals)** Joseph Nuttin,Paul Fraisse,Richard Meili,2014-08-01 First published in English in 1968 Joseph Nuttin contributes the first chapter on Motivation He discusses various aspects of the motivational process Such as incentives conflict social motivation and negative motivation and describes the mechanism of the process The second chapter by Paul Fraisse is on the Emotions Fraisse examines the nature of the emotions both on the behavioural and on the neurophysiological levels and goes on to define and discuss moving situations He shows the different types of expression an emotional reaction may take and discusses the causes of hyper emotionality Richard Meili writes on the Structure of the Personality showing the importance of the idea of trait in the psychology of personality He describes the use of the factorial method in the analysis of personality and gives an account of the beginnings of personality as well as the different parts known as instances of the total organization of personality      **Torture and Impunity** Alfred W. McCoy,2012-08-24 Many Americans have condemned the enhanced

interrogation techniques used in the War on Terror as a transgression of human rights But the United States has done almost nothing to prosecute past abuses or prevent future violations Tracing this knotty contradiction from the 1950s to the present historian Alfred W McCoy probes the political and cultural dynamics that have made impunity for torture a bipartisan policy of the U S government During the Cold War McCoy argues the U S Central Intelligence Agency covertly funded psychological experiments designed to weaken a subject s resistance to interrogation After the 9 11 terrorist attacks the CIA revived these harsh methods while U S media was flooded with seductive images that normalized torture for many Americans Ten years later the U S had failed to punish the perpetrators or the powerful who commanded them and continued to exploit intelligence extracted under torture by surrogates from Somalia to Afghanistan Although Washington has publicly distanced itself from torture disturbing images from the prisons at Abu Ghraib and Guantanamo are seared into human memory doing lasting damage to America s moral authority as a world leader      *Encountering Affect* Ben Anderson,2017-03-02 Since the mid 1990s affect has become central to the social sciences and humanities Debates abound over how to conceptualise affect

and how to understand the interrelationships between affective life and a range of contemporary political transformations In *Encountering Affect* Ben Anderson explores why understanding affect matters and offers one account of affective life that hones in on the different ways in which affects are ordered Intervening in debates around non representational theories he argues that affective life is always already mediated the never finished product of apparatuses encounters and conditions Through a wide range of examples including dread debility dependency in torture ordinary hopes and precariousness Anderson shows the significance of affect for understanding life today

*A Question of Torture* Alfred McCoy, 2007-04-01 A startling exposé of the CIA's development and spread of psychological torture from the Cold War to Abu Ghraib and beyond In this revelatory account of the CIA's secret fifty year effort to develop new forms of torture historian Alfred W McCoy uncovers the deep disturbing roots of recent scandals at Abu Ghraib and Guantanamo Far from aberrations as the White House has claimed *A Question of Torture* shows that these abuses are the product of a long standing covert program of interrogation Developed at the cost of billions of dollars the CIA's method combined sensory deprivation and self inflicted pain to create a revolutionary psychological approach the first innovation in torture in centuries The simple techniques involving isolation hooding hours of standing extremes of hot and cold and manipulation of time constitute an all out assault on the victim's senses destroying the basis of personal identity McCoy follows the years of research which he reveals compromised universities and the U S Army and the method's dissemination from Vietnam through Iran to Central America He traces how after 9 11 torture became Washington's weapon of choice in both the CIA's global prisons and in torture friendly countries to which detainees are dispatched Finally McCoy argues that information extracted by coercion is worthless making a case for the legal approach favored by the FBI Scrupulously documented and grippingly told *A Question of Torture* is a devastating indictment of inhumane practices that have spread throughout the intelligence system damaging American's laws military and international standing

**Advances in Flow Research** Stefan Engeser, 2012-03-20 The concept of Flow was first explained by Csikszentmihalyi 1975 described as an optimal experience he noted that artists were entirely caught up in their projects working feverishly to finish them and then lose all interest in their work after completion The incentive lies in the act of creativity itself The person feels optimally challenged while totally immersed in the activity At the heart of flow research is the motivational aspect of this experience Flow motivates people to carry out certain activities repeatedly seeking a challenge in the act and looking to improve their skills and abilities In this book this motivational aspect will be imbedded in and related to other theories of intrinsic motivation and empirical work on flow and performance The book provides a review of the current flow research with a focus on rigorous analysis on methodology The author takes the time to present methodological aspects in flow research to qualify empirical work In addition this volume presents neuropsychological considerations and empirical correlates of flow experiences The work also

describes various theoretical integrations of the different paths being taken within the field of flow research It presents what has been learned since the beginning of flow research what is still open and how the mission to understand and foster flow experience research should continue **Analysis of the Incest Trauma** Susan A. Klett,Arnold W. Rachman,2018-03-22

Childhood sexual abuse within the family of origin and society's institutions such as the church education sports and the world of celebrity has been neglected as a significant issue by psychoanalysis and society The incest trauma needs to be understood as one of the most significant problems of contemporary society This book is an attempt to re establish incest trauma as a significant psychological disorder by tracing the evolutionary trajectory of psychoanalysis from the Seduction Theory to the Oedipal Theory to the Confusion of Tongues Theory By examining the theoretical emotional interpersonal and political issues involved in Freud's abandoning the Seduction Hypothesis and replacing it with the Oedipal Complex we can see how system building became more important than the emotional welfare of children In a series of chapters the authors demonstrate this neglect of the incest trauma Catalog of Copyright Entries. Civilizing Torture W. Fitzhugh Brundage,2020-03-10 Pulitzer Prize Finalist Silver Gavel Award Finalist A sobering history of how American communities and institutions have relied on torture in various forms since before the United States was founded Los Angeles Times That Americans as a people and a nation state are violent is indisputable That we are also torturers domestically and internationally is not so well established The myth that we are not torturers will persist but Civilizing Torture will remain a powerful antidote in confronting it Lawrence Wilkerson former Chief of Staff to Secretary of State Colin Powell Remarkable A searing analysis of America's past that helps make sense of its bewildering present David Garland author of Peculiar Institution Most Americans believe that a civilized state does not torture but that belief has repeatedly been challenged in moments of crisis at home and abroad From the Indian wars to Vietnam from police interrogation to the War on Terror US institutions have proven far more amenable to torture than the nation's commitment to liberty would suggest Civilizing Torture traces the history of debates about the efficacy of torture and reveals a recurring struggle to decide what limits to impose on the power of the state At a time of escalating rhetoric aimed at cleansing the nation of the undeserving and an erosion of limits on military power the debate over torture remains critical and unresolved

*Project Mind Control* John Lisle,2025-05-20 The inside story of the CIA's secret mind control project MKULTRA using never before seen testimony from the perpetrators themselves Sidney Gottlieb was the CIA's most cunning chemist As head of the infamous MKULTRA project he oversaw an assortment of dangerous even deadly experiments Among them dosing unwitting strangers with mind bending drugs torturing mental patients through sensory deprivation and steering the movements of animals via electrodes implanted into their brains His goal was to develop methods of mind control that could turn someone into a real life Manchurian candidate In conjunction with MKULTRA Gottlieb also plotted the assassination of

foreign leaders and created spy gear for undercover agents The details of his career however have long been shrouded in mystery Upon retiring from the CIA in 1973 he tossed his files into an incinerator As a result much of what happened under MKULTRA was thought to be lost until now Historian John Lisle has uncovered dozens of depositions containing new information about MKULTRA straight from the mouths of its perpetrators For the first time Gottlieb and his underlings divulge what they did why they did it how they got away with it and much more Additionally Lisle highlights the dramatic story of MKULTRA s victims from their terrible treatment to their dogged pursuit of justice The consequences of MKULTRA still reverberate throughout American society Project Mind Control is the definitive account of this most disturbing of chapters in CIA history
