based denomination encountered strenuous opposition when it first reached Europe in the second half of the 19th century. This was especially true in Austria where traditional allegiance to Roman Catholicism linked with a strong emphasis on cultural continuity constituted the tenor of social life. The book not only describes the history of Adventism in Austria but also examines its relationship to the Austrian political and religious milieu. The study may furnish valuable insights to stimulate further discussion of church state relationships and provides a basis for continuing investigation of the dynamics involved in encounters of minority religions with hostile socio cultural settings.

**Dynamic Truth** Rolf Pöhler, 2020-08-28 DYNAMIC TRUTH is a reprint of the author's groundbreaking dissertation on Change in Seventh day Adventist Theology Submitted in 1995 and initially published in 1999 Part I and 2000 Part II it is the first and only in depth study to date dealing with the issue of doctrinal development from an Adventist perspective. Part I analyzes the intricate problem of doctrinal development and presents a historical survey of theories of doctrinal change classifying them in three ideal types. In the author's view a dialectic approach concerned about substantial continuity as well as authentic change can best avoid the pitfalls of dogmatic immobilism and revisionism. Part II provides a detailed study of the problem of doctrinal change in a Seventh day Adventist setting. It analyzes the extent nature and direction of doctrinal developments in the light of the religious background of the church and the social forces at work in it. It also discusses the church's response to doctrinal adjustments and Ellen G White's involvement in and conception of doctrinal change. The study concludes that Adventist teachings have been significantly affected by theological and hermeneutical developments under the impact of social forces nudging the church closer towards evangelical Protestantism. Ellen White co founder of the church was personally involved in theological change. Her concept of doctrinal development shows a remarkable depth of insight and presents a well balanced approach to the dynamics of faith and truth.
