Servants Of Post Industrial Power:

The Human Motor Anson Rabinbach, 1992-01-08 Masterfully integrating Europe wide debates in science philosophy technology economics and social policy Rabinbach has provided us with a profoundly original understanding of the productivist obsessions from which we are still painfully freeing ourselves A splendid example of the mutual enrichment of intellectual and social history It goes well beyond its central concern with the science of work to illuminate everything it discusses from Marxism to the social uses of photography from cultural decadence to the impact of the First World War Martin Jay University of California Berkeley *Directory of European political scientists* European Consortium for Political Research, University of Essex. Compiled and ed. by the Central Services of the ECPR, 2016-11-07 No detailed description available for *Directory of European political scientists* **The Militant Worker** Scott Lash, 1984 This is a consummately polemical yet ultimately plausible endeavor to recast our theoretical empirical and historical understanding of social class The author demonstrates that neither technology nor skill nor wage level is the prime determinant of militancy Instead it is ideological and organizational forms **The Global Evolution of Industrial Relations** Bruce E. Kaufman, 2006 **The Eclipse of the Utopias of Labor** Anson Rabinbach, 2018-02-06 The Eclipse of the Utopias of Labor traces the shift from the eighteenth century concept of man as machine to the late twentieth century notion of digital organisms Step by step from Jacques de Vaucanson and his Digesting Duck through Karl Marx's Capital Hermann von Helmholtz's social thermodynamics Albert Speer's Beauty of Labor program in Nazi Germany and on to the post Fordist workplace Rabinbach shows how society the body and labor utopias dreamt up future societies and worked to bring them about This masterful follow up to The Human Motor Rabinbach's brilliant study of the European science of work bridges intellectual history labor history and the history of the body It shows the intellectual and policy reasons as to how a utopia of the body as motor won wide acceptance and moved beyond the man as machine model before tracing its steep decline after 1945 and along with it the eclipse of the great hopes that a more efficient workplace could provide the basis of a new more socially satisfactory society **Worlds of Work** Daniel B. Cornfield, Randy Hodson, 2012-12-06 The advent of transnational economic production and market integration compels sociologists of work to look beyond traditional national boundaries and build an international sociology of work in order to effectively address the human scientific and practical challenges posed by global economic transnationalism The purpose of this volume is to promote transnational dialogue about the sociology of work and help build a truly international discipline in this field *Industrial Relations* Michael Poole, 2013-10-11 This comparative study of industrial relations provides an analysis of a wide range of phenomena with a view to uncovering the origins of national diversity It takes into account the notion of strategic choice set within a series of constraints of environment organizational and institutional conditions and power relationships The book Covers a wide range of examples from the UK USA France Germany Italy Sweden Eastern Europe Latin America India and Japan Includes a comprehensive analysis of management and

employers associations labour and trades unions Examines the role of the state in comparative perspective **Durkheim's Ghosts** Charles Lemert, 2006-02-09 Durkheim's Ghosts is a fascinating presentation of the tradition of social theory influenced by Emile Durkheim's thinking on the social foundations of knowledge From Saussure and Levi Strauss to Foucault Bourdieu and Derrida today's criticisms of modern politics and culture owe an important if unacknowledged debt to Durkheim These engaging and innovative essays by leading sociologist Charles Lemert bring together his writings on the contributions of French social theory past and present Rather than merely interpret the theories Lemert uses them to explore the futures of sociology social theory and culture studies Durkheim's Ghosts offers the reader original insights into Durkheim's legacy and the wider French traditions for the cultural and social sciences Of special note is the book's new and exciting theory of culture and semiotics Provocative scholarly imaginative and ambitious this book will be invaluable to anyone interested in social theory culture and intellectual history of modern times New Forms of Work Organization in Europe Peter Grootings, Bjørn Gustavsen, Lajos Horthy, A remarkable development in the sociology of work in recent years has been the explosion of brilliant cross national and cross cultural studies in Europe examining the conditions of labor against the background of different economic systems and differences within each of the major free market mixed welfare and planned economic systems that dot the European landscape In Vienna and Budapest in particular a group of intellectual workers have gotten together for what can only be described as breakthrough studies in the conditions and purposes of work in post industrial society The question of new forms of work organization focuses on job satisfaction participatory democracy in the work place levels of productivity and issues of health and safety in the occupational environment That these elements are important have long been known But what this collection of studies emphasizes is the specific mix that produced specific outcomes It does not shy away from dangerous and tough questions worker control and control of workers political participation in contexts of authoritarian regimes and personal rewards in contexts that once frowned upon private acquisition of capital The volume is rich in empirical studies and draws the theoretical implications that can and already have had vast policy consequences for workers in the modern context Issues relating to job rotation enrichment enlargement and autonomy and others related to new forms of organization starting with the shop floor and extending throughout the management of the enterprise as a whole are dealt with candidly The social character of labor long frowned upon as a mechanism for evading bread and butter issues is now recognized East and West as a dimension of concern that is growing precisely as the size and character of the labor sector is diminishing This is must reading for those interested in new forms of social and policy synthesis and ways of meliorating competing claims of different sectors in modern societies

Crisis in the French Labour Movement W.Rand Smith,1987-06-18 **A Dictionary of Sociology** John Scott,2014 Coverage is extensive and includes terms from the related fields of psychology economics anthropology philosophy and political science Provided by publisher **Popular Culture in Modern France** Brian Rigby,2003-09-02 Culture is one of the most frequently used terms in the French vocabulary It sells not only books newspapers and magazines but also consumer products and political parties But what are the meanings of culture populaire What have the French understood by it and what is its history Brian Rigby s lively and cogent study traces changing notions of popular culture in France from 1936 the year of the Popular Front to the present day Asking why culture has become such a fiercely contested term Rigby considers the work of the major French theorists including Barthes Bourdieu and Baudrillard

The Imaginary Revolution Michael M. Seidman,2004-08 The events of 1968 have been seen as a decisive turning point in the Western world The author takes a critical look at May 1968 and questions whether the events were in fact as revolutionary as French and foreign commentators have indicated He concludes the student movement changed little that had not already been challenged and altered in the late fifties and early sixties The workers strikes led to fewer working hours and higher wages but these reforms reflected the secular demands of the French labor movement May 1968 was remarkable not because of the actual transformations it wrought but rather by virtue of the revolutionary power that much of the media and most scholars have attributed to it and which turned it into a symbol of a youthful renewed and freer society in France and beyond

The European Productivity Agency and Transatlantic Relations, 1953-1961 Bent Boel,2003 The European Productivity Agency EPA was initially designed as a means to Americanize Western Europe through the transfer of American techniques know how and ideas to the Old Continent It increasingly became a framework within which the member countries sought European solutions to their problems This study of the EPA sheds new light on the nature of European cooperation and transatlantic relations in the 1950s as well as on the changes these relations underwent during

the early postwar period *In Pursuit of the Quality of Life* Avner Offer, 1996 Is wealth the same as happiness How is the quality of life to be evaluated measured and most importantly achieved The authors provide provocative and engaging answers to these questions in this new multidisciplinary and pragmatic approach to an important area of social research Taking the individual as the point of departure the authors consider both objective circumstances and their subjective impact on people's lives Prominent authors from an array of different academic disciplines discuss the quality of life as viewed from their distinctive perspectives these include the psychology of subjective well being destitution and basic needs the environment women and the family illness and health employment and work and the role of the state Science and Technology in a Developing World T. Shinn, J. Spaapen, V.V. Krishna, 2013-04-17 block possible Soviet expansion by mobilizing European democracies the policy soon extended to some developing countries in Asia and Latin America In response the USSR gradually initiated development programs for newly independent nations in Asia and Africa In this context super power rivalry operated in the South to i expand spheres of influence and control ii guard Southern nations from the influence and incursions launched by the opposed camp iii stimulate indigenous development With few exceptions Southern nations provided little input to the definition and execution of North South dynamics during this period In the case of Africa and to some extent Asia the acquisition of independence was so recent and often sudden that there was little time to reflect on the kind of policies and measures needed to build balanced relations with the former mother country In Latin America the Monroe Doctrine had long insured that the region was a virtual captive of the US Aid for development was contingent on conformity to US political and economic interests The cognitive component of South North dealings strongly reflected the two above mentioned dispositions The relative lack of political experience in the South and the dearth of an organized and sizable intellectual academic community meant that there were few cognitive and human resources for undertaking careful study and analysis of the conditions and needs of development from a Southern perspective influential exceptions existed though such as Raul Prebisch in Latin America or Gandhi in India Work-Life Balance in the 21st Century D. Houston, 2005-04-04 As we begin the twenty first century UK employees work the longest hours in Europe Workplace stress and home responsibilities are among the top five causes of absence from work Yet work life balance has emerged as a key concern for employers policy makers and the media This edited volume contains findings from 14 research projects within the ESRC's Future of Work Programme The research examines the notion of employment flexibility and the effects of gender and care responsibilities on work and work performance Conflicting needs of employers and employees and the gender divisions in work and family life call into question the feasibility of achieving the Government's aim of work life balance for everyone **Bibliographie Internationale de Sociologie 1980**, 1982 Each Bibliography lists and annotates the most important works published during the year They are arranged by topic and indexed by author subject and geographic location **Capitalism, Technology, Labor** Greg Albo, Leo Panitch, Alan Zuege, 2020-08-04 The Socialist Register has been

at the forefront of intellectual enquiry and strategic debate on the left for five decades This expertly curated collection analyzes technological innovation against the backdrop of the recurrent crises and forms of class struggle distinctive to capitalism As we enter what some term the fourth industrial revolution and both mainstream commentators and the left grapple with the implications of rapid technological development this volume is a timely and crucial resource for those looking to build a political strategy attentive to sweeping changes in how we produce goods and live our lives
