Marriages And Families Making Choices Through Out The Life Cycle:

Marriages and Families Mary Ann Lamanna, Agnes Czerwinski Riedmann, 1981 **Treating the Changing Family** Michele Harway, 1996 Receiving special attention are the structure dynamics and unique problems of families that do not fit the traditional mold Experts in these areas share their findings and provide clinical guidelines for treating bi nuclear single parent gay and lesbian and other nontraditional families Alternative Health Maintenance and Healing Systems for Families Doris Y. Wilkinson, Marvin B. Sussman, 1987 This important book offers timely discussions of movements in modern medicine that have had great impact upon the family the hospice movement and the integration of the family into birthing care of the dying the chronically ill and the mentally ill This book emphasizes that alternative health practices often viewed as archaic by Western trained health care personnel do not have to be in conflict with modern medical practices but can instead enrich and expand them The authors discuss fascinating health practices which are changing the course of medicine

Military Families A. Sue Goodman, 1990 *Encyclopedia of Fundamentalism: Volume 3 of Religion & Society* Brenda Brasher, 2001-10-19 The Encyclopedia of Fundamentalism is the third volume of the acclaimed Religion Society series The Encyclopedia of Fundamentalism follows a broad definition of fundamentalism and covers fundamentalism across time and place although the emphasis remains on its primary manifestation Protestant fundamentalism in the United States It draws upon the work of historians sociologists religious scholars anthropologists political scientists and others *Human Nature and Biocultural Evolution* Joseph Lopreato, 2024-12-02 First published in 1984 Human Nature and Biocultural Evolution aims to delineate a theory of human nature viewed as an interrelated set of genetically programmed behavioral predispositions and a theory of biocultural evolution The author's approach is based on the hypothesis that innate predispositions and cultural environmental factors cooperate to determine human behavior and socio cultural forms Professor Lopreato begins by tracing the development of evolutionary biology up to sociobiology It is his argument that the social and biological disciplines have for over a century been moving towards a synthesis and that Homo sapiens is neither just another animal nor so unique a being that culture has become divorced from its genetic underpinnings The argument is supported with evidence from evolutionary biology and social science with a critical discussion of basic issues of behavioral science and with an analysis of certain famous theories in social science e g theories of suicide anomie capitalism which prove to be richer and more complete when viewed from a biocultural perspective The theory of human nature is arrived at through a rich analysis of ethnographic psychological and sociological arguments and data as well as facts and theories from comparative zoology In the process the author treats critically numerous theoretical problems associated with topics such as exploitation class consciousness structured inequality reciprocal behavior territorial aggression religious ritual socialization ethnicity and prejudice The author concludes with an examination of behavioral predispositions that are hypothesized to be at the base of cultural variation *Handbook of Marriage and the Family* Marvin B. Sussman, Suzanne K. Steinmetz, Gary W.

Peterson,2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p Our Social World
