The Science/Fiction of Sex Annie Potts, 2014-02-25
 What can we learn from exploring the differences in male and female orgasmic experience? Is the penis an entity with a mind of its own? These issues and others such as the popular portrayals of male sexuality as active and outwardly focused and female sexuality as passive and internally located are discussed in *The Science Fiction of Sex*. Contemporary feminist and poststructuralist theories of sex and gender are explored alongside an investigation of how people make sense of such concepts as heterosexuality, orgasm, sexual dysfunction, femininity and masculinity, and safer sex practice. Potts asks men and women about their actual experiences of heterosex. This interview material combined with excerpts from sexological and medical texts and features from film and television draws attention to the ways in which western cultural constructs influence our ideas and experiences of the body, sex and gender. Potts also uses deconstructive theory as a textual tool concentrating on how binary oppositions such as inside/outside and mind/body impact on our understandings of heterosex and affect the power relations between women and men. She also examines how the radical postmodern theories of the body and sexuality proposed by Irigaray, Lyotard and Deleuze and Guattari disrupt such dualistic modes of understanding and experiencing sexualized bodies. *The Science Fiction of Sex* will be of interest to those studying women and psychology as well as gender studies, cultural studies, feminist studies, sociology, philosophy, public health and education.

[Intimate Issues](#) Linda Dillow, Lorraine Pintus, 2009-01-13
Intimate Issues answers the twenty-one questions about sex most frequently asked by Christian wives as determined by a nationwide poll of over one thousand women. Written from the perspective of two mature Christian wives and Bible teachers, women who you'll come to know as teachers and friends, *Intimate Issues* is biblical and informative, sometimes humorous, other times practical but always honest. Through its solid teaching, warm testimonials, scriptural insights and experts' advice, you'll find resolution for your questions and fears, surprising insights about God's perspective on sex, and a variety of practical and creative ideas for enhancing your physical relationship with the husband you love. With warmth and wisdom, authors Linda Dillow and Lorraine Pintus speak woman to woman, examining the teachings of Scripture, exposing the lies of the world, and offering real hope that every woman's marriage relationship can become all it was intended to be in God's design.

Sham Steve Salerno, 2006-09-26
 Self-help. To millions of Americans it seems like a godsend. To many others it seems like a joke. But as investigative reporter Steve Salerno reveals in this groundbreaking book, it's neither in fact it's much worse than a joke. Going deep inside the Self-Help and Actualization Movement, fittingly the words form the acronym SHAM, Salerno offers the first serious exposé of this multibillion-dollar industry and the real damage it is doing, not just to its paying customers but to all of American society. Based on the author's extensive reporting and the inside look at the industry he got while working at a leading lifestyle publisher, SHAM shows how thinly credentialed experts now dispense advice on everything from mental health to relationships to diet to personal finance.

to business strategy Americans spend upward of 8 billion every year on self help programs and products And those staggering financial costs are actually the least of our worries SHAM demonstrates how the self help movement s core philosophies have infected virtually every aspect of American life the home the workplace the schools and more And Salerno exposes the downside of being uplifted showing how the empowering message that dominates self help today proves just as damaging as the blame shifting rhetoric of self help s Recovery movement SHAM also reveals How self help gurus conduct extensive market research to reach the same customers over and over without ever helping them The inside story on the most notorious gurus from Dr Phil to Dr Laura from Tony Robbins to John Gray How your company might be wasting money on motivational speakers executive coaches and other quick fixes that often hurt quality productivity and morale How the Recovery movement has eradicated notions of personal responsibility by labeling just about anything from drug abuse to sex addiction to shoplifting a dysfunction or disease How Americans blindly accept that twelve step programs offer the only hope of treating addiction when in fact these programs can do more harm than good How the self help movement inspired the disastrous emphasis on self esteem in our schools How self help rhetoric has pushed people away from proven medical treatments by persuading them that they can cure themselves through sheer application of will As Salerno shows to describe self help as a waste of time and money vastly understates its collateral damage And with SHAM the self help industry has finally been called to account for the damage it has done Also available as an eBook
