Simmonite's Complete arcana of astral philosophy; or The celestial philosopher. To which is added The ruling of the microcosm (by J. Story). William Joseph Simmonite,1890 **Longevity: a Vedic Approach** Raj Kumar, The correct judgement of longevity is highly complex but is equally important and sought after Knowing longevity is difficult even for gods said sage Parashar Any prediction made without considering it may make the prediction a laughing stock of both the astrologer and astrology The time span between birth and death of a native is called his longevity Longevity and death are not the same but are closely related However it is not yet clear what death is Our scriptures have at various places equated death with different types of Mrityu Tulya agonies which are different from physical death Again the destiny of each one of us is interlinked with our close kith and kin and our relationship with them is pre determined predestined and irrevocable Death is severing of final link of a native with them Hence a native's death must get corroborated confirmed in the horoscopes of his close relations An attempt is made in this book to address all such issues The book is a study of about 225 natives who had lived and died in different countries at different time at different age and of different causes applying known tools of astrology The book is an attempt to help clear some mist and enable to have a better judgement of longevity
