Marshall McLuhan Philip Marchand, 1998 A new look at the man who gave us ideas the medium is the message and global village Marshall McLuhan Philip Marchand, 1989-02-01 Some considered Marshall McLuhan the oracle of the electric age others dismissed him as a charlatan But many of his predictions came true with eerie accuracy It is impossible to ignore such McLuhan phrases as the global village the medium of the message as we surf the Net or pop a cassette into the VCR McLuhan's genius was in foreseeing such cultural upheavals it is uncanny the impact his studies have had on the way we view the world This fully revised updated edition of the award winning biographical classic traces the evolution of McLuhan's theories is the key to understanding this enigmatic media guru This is the first true narrative of McLuhan's life B W photos A brilliant eloquent discussion **Marshall McLuhan [sound Recording] : the Medium and the Messenger** Philip Marchand, Samples, Mac, 1992 **Marshall McLuhan and Northrop Frye** B.W. Powe, 2014-01-01 Marshall McLuhan and Northrop Frye are two of Canada's central cultural figures colleagues and rivals whose careers unfolded in curious harmony even as their intellectual engagement was antagonistic Poet novelist essayist and philosopher B W Powe who studied with both of these formidable and influential intellectuals presents an exploration of their lives and work in Marshall McLuhan and Northrop Frye Apocalypse and Alchemy Powe considers the existence of a unique visionary tradition of Canadian humanism and argues that McLuhan and Frye represent fraught but complementary approaches to the study of literature and to the broader engagement with culture Examining their eloquent but often acid responses to each other Powe exposes the scholarly controversies and personal conflicts that erupted between them and notably the great commonalities in their writing and biographies Using interviews letters notebooks and their published texts Powe offers a new alchemy of their thought in which he combines the philosophical hallmarks of McLuhan's The medium is the message and Frye's the great code The Medium is the Message Marshall McLuhan, Quentin Fiore, 2001 First published in 1967 this text is now more relevant than ever as McLuhan's foresights about the impact of new media is actualized at unprecedented speeds via the Internet It portrays technologies as an extension of man illustrating how our senses are massaged and our perceptions altered as these devices become integral parts of our lives **Marshall McLuhan: The medium is the message** Marshall McLuhan, 2005 **Marshall McLuhan: Theoretical elaborations** Gary Genosko, 2005 This collection contains key critical essays and assessments of the writings of Canadian communications thinker Marshall McLuhan selected from the voluminous output of the past forty years McLuhan's famous aphorisms and uncanny ability to sense megatrends are once again in circulation across and beyond the disciplines Since his untimely death in 1980 McLuhan's ideas have been rediscovered and redeployed with urgency in the age of information and cybernation Together the three volumes organise and present some forty years of indispensable critical works for readers and researchers of the McLuhan legacy The set includes critical introductions to each section by the editor Forthcoming titles in this series include Walter Benjamin 0 415 32533 1 December 2004 3 vols

Richard Cavell,2002-01-01 Demonstrates how McLuhan extended insights derived from advances in physics and artistic experimentation into a theory of acoustic space which he then used to challenge the assumptions of visual space that had been produced through print culture *Media, Structures, and Power* Edward A. Comor,2011-10-30 Media Structures and Power is a collection of the scholarly writing of Canada's leading communication and media studies scholar Robert E Babe. Spanning almost four decades of scholarship the volume reflects the breadth of Babe's work from media and economics to communications history and political economy. Babe famously characterized Canadian scholars' distinctive contribution to knowledge as uniquely historical, holistic and dialectical. The essays in Media Structures and Power reflect this particular strength. With a clarity of vision Babe critiques mainstream economics, Canadian government policy and postmodernist thought in social science. Containing introductions and contributions by other prominent scholars this volume situates Babe's work within contemporary scholarship and underscores the extent to which he is one of Canada's most prescient thinkers. His interdisciplinary analyses will remain timely and influential well into the twenty first century Digital McLuhan Paul Levinson,2003-09-02 Marshall McLuhan died on the last day of 1980 on the doorstep of the personal computer revolution. Yet McLuhan's ideas anticipated a world of media in motion and its impact on our lives on the dawn of the new millennium. Paul Levinson examines why McLuhan's theories about media are more important to us today than when they were first written and why the Wired generation is now turning to McLuhan's work to understand the global village in the digital age.
