Marsilius Of Inghen Divine Knowledge In Late Medieval Thought:

Marsilius of Inghen: Divine Knowledge in Late Medieval Thought Maarten Hoenen, 2021-11-22 The problem of divine knowledge focusing on questions of freedom and necessity finds itself at the intersection of age old discussions of logic metaphysics and ethics The subject was discussed with particular clarity in the period 1250 1400 Many different solutions were put forward and criticized with an acuity and depth that was never reached again One contributor to the discussion Marsilius of Inghen d 1396 is of special importance He assimilated not only the nominalism and theological developments of the 14th century but also the ideas of Thomas Aquinas and Bonaventure resulting in the so called via marsiliana This study determines with great precision Marsilius s position in the debates in the period 1250 1400 often throwing new light on aspects of his philosophy and theology The wide scope of his work makes it suitable as a general introduction to medieval thought Specialists will find it useful for its detailed and in depth analysis of both maiores and minores By its clear style and structure this study will prove useful in contemporary systematic discussions of the subject as well Immovable Truth: Divine Knowledge and the Bible at the University of Vienna (1384-1419) Edit Anna Lukács, 2023-10-30 In the 14th century hypotheses about a lying God deceived Christ and the changeability of the past circulated At the new University of Vienna three German masters attempted in their lectures on the Old Testament to counter them Their commentaries are the longest the most influential and perhaps even the most inspiring commentaries on the Bible written at Vienna This book offers a glimpse into their most unusual ideas apocalyptic expectations heretics toads and devils assessments of Amalric of Bena Moshe Taku and Petrarch and last but not least the search for an immovable truth that fills their pages Peter Aureol on Predestination: A Challenge to Late Medieval Thought James L. Halverson, 2021-12-06 By 1300 theologians had established a consensus position concerning predestination stating that God predestines without regard to human causes but reprobates with regard to sin In the fourteenth Century this consensus was shattered first by those arguing that God also predestines on account of human causes and then by those who asserted that God does neither with regard for human causes The first part of the book examines the theology of Peter Aureol who first broke with the consensus position on predestination The second part traces the impact of his theology on late Medieval thought Previously overlooked Peter Aureol s unique doctrine of predestination and the impact it had on late Medieval and Reformation thought is a crucial chapter in the history of Western theology The Reformation of Faith in the Context of Late Medieval Theology and Piety Berndt Hamm, 2004 This book is the first major collection of articles by Berndt Hamm in English translation The articles employ previously neglected sermons devotional and pastoral treatises to reassess the question of continuity and change between late medieval and Reformation theology and piety *Mediaeval Commentaries on the Sentences of Peter Lombard* Evans, 2002-01-01 This volume deals with the development of a major phenomenon of the medieval academic world the adoption after initial uncertainties of the Sentences of the twelfth century Peter Lombard as the standard textbook of medieval theology and the growth of a huge

literature of commentary upon it from the thirteenth century The first of two projected volumes is a survey of this literature and a series of studies of authors and their commentaries in the principal centres of Paris and Oxford and elsewhere by modern scholars at the leading edge of current research This should prove an indispensable resource for the future bringing together as it does the status quaestionis on this literature

Between Faith and Unbelief Elisabeth Hurth, 2007 This book sets out to shed light on what is specific to American Transcendentalism by comparing it with the atheistic vision of German philosophers and theologians like Ludwig Feuerbach and Arthur Schopenhauer The study argues that atheism was part of the discursive and religious context from which Transcendentalism emerged Tendencies toward atheism were already inherent in Transcendentalist thought The atheist scenario came to the surface in the controversy about Emerson's new views Contemporary critics charged that the deity Emerson worshipped was himself Emersonian Transcendentalism thus anticipated some of the central concerns in the works of German atheists like Feuerbach From idealism to atheism seemed but a short step

Renaissance Inquisitors Michael M. Tavuzzi, 2007 Based on extensive archival research this study casts new light on the Inquisition in northern Italy during the Renaissance It focuses on some representative inquisitors and their principal pursuits the prosecution of heretics Waldensians and Judaizers and witch hunting

Rome in Australia: The Papacy and Conflict in the Australian Catholic Missions, 1834-1884 (set 2 volumes) Christopher Dowd, 2008-07-30 The founding of the Catholic missions in Australia coincided with the defining drift of power and prestige within the nineteenth century Church This was a period of chronic dissension among Australia's Catholic communities powerfully drawn by the ultramontane impulse and political manoeuvring to refer their problems to the Pope Roman bureaucratic control exercised through the Sacred Congregation de Propaganda Fide was the single most important factor in the resolution of these problems and consequently in the determinative shaping of the colonial Australian Church Based on extensive archival research this study explores issues of process politics and personality in the formulation of papal policy towards a part of the world that could not be more distant from Rome

Narrative of the Anabaptist Madness: The Overthrow of Münster, the Famous Metropolis of Westphalia (set 2 volumes) Hermann von Kerssenbrock, 2007-07-30 This is the only accurate translation of the main contemporary historical source for the Anabaptist kingdom of Münster 1534-35 Written by Hermann von Kerssenbrock a young Catholic eyewitness who later became a schoolmaster the monumental Latin original was never printed during the author's life and circulated only in manuscript format until the editio princeps of 1899-1900 the only previous translation was an unreliable German version written in 1771 This work contains a number of documents not otherwise available and the author's conceptions have had a profound influence on later interpretations of the lurid events surrounding one of the most unusual occurrences of the German Reformation The extensive introduction and notes place the text in its historical context

Augustine and Time John Doody, Sean Hannan, Kim Paffenroth, 2021-05-25 This collection examines the topic of time in the life and works of Augustine of Hippo Adopting a global perspective on time

as a philosophical and theological problem the volume includes reflections on the meaning of history the mortality of human bodies and the relationship between temporal experience and linguistic expression As Augustine himself once observed time is both familiar and surprisingly strange Everyone s days are structured by temporal rhythms and routines from watching the clock to whiling away the hours at work Few of us however take the time to sit down and figure out whether time is real or not or how it is we are able to hold our past present and future thoughts together in a straight line so that we can recite a prayer or sing a song Divided into five sections the essays collected here highlight the ongoing relevance of Augustine s work even in settings quite distinct from his own era and context The first three sections organized around the themes of interpretation language and gendered embodiment engage directly with Augustine s own writings from the Confessions to the City of God and beyond The final two sections meanwhile explore the afterlife of the Augustinian approach in conversation with medieval Islamic and Christian thinkers like Avicenna and Aquinas as well as a broad range of Buddhist figures like Dharmakirti and Vasubandhu What binds all of these diverse chapters together is the underlying sense that regardless of the century or the tradition in which we find ourselves there is something about the puzzle of temporality that refuses to go away Time as Augustine knew demands our attention This was true for him in late ancient North Africa It was also true for Buddhist thinkers in South and East Asia And it remains just as true for humankind in the twenty first century as people around the globe continue to grapple with the reality of time and the challenges of living in a world that always seems to be speeding up rather than slowing down
