the biographer sees it not to the sentiments of others This memoir of a professional biographer's life tells the inside story of how he became interested in his subjects and reveals the mechanics of the trade how to assemble proposals for publishers conduct interviews and archival research and joust with editors subjects and their literary estates Other biographers have described their process but remained discrete not wishing to offend their sources and supporters This author has forgone such caution

American Biography Carl Rollyson, 2006-02-22 This collection of reviews selected from Rollyson's New York Sun column is as much about the romance of biography as it is about the American lives Certain concerns resonate throughout the book the American left's failure to reckon with Communist subversion McCarthyism and Stalinism the problematic nature of authorized biography the history of American biography definitive biographies literary biography the differences between autobiography and biography the importance of interviews in biographies of contemporary figures the differences between history and biography comparative biographies the virtues of short biographies and of biographies for children the tendency of biographers to fictionalize and of novelists to biographize psychology and biography Rollyson's own experience as a biographer and the way biographers treat one another's work Too many biographers he believes evince no interest in the biographical tradition Concerned only with possession of their subjects their proprietorial attitude deforms not only their biographies but also the genre itself If biography is reviewed badly receiving hardly more than a summary of the subject's life with a perfunctory nod to the biographer it is because the biographical tradition has been disregarded or discounted This book in other words has been written on the behalf of biography a genre that still awaits a full vindication

The Biographical Turn Hans Renders, Binne de Haan, Jonne Harmsma, 2016-09-13 The Biographical Turn showcases the latest research through which the field of biography is being explored Fifteen leading scholars in the field present the biographical perspective as a scholarly research methodology investigating the consequences of this bottom up approach and illuminating its value for different disciplines While biography has been on the rise in academia since the 1980s this volume highlights the theoretical implications of the biographical turn that is changing the humanities Chapters cover subjects such as gender religion race new media and microhistory presenting biography as as a research methodology suited not only for historians but also for explorations in areas including literature studies sociology economics and politics By emphasizing agency the use of primary sources and the critical analysis of context and historiography this book demonstrates how biography can function as a scholarly methodology for a wide range of topics and fields of research International in scope The Biographical Turn emphasizes that the individual can have a lasting impact on the past and that lives that are now forgotten can be as important for the historical narrative as the biographies of kings and presidents It is a valuable resource for all students of biography history and historical theory

Telling Lies in Modern American Autobiography Timothy Dow Adams, 2017-10-10 All autobiographers are unreliable narrators Yet what a writer chooses to misrepresent is as telling perhaps even more so as what really happened Timothy Adams believes that autobiography is an attempt to reconcile one's

life with one's self and he argues in this book that autobiography should not be taken as historically accurate but as metaphorically authentic Adams focuses on five modern American writers whose autobiographies are particularly complex because of apparent lies that permeate them In examining their stories Adams shows that lying in autobiography especially literary autobiography is not simply inevitable Rather it is often a deliberate highly strategic decision on the author's part Throughout his analysis Adams's standard is not literal accuracy but personal authenticity He attempts to resolve some of the paradoxes of recent autobiographical theory by looking at the classic question of design and truth in autobiography from the underside with a focus on lying rather than truth Originally published in 1990 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

Notable American Women with Czechoslovak Roots Miloslav Rechcigl Jr., 2019-09-16 Even though there exist only a few general studies on the subject of Czechoslovak American women this is not at all a reflection of the paucity of work done by these women as this publication demonstrates This monograph is a compendium of notable American women with Czechoslovak roots who distinguished themselves in a particular field or area from the time they first immigrated to America to date Included are not only individuals born on the territory of former Czechoslovakia but also their descendants This project has been approached strictly geographically irrespective of the language or ethnicity Because of the lack of bibliographical information most of the monograph comprises biobibliographical information in which area a plethora of information exists As the reader will discover these women have been involved practically in every field of human endeavor in numbers that surprise On the whole they have been noted for their independent spirit and nonconforming role

the status and writing of literary biography from numerous perspectives and with regard to various sources methodologies and theories Reviews the ways in which literary biography has played a role in our perception of writers in the mainstream of the English canon from Chaucer to the present day Written for students at the undergraduate level through postgraduate and doctoral levels as well as academics A Companion to Literary Biography illustrates and accounts for the importance of the literary biography as a vital element of criticism and as an index to our perception of literary history

Female Icons Carl Rollyson, 2005 This volume represents more than twenty five years of writing about female icons and biography Rollyson provides the bits and pieces that resulted not only in his biography of Marilyn Monroe but also in much of the work he has subsequently done on Lillian Hellman Martha Gellhorn Rebecca West Susan Sontag and on the nature of biography itself This book includes a selection of Rollyson s New York Sun book reviews dealing with female icons such as Mary Stuart Mary Wollstonecraft The Bront s Marie Curie Harriet Tubman Zelda Fitzgerald and Sylvia Plath Rollyson s writing about icons has provoked him to question the process by which selves are defined Discovering the shaping mechanisms of the self is simultaneously a way of understanding how biographies are built In the end this book should be of interest not merely to devotees of Monroe Sontag and other icons but also to anyone curious about the nature of biography and the biographer

Between the Sheets Lesley McDowell, 2012-02-28 The literary critic examines the love lives and career ambitions of some of the twentieth century s greatest female authors from Sylvia Plath to Ana s Nin Why did a gifted writer like Sylvia Plath stumble into a marriage that drove her to suicide Why did Hilda Doolittle H D want to marry Ezra Pound when she was far more attracted to women Why did Simone de Beauvoir pimp for Jean Paul

Sartre In Between the Sheets author and feminist scholar Lesley McDowell examines nine famously troubled literary romances to arrive at a provocative insight into the motivations of these and other great female writers The list of the damages done in each of these sexual relationships is long but each provokes the same question would these women have become the writers they became without these relationships Delving into their diaries letters and journals McDowell examines the extent to which each woman was prepared to put artistic ambition before personal happiness and how dependent on their male writing partners they felt themselves to be McDowell has culled incredibly juicy details With so many affairs and broken hearts the most surprising thing may be that anything got written in the last 100 years The New York Times Book Review

Lives of the Novelists Carl Rollyson, 2005-10-21 Is there a right way to write a literary life In this collection of columns from the New York Sun Carl Rollyson explores the relationship between narrative and literary analysis Should biographies be written in the style and form of novels How to balance the life and the work How much literary criticism can a biography absorb into its narrative Rollyson proposes a number of apologies for biography including the thought that in the right hands the literary biography is a continuation of the writer's work and life In such instances there seems to be a symbiosis between biographer and subject In other cases biographies spearhead the rediscovery of important writers He rejects the idea that literary figures are not good subjects for biography because they are not men and women of action That literary biography is a kind of strip mining a pathography laying bare the subject's life to no good purpose is another canard this book demolishes The pieces here also expose the genre's weak points a proclivity for overstatement and excessive length the failure of biographers to build upon their predecessors work Rollyson invents a term biographology in order to discuss the biographical tradition

Flâneuse Lauren Elkin, 2017-02-28 FINALIST FOR THE PEN DIAMONSTEIN SPIELVOGEL AWARD FOR THE ART OF THE ESSAY A New York Times Notable Book of 2017 The flâneur is the quintessentially masculine figure of privilege and leisure who strides the capitals of the world with abandon But it is the flâneuse who captures the imagination of the cultural critic Lauren Elkin In her wonderfully gender bending new book the flâneuse is a determined resourceful individual keenly attuned to the creative potential of the city and the liberating possibilities of a good walk Virginia Woolf called it street haunting Holly Golightly epitomized it in Breakfast at Tiffany's and Patti Smith did it in her own inimitable style in 1970s New York Part cultural meander part memoir Flâneuse takes us on a distinctly cosmopolitan jaunt that begins in New York where Elkin grew up and transports us to Paris via Venice Tokyo and London all cities in which she's lived We are shown the paths beaten by such flâneuses as the cross dressing nineteenth century novelist George Sand the Parisian artist Sophie Calle the wartime correspondent Martha Gellhorn and the writer

Jean Rhys With tenacity and insight Elkin creates a mosaic of what urban settings have meant to women charting through literature art history and film the sometimes exhilarating sometimes fraught relationship that women have with the metropolis Called deliciously spiky and seditious by The Guardian Fl neuse will inspire you to light out for the great cities yourself
