**Donovan Miyasaki**

## **Marx Nietzsche And Modernity:**

**Marx, Nietzsche, and Modernity** Nancy Sue Love, 1986 An excellent window on Marx's and Nietzsche's overall theories and on the foibles of modern society Her analysis of their views on the nature of man and their consequent theories of history is competent and probes deeply into the teachings of Marx and Nietzsche

**The Longing for Total Revolution Reconsidered** Jeffrey Friedman, 2022-11-10 In *The Longing for Total Revolution* Philosophic Sources of Discontent from Rousseau to Marx and Nietzsche 1986 the eminent intellectual historian and political theorist Bernard Yack offered a sweeping reinterpretation of modern thought Yack argued that Rousseau prompted a line of philosophy that continued through Kant Hegel Marx and Nietzsche which viewed the essential spirit of modernity as dehumanizing and therefore implied in a matter that became increasingly clear over time that a total revolution against modernity is necessary In this volume seven political theorists and historians including Yack himself reconsider the book's substantive and methodological innovations its limitations and its current relevance Contributors to the volume discuss inter alia left Kantianism in historical context the theological origins of the longing for total revolution the question of whether the tradition identified by Yack is connected to twentieth century totalitarianism and the unique form of critical genealogy pioneered by Yack's book The volume concludes with Yack's response to the other contributors chapters This book was originally published as a special issue of the *Critical Review*

**The Emergence of Post-modernity at the Intersection of Liberalism, Capitalism, and Secularism** Matthew McManus, 2022-09-07 This book is a systematic and thorough analysis of what post modernity is and how it emerged It distinguishes between those who regard post modernity as a theoretical approach and those who regard it as a culture and argues that interpreting post modernity as a culture is more fruitful It discusses the three factors which led to its emergence namely liberalism capitalism and secularism highlighting their respective influence in generating the culture of post modernity within neoliberal societies The volume provides a lengthy analysis of neoliberal post modernity in practice arguing that post modernism is the cultural condition of neoliberal societies in the late 20th and early 21st centuries Until recently it seemed that neoliberal post modernity was here to stay framed by relationship to freedom and time which stressed individual agency but precluded the possibility of historical change at the political level However the Great Recession of 2008 opened new spaces for agitation and transformation which has resulted in the discordant politics of the last decade This book will be of interest to scholars working in a number of fields including economic policy cultural analysis political theory and social critique

**Henri Lefebvre, Metaphilosophy, and Modernity** Patrick Gamsby, 2025-08-22 *Henri Lefebvre Metaphilosophy and Modernity* provides a new interpretation of the work of Henri Lefebvre 1901 1991 reframing it as being above all a metaphilosophy of modernity Henri Lefebvre is increasingly being recognized as one of the great twentieth century thinkers Nevertheless the majority of scholarship on Lefebvre predominantly focuses on his theorizing of space often taking Lefebvre's *The Production of Space* as the point of departure and or on his theorizing of

everyday life with his multi volume Critique of Everyday Life as the focal point This book argues that it is Lefebvre s concept of metaphilosophy that provides the connective tissues for these works one that is chiefly concerned with deciphering the enigma of modernity The book will appeal to a wide interdisciplinary and international audience from the fields of sociology philosophy cultural studies geography the history of ideas and literary studies This includes scholars and students interested in Henri Lefebvre s writings everyday life modernity space time leisure work continental thought critical theory Marxism and technology     **Handbook of Social Theory** George Ritzer,Barry Smart,2003-07-26 The Handbook of Social Theory presents an authoritative and panoramic critical survey of the development achievement and prospects of social theory

*Nietzsche's Immoralism* Donovan Miyasaki,2022-10-19 Nietzsche s Immoralism begins a two volume critical reconstruction of a socialist democratic and non liberal Nietzschean politics Nietzsche s ideal of amor fati love of fate cannot be individually adopted because it is incompatible with deep freedom of agency However we can create its social conditions thanks to an underappreciated aspect of his will to power psychology We are driven not toward domination and conquest but toward resistance contest and play a heightened feeling of power provoked by equal challenges that enables the non instrumental affirmation of suffering This incompatibilist anti teleological psychology leads to Nietzsche s distinctive immoralism the abandonment of cultural means of human improvement for a historical materialist politics of breeding that produces future higher types through changes to our political order s material conditions Politics becomes first philosophy it is not grounded in moral values but is instead the very source of their legitimacy Moreover despite Nietzsche s professed aristocratism his immoralism offers a stronger foundation for a renewed left attacking conservative politics at its very root the belief in moral order authority and responsibility     **Antiquity and Modernity** Neville Morley,2009-01-30 The nature faults and future of modern civilization and how these connect to the past are tackled in this broad reaching volume Presents a study of modernity that examines classical influences Incorporates political economic social and psychological theories Highlights writings from a wide range of thinkers including Adam Smith Marx Mill Nietzsche Weber and Freud     **The Modern Self in the Labyrinth** Eyal Chowers,2009-07-01 This book proposes a new political imagination found in the works of Weber Freud and Foucault Chowers characterizes it as one of entrapment whereby modern identity is constituted by participation in and internalization of the regulatory norms of the institutions that originated in the modern imagination

*Nietzsche's Machiavellian Politics* D. Dombowsky,2004-02-27 In this exciting new study Don Dombowsky proposes that the foundation of Nietzsche s political thought is the aristocratic liberal critique of democratic society But he claims that Nietzsche radicalizes this critique through a Machiavellian conversion based on a reading of The Prince adapting Machiavellian virt the shaping capacity of the legislator and immoralism the techniques applied in political rule and that consequently Nietzsche is better understood in relation to the political ideology of the neo Machiavellian elite theorists of his own generation     **Nietzsche and Critical Social Theory** ,2019-12-09 Nietzsche and Critical Social Theory Affirmation

Animosity and Ambiguity brings together scholars from a variety of disciplinary background to assess the salience of Nietzsche for critical social theory today In the context of global economic crises and the rise of authoritarian regimes across the U S and Europe the question asked by these scholars is why Nietzsche now Containing several innovative interventions in the areas of queer theory political economy critical race theory labour history hip hop aesthetics sociology the Frankfurt School social movements studies science and technology studies pedagogy and ludic studies this volume pushes Nietzsche studies in new directions seeking to broaden the appeal of Nietzsche beyond philosophy and political theory
