Engels After Marx Manfred B. Steger, Terrell Carver, 2010-11-01 *A Short History of Modern Philosophy* Roger Scruton, 2002-09-11 A Short History of Modern Philosophy is a lucid challenging and up to date survey of the philosophers and philosophies from the founding father of modern philosophy Ren Descartes to the most important and famous philosopher of the twentieth century Ludwig Wittgenstein Roger Scruton has been widely praised for his success in making the history of modern philosophy cogent and intelligible to anyone wishing to understand this fascinating subject In this new edition he has responded to the explosion of interest in the history of philosophy by substantially rewriting the book taking account of recent debates and scholarship *The Hegel-Marx Connection* T. Burns, I. Fraser, 2000-07-19 A major and timely re examination of key areas in the social and political thought of Hegel and Marx The editors extensive introduction surveys the development of the connection from the Young Hegelians through the main Marxist thinkers to contemporary debates Leading scholars including Terrell Carver Chris Arthur and Gary Browning debate themes such as the nature of the connection itself scientific method political economy the Hegelian basis to Marx s Doctoral Dissertation human needs history and international relations **Marxist-Leninist 'Scientific Atheism' and the Study of Religion and Atheism in the USSR** James Thrower, 2011-04-20 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline *Karl Marx and the Philosophy of Praxis* Gavin Kitching, 2015-04-17 In this major study first published in 1988 Professor Kitching builds on recent scholarship on Marx and Wittgenstein to provide an incisive readable account and critique of the whole of Marx s work He presents the philosophical economic and political Marx as one thinker and argues that the key to understanding Marx is his commitment to a philosophy of praxis This sees thought as just part of that purposive activity or praxis which distinguishes human beings from other creatures This is the first book to analyse all of Marx s thought from a Wittgenstein perspective in doing so it clarifies and deepens our understanding of Marx **Nonsense upon Stilts (Routledge Revivals)** Jeremy Waldron, 2014-10-03 In Nonsense upon Stilts first published in 1987 Waldron includes and discusses extracts from three classic critiques of the idea of natural rights embodied in the 1789 Declaration of the Rights of Man and the Citizen Each text is prefaced by an historical introduction and an analysis of its main themes The collection as a whole is introduced with an essay tracing the philosophical background to the three critiques as well as the eighteenth century idea of natural rights which they attacked But the point of reproducing these works is not merely historical Modern attacks on rights based political philosophy mirror the concerns of Bentham Burke and Marx Jeremy Waldron has therefore added an extensive

concluding essay which relates these classic texts to the modern discussion of rights and re examines the idea of rights in the light of contemporary critiques This text provides an invaluable teaching tool for courses in politics and philosophy
