Marxism And Resistance In Burma 1942 1945:

Marxism and Resistance in Burma, 1942-1945 Robert H. Taylor, 1984 **The Special Operations Executive (SOE) in Burma** Richard Duckett, 2017-10-30 In the mountains and jungles of occupied Burma during World War II British special forces launched a series of secret operations assisted by parts of the Burmese population. The men of the SOE trained in sabotage and guerrilla warfare worked in the jungle deep behind enemy lines to frustrate the puppet Burmese government of Ba Maw and continue the fight against Hirohito's Japan in a theatre starved of resources. Here Richard Duckett uses newly declassified documents from the National Archives to reveal for the first time the extent of British special forces involvement from the 1941 operations until beyond Burma's independence from the British Empire in 1948. Duckett argues convincingly that Operation Character and Operation Billet, large SOE missions launched in support of General Slim's XIV Army offensive to liberate Burma, rank among the most militarily significant of the SOE's secret missions. Featuring a wealth of photographs and accompanying material never before published, including direct testimony recorded by veterans of the campaign and maps from the SOE files, *The SOE in Burma* tells a compelling story of courage and struggle in during World War II.

The Collapse of British Rule in Burma Michael D. Leigh, 2018-07-26 In May 1942 colonial Burma was in a state of military, economic and constitutional collapse. Japanese forces controlled almost the whole country and thousands of evacuees were trapped in a huge area of no man's land in the north. They made their way to India through the so-called jungles of death, attempting to trek out of Burma amidst perilous conditions. Drawing on diverse and previously unpublished accounts, Michael D. Leigh analyses the experiences of evacuees in both Burma and India and critically examines the impact of evacuation on colonial and Burmese politics in the lead up to independence in 1948. This study will be of particular interest to students and scholars of Burmese history, 20th-century imperialism and the global reach of the Second World War.

Burma In Revolt Bertil Lintner, 2019-04-24 This book explains how Burma's booming drug production, insurgency and counter-insurgency interrelate and why the country has been unable to shake off thirty years of military rule and build a modern democratic society.

Experiments with Marxism-Leninism in Cold War Southeast Asia Matthew Galway, Marc H. Oppen, 2022-09-21 One of the most contentious theatres of the global conflict between capitalism and communism was Southeast Asia. From the 1920s until the end of the Cold War, the region was racked by international and internal wars that claimed the lives of millions and fundamentally altered societies in the region for generations. Most of the 11 countries that compose Southeast Asia were host to the development of sizable communist parties that actively and sometimes violently contested for political power. These parties were the object of fierce repression by European colonial powers, post-independence governments and the United States. Southeast Asian communist parties were also the object of a great deal of analysis both during and after these conflicts. This book brings together a host of expert scholars, many of whom are either Southeast Asia based or from the countries under analysis, to present the most expansive and comprehensive study to date on ideological and practical

experiments with Marxism Leninism in Southeast Asia The bulk of this edited volume presents the contents of these revolutionary ideologies on their own terms and their transformations in praxis by using primary source materials that are free of the preconceptions and distortions of counterinsurgent narratives A unifying strength of this work is its focus on using primary sources in the original languages of the insurgents themselves **The Economics of World War II in Southeast Asia** Gregg Huff,2020-10-22 The first comprehensive account of the impact of Japanese occupation on Southeast Asian economies and societies during World War II **Who Hollered Fore? Lean:Controlling Processes** Don Tapping,2005

Forgotten Armies Christopher Alan Bayly,Timothy Norman Harper,2005 In the early stages of the Second World War the vast crescent of British ruled territories stretching from India to Singapore appeared as a massive Allied asset It provided scores of soldiers and great quantities of raw materials and helped present a seemingly impregnable global defense against the Axis Yet within a few weeks in 1941 42 a Japanese invasion had destroyed all this sweeping suddenly and decisively through south and southeast Asia to the Indian frontier and provoking the extraordinary revolutionary struggles which would mark the beginning of the end of British dominion in the East and the rise of today s Asian world More than a military history this gripping account of groundbreaking battles and guerrilla campaigns creates a panoramic view of British Asia as it was ravaged by warfare nationalist insurgency disease and famine It breathes life into the armies of soldiers civilians laborers businessmen comfort women doctors and nurses who confronted the daily brutalities of a combat zone which extended from metropolitan cities to remote jungles from tropical plantations to the Himalayas Drawing upon a vast range of Indian Burmese Chinese and Malay as well as British American and Japanese voices the authors make vivid one of the central dramas of the twentieth century the birth of modern south and southeast Asia and the death of British rule *General Ne Win* Robert Taylor,2015-05-25 Robert Taylor one of the most prominent scholars in Myanmar studies has written an illuminating study of Ne Win the most enigmatic and controversial of the first generation of post independence Southeast Asian leaders and how he steered a then largely unknown country Burma now Myanmar through the Cold War years This book by perhaps the only foreign political analyst to live in Burma under Ne Win is a significant contribution to the historiography of Myanmar and its unnoticed role in the Cold War in Asia Associate Professor Ang Cheng Guan Head of Graduate Studies S Rajaratnam School of International Studies Nanyang Technological University Singapore This book fills a major gap in the literature on Myanmar by providing the first scholarly account of the life of General Ne Win its enigmatic ruler for over 25 years It will be of interest not only to professional Myanmar watchers who have long awaited a detailed and comprehensive study of this important historical figure but to anyone who wants to learn more about this troubled Southeast Asian country where Ne Win s legacy is still being felt today Andrew Selth Adjunct Associate Professor Griffith Asia Institute The Colonel Ne Win of World War II and General Ne Win of post independent Myanmar was not the same as Chairman Ne Win of the BSPP Nor was the context of those days similar to the context by which he is normally judged today The present

work and Taylor's scholarship in general is acutely aware of such anachronistic projections backward made to commensurate with certain desired academic and political consequences Taylor examines Ne Win's life and career in the context of when it occurred This book returns Ne Win to the period to which he belonged Michael Aung Thwin Professor of South East Asian History University of Hawaii It is difficult to imagine that this study of Ne Win the dominant figure in the politics of Burma through most of the second half of the twentieth century will ever be surpassed Immensely detailed insightful and impressively understanding this is an outstanding work of scholarship Ian Brown Emeritus Professor of the Economic History of South East Asia School of Oriental and African Studies London Southeast Asia's Cold War Ang Cheng Guan, 2018-02-28

The historiography of the Cold War has long been dominated by American motivations and concerns with Southeast Asian perspectives largely confined to the Indochina wars and Indonesia under Sukarno Southeast Asia's Cold War corrects this situation by examining the international politics of the region from within rather than without It provides an up to date coherent narrative of the Cold War as it played out in Southeast Asia against a backdrop of superpower rivalry When viewed through a Southeast Asian lens the Cold War can be traced back to the interwar years and antagonisms between indigenous communists and their opponents the colonial governments and their later successors Burma Malaysia Singapore Brunei and the Philippines join Vietnam and Indonesia as key regional players with their own agendas as evidenced by the formation of SEATO and the Bandung conference The threat of global Communism orchestrated from Moscow which had such a powerful hold in the West passed largely unnoticed in Southeast Asia where ideology took a back seat to regime preservation China and its evolving attitude toward the region proved far more compelling the emergence of the communist government there in 1949 helped further the development of communist networks in the Southeast Asian region Except in Vietnam the Soviet Union's role was peripheral managing relationships with the United States and China was what preoccupied Southeast Asia's leaders The impact of the Sino Soviet split is visible in the decade long Cambodian conflict and the Sino Vietnamese War of 1979 This succinct volume not only demonstrates the complexity of the region but for the first time provides a narrative that places decolonization and nation building alongside the usual geopolitical conflicts It focuses on local actors and marshals a wide range of literature in support of its argument Most importantly it tells us how and why the Cold War in Southeast Asia evolved the way it did and offers a deeper understanding of the Southeast Asia we know today
