Marxism and Freedom Raya Dunayevskaya, 2024-01-11 In this classic exposition of Marxist thought Raya Dunayevskaya with clarity and great insight traces the development and explains the essential features of Marx's analysis of history Using as her point of departure the Industrial and French Revolutions the European upheavals of 1848 the American Civil War and the Paris Commune of 1871 Dunayevskaya shows how Marx inspired by these events adapted Hegel's philosophy to analyze the course of history as a dialectical process that moves from practice to theory The essence of Marx's philosophy as Dunayevskaya points out is the human struggle for freedom which entails the gradual emergence of a proletarian revolutionary consciousness and the discovery through conflict of the means for realizing complete human freedom But freedom for Marx meant freedom not only from capitalist economic exploitation but also from all political restraints Continuing her historical analysis Dunayevskaya reveals how completely Marx's original conception of freedom was perverted through its adaptations by Stalin in Russia and Mao in China and the subsequent erection of totalitarian states The exploitation of the masses persisted under these regimes in the form of a new state capitalism Yet despite the profound derailment of Marxist political philosophy in the twentieth century Dunayevskaya points to developments such as the Hungarian revolt of 1956 and the Civil Rights struggles in the United States as signs that the indomitable quest for freedom on the part of the downtrodden cannot be forever repressed The Hegelian dialectic of events propelled by the spirit of the masses thus moves on inexorably with the hope for the future achievement of political economic and social freedom and equality for all

Marxism, Socialism, Freedom Radoslav Selucky, 1979-06-17 Marxism and Democracy Joseph V. Femia, 1993-06-24 The collapse of the Soviet Union would seem to sound the death knell for Marxism as a blueprint for social change Why has this doctrine the repository of so many hopes and dreams failed in its grand ambition to liberate the human race from poverty and oppression Through a critical and systematic analysis of what Marx and his disciples had to say about democracy Joseph Femia sheds light on the reasons for this failure

From Bakunin to Lacan Saul Newman, 2007-01-01 In its comparison of anarchist and poststructuralist thought *From Bakunin to Lacan* contends that the most pressing political problem we face today is the proliferation and intensification of power Saul Newman targets the tendency of radical political theories and movements to reaffirm power and authority in different guises in their very attempt to overcome it In his examination of thinkers such as Bakunin Lacan Stirner and Foucault Newman explores important epistemological ontological and political questions Is the essential human subject the point of departure from which power and authority can be opposed Or is the humanist subject itself a site of domination that must be unmasked As it deftly charts this debate's paths of emergence in political thought the book illustrates how the question of essential identities defines and

re defines the limits and possibilities of radical politics today Marxism And The Moral Point Of View Kai Nielsen, 2021-11-28 Marxism and the Moral Point of View attempts to say what consistent Marxists working within the parameters of the canonical conceptions of Marxism should say about morality This includes what they should say about the function of morality in society about the extent of moral comment they can justifiably make and about freedom equality and justice including the justice of whole social formations Karl Marx and most Marxists follow him was opposed **Marxism, Freedom and the State.
