Marxism And Deconstruction A Critical Articulation:

Marxism and Deconstruction Michael Ryan, 2019-12-01 Originally published in 1982 Aside from Jacques Derrida's own references to the possible articulation between deconstruction and Marxism the relationship between the two has remained largely unexplored In *Marxism and Deconstruction* Michael Ryan examines that multifaceted relationship but not through a mere comparison of two distinct and inviolable entities Instead he looks at both with an eye to identifying their common elements and reweaving them into a new theory of political practice To accomplish his task Ryan undertakes a detailed comparison of deconstruction and Marxism relating deconstruction to the dialectical tradition in philosophy and demonstrating how deconstruction can be used in the critique of ideology He is a forceful critic of both the politics of deconstruction and the metaphysical aspect of Marxism as seen from a deconstructionist perspective Besides offering the first book length study of Derrida in this context Ryan makes the first methodic attempt by an American scholar to apply deconstruction to domains beyond literature He proposes a deconstructive Marxism one lacking the metaphysical underpinnings of conservative scientific Marxist theory and employing deconstructive analysis both for Marxist political criticism and to further current anti metaphysical developments within Marxism *Marxism and Deconstruction* is an innovative and controversial contribution to the fields of literary criticism philosophy and political science *Deconstruction and Marxism* ,1982 **Marxism and Totality** Martin Jay, 1984

Totality has been an abiding concern from the first generation of Western Marxists most notably Lukács, Korsch, Gramsci and Bloch through the second exemplified by the Frankfurt School, Lefebvre, Goldmann, Sartre, Merleau-Ponty and Della Volpe up to the most recent typified by Althusser, Colletti and Habermas Yet no consensus has been reached concerning the term's multiple meanings expressive, decentered, longitudinal, latitudinal, normative or its implications for other theoretical and practical matters By closely following the adventures of this troublesome but central concept *Marxism Totality* offers an unconventional account of the history of Western Marxism *Postmodernism and the Environmental Crisis* Arran Gare, 2006-08-21 *Postmodernism and the Environmental Crisis* is the only book to combine cultural theory and environmental philosophy In it Arran Gare analyses the conjunction between the environmental crisis, the globalisation of capitalism and the disintegration of the culture of modernity It explains the paradox of growing concern for the environment and the paltry achievements of environmental movements Through a critique of the philosophies underlying approaches to the environmental crisis Arran Gare puts forward his own controversial theory of a new postmodern world view This would be the foundation for the environmental movement to succeed Arran Gare's work will be a vital reading for advanced students of environmental studies as well as for environmental philosophers and cultural theorists *Jacques Derrida: Live Theory* James KA Smith, 2005-10-20 *Jacques Derrida Live Theory* is a new introduction to the work of this most influential of contemporary philosophers It covers Derrida's corpus in its entirety from his earliest work in phenomenology and the philosophy of language to his most recent work in

ethics politics and religion It investigates Derrida s contribution to and impact upon such disciplines as philosophy literary theory cultural studies aesthetics and theology Throughout the key concepts that underpin Derrida s thought are thoroughly examined in particular the notion of the Other or alterity is employed to indicate a fundamental continuity from Derrida s earliest to his latest work The text emphasizes the importance of understanding Derrida s philosophical heritage as the key to understanding the interdisciplinary impact of his project In the wake of Derrida s death the book includes an interview that interrogates the very notion of live theory as a way into the core themes of deconstruction

Gayatri Chakravorty Spivak: Live Theory Mark Sanders,2006-05-31 Gayatri Chakravorty Spivak Live Theory offers a concise comprehensive and accessible introduction to the themes central to the thought of one of the world s most provocative and original theorists The book concentrates on Spivak s engagement in theory and practice with deconstruction Marxism feminism and issues of postcoloniality and globalization and makes clear the extent of her impact in the fields of postcolonial and literary theory Gayatri Chakravorty Spivak Live Theory is a key resource for anyone studying this pioneering thinker

Alienation After Derrida Simon Skempton,2011-10-20 Alienation After Derrida rearticulates the Hegelian Marxist theory of alienation in the light of Derrida s deconstruction of the metaphysics of presence Simon Skempton aims to demonstrate in what way Derridian deconstruction can itself be said to be a critique of alienation In so doing he argues that the acceptance of Derrida s deconstructive concepts does not necessarily entail the acceptance of his interpretations of Hegel and Marx In this way the book proposes radical reinterpretations not only of Hegel and Marx but of Derridian deconstruction itself The critique of the notions of alienation and de alienation is a key component of Derridian deconstruction that has been largely neglected by scholars to date This important new study puts forward a unique and original argument that Derridian deconstruction can itself provide the basis for a rethinking of the concept of alienation a concept that has received little serious philosophical engaged attention for several decades

Jacques Derrida (Routledge Revivals) William Schultz,Lewis L.B. Fried,2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida s work and scholarship about his work It attempts to be comprehensive rather than selective listing primary and secondary works from the year of Derrida s Master s thesis in 1954 up until 1991 and is extensively annotated It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy

West Meets East Catherine L. Wang,David J. Ketchen Jr.,Donald D. Bergh,2012-07-13 Strategic management relies on an array of complex methods drawn from various allied disciplines to examine how managers attempt to lead their firms toward success This book intends to provide a forum for critique commentary and discussion about key methodology issues in the strategic management field

Modern Rhetorical Criticism Roderick P Hart,Suzanne M. Daughton,Rebecca Lavally,2017-12-06 A comprehensive and up to date

introduction to the analysis of public rhetoric Modern Rhetorical Criticism teaches readers how to examine and interpret rhetorical situations ideas arguments structure and style The text covers a wide range of critical techniques from cultural and dramatistic analysis to feminist and Marxist approaches A wealth of original criticism demonstrates how to analyze such diverse forms as junk mail campaign speeches and popular entertainment as well as literature This long awaited revision offers specific guidance on crafting analytic essays and contains new coverage of legacy as well as new media identity criticism and post colonial and decolonial criticism The fourth edition also offers additional resources online for instructors and students
